POLITIK DESENTRALISASI - COLFER, C.J.P., CAPISTRANO, D., eds. 2006-01-01

LITERATURE AND POLITICS - YOSEPH YAPI TAUM 2022-01-03

In the discourse of Indonesian literature history, the relationship between literature and politics is pressing issue, a situation that cannot be easily to overcome. A long time ago, during the Dutch colonial government, there was a rule that literature should not discuss ideology, religion, and politics. This colonial policy lasts and never changes even though Indonesia was already get its independence. That's why Indonesian literary society and writers have a strong believe that literature must not be involved in politics and it must not have any moral and political goals. Literature cannot be related to real-life directly because literature is only a fictional work. The historical aspects outside literature are considered as a background or a foreground that cannot destroy the authentic characteristics of the literary works as imaginary fictional works. Literary works tend to be only considered as entertainment tools that narrate an alternative world, which is totally different from the world where we are living. This book will be the first in discussing the relationship between literature and politics. Students and experts of various sciences who would like to understand the episteme of the New Order can get benefits from this book. This book gives us a reflection that the development is for human beings, not the human beings are for the development. The humanistic development dimension must be a must. Literary works still exist continuously to guard the Indonesians' struggles in defending their human dignity.

HUMAN DIMENSION AND INTERIOR SPACE - JULIUS PANERO 2014-01-21

The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. *Human Dimension and Interior Space* is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The

third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With *Human Dimension and Interior Space*, these standards are now accessible to all designers of interior environments.

POLITICAL REFORM IN INDONESIA AFTER SOEHARTO - HAROLD A. CROUCH 2010

THREE DECADES OF AUTHORITARIAN RULE IN INDONESIA CAME TO A SUDDEN END IN 1998. THE COLLAPSE OF THE SOEHARTO REGIME WAS ACCOMPANIED BY MASSIVE ECONOMIC DECLINE, WIDESPREAD RIOTING, COMMUNAL CONFLICT, AND FEARS THAT THE NATION WAS APPROACHING THE BRINK OF DISINTEGRATION. ALTHOUGH THE FALL OF SOEHARTO OPENED THE WAY TOWARDS DEMOCRATIZATION, CONDITIONS WERE BY NO MEANS PROPITIOUS FOR POLITICAL REFORM. THIS BOOK ASKS HOW POLITICAL REFORM COULD PROCEED DESPITE SUCH UNPROMISING CIRCUMSTANCES. IT EXAMINES ELECTORAL AND CONSTITUTIONAL REFORM, THE DECENTRALIZATION OF A HIGHLY CENTRALIZED REGIME, THE GRADUAL BUT INCOMPLETE WITHDRAWAL OF THE MILITARY FROM ITS DEEP POLITICAL INVOLVEMENT, THE LAUNCHING OF AN ANTI-CORRUPTION CAMPAIGN, AND THE ACHIEVEMENT OF PEACE IN TWO PROVINCES THAT HAD BEEN DEVASTATED BY COMMUNAL VIOLENCE AND REGIONAL REBELLION.
