Death Waits in the Dark - Mark Edward Langley 2020-08-04

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Spanning more than two centuries in Ireland, *Castle on the Rise* unites the legacy of three women who must risk mending their broken places for life, love, and the belief that even through the depths of our pain, a masterpiece of a story can emerge. When Laine Forrester travels overseas to attend her best friend's vineyard wedding, she expects to find the bride on the brink of a fairy-tale life. But after a series of unforeseen setbacks, it seems the storybook lives they'd imagined are suddenly ripping apart. With hopes of resurrecting a happy ending, Laine agrees to accompany the newlyweds to the groom's home in Ireland—never expecting she'd be the one drawn in by its wide-open moors, backroads bordering the Irish Sea, and a mysterious castle that dares to keep its secrets hidden. From the storied streets of Dublin to the shores of the Emerald Isle, Laine is drawn in to the land and its rich history. Logical Progression - Steve Bechtel 2017-02-23

Training for climbing can be fun, but sticking to a schedule can be desperately hard. Many climbers have seen the value of a carefully planned out, periodized training program. Clearly, such programs work, but many of us can't stick to such a rigid schedule. What if there were a better way? What if there were a more flexible way of planning that provided the same great results? And what if such a program allowed you to maintain high levels of climbing performance much longer than you could on a traditional program? For the climber that has limited time to train, there may be no better program than *Logical Progression*. For anyone who wants to get fit and stay fit for long trips and redpoint seasons, the program outlined in this book can give you a great advantage. Based on solid science and tested by hundreds of climbers, *Logical Progression* is a simple and very effective way of organizing your training, and making sure that progress keeps coming.

Atlas of the Human Brainstem - George Paxinos 2013-10-22

Work on the human brainstem has been impeded by the unavailability of a comprehensive diagrammatic and photographic atlas. In the authors' preliminary work on the morphology of the human brainstem (*The Human Nervous System*, 1990), Paxinos et al demonstrated that it is possible to use chemoarchitecture to establish a number of human homologs in structures known to exist in the rat, the most extensively studied species. Now, with the first detailed atlas on the human brainstem in more than forty years, the authors present an accurate,

comprehensive, and convenient reference for students, researchers, and pathologists. Key Features * The first detailed atlas on the human brainstem in more than forty years * Delineated as accurately as *The Rat Brain in Stereotaxic Coordinates*, Second Edition (Paxinos/Watson, 1986), the most cited book in neuroscience * Based on a single brain from a 59-year-old male with no medical history of neurological or psychiatric illness * Represents all areas of the medulla, pons, and midbrain in the plane transverse to the longitudinal axis of the brainstem * Consists of 64 plates and 64 accompanying diagrams with an interplate distance of half a millimeter * The photographs are of Nissl and acetylcholinesterase (AChE) stained sections at alternate levels * Establishes systematically the human homologs to nuclei identified in the brainstem of the rat. Reviewed by leading neuroanatomists * An accurate and convenient guide for students, researchers, and pathologists

International Copyright and Access to Knowledge - Sara Bannerman 2016-02-19

The principle of Access to Knowledge (A2K) has become a common reference point for a diverse set of agendas that all hope to realize technological and human potential by making knowledge more accessible. This book is a history of international copyright focused on principles of A2K and their proponents. Whilst debate and discussion so far has covered the perspectives of major western countries, the author's fresh approach to the topic considers emerging countries and NGOs, who have fought for the principles of A2K that are now fundamental to the system. Written in a clear and accessible style, the book connects copyright history to current problems, issues and events.

The Poetry of Carla Lisbeth Rueckert - Carla Lisbeth Rueckert 2014-04

What is a life? Is it merely a succession of the moments that fly from birth to death? Surely not, for each heart makes its own melodies. Each melody sounds its own symphony of emotions. Each emotion offered from the heart creates its own connections that can never be gainsaid. Perhaps there is no record of a life more telling than the handful of poems a soul has thought to write down. And so this volume holds my life, its melodies caught in these poor poems. This is my life, slender as a flower, dancing forever. These are the poems that have fallen from a heart full of love. One by one, they sing for you, Beloved.

The San Juan Islands - Anne Yeadon-Jones 2006-02-10

Outrage on Gallows Hill - George Bellairs 2017-05-01

The war is over and blackouts are a thing of the past, except in the village of Melchester, where the local council has refused to sully its streets with unsightly lamps. The night is pitch black, but hardly quiet. Young lovers are rendezvousing, a police constable is helping himself to a few of his neighbor's partridges, and a poet is going to visit his beloved, a new verse on his lips. She will never hear it, sadly, for the young man is stopped along his way – stopped forever, by the tight grip of the garrote. The local constabulary wastes no time reaching out to Scotland Yard, which sends its best man: the easygoing detective-inspector Littlejohn. In Melchester he will find unspeakable secrets – and one citizen whose soul is as dark as the village night.

The Widow Waltz - Sally Koslow 2013-06-13

"This heartfelt, witty addition to women's fiction will appeal to fans of Elizabeth Berg and Anna Quindlen." (Booklist) Georgia Waltz has things many people only dream of: a plush Manhattan apartment overlooking Central Park, a Hamptons beach house, valuable jewels and art, two bright daughters, and a husband she adores, even after decades of marriage. It's only when Ben suddenly drops dead from a massive coronary while training for the New York City Marathon that Georgia discovers her husband—a successful lawyer—has left them nearly penniless. Their wonderland was built on lies. As the family attorney scours emptied bank accounts, Georgia must not only look for a way to support her family, she needs to face the revelation that Ben was not the perfect husband he appeared to be, just as her daughters—now ensconced back at home with secrets of their own—have to accept that they may not be returning to their lives in Paris and at Stanford subsidized by the Bank of Mom and Dad. As she uncovers hidden resilience, Georgia's sudden midlife shift forces her to consider who she is and what she truly values. That Georgia may also find new love in the land of Spanx and stretch marks surprises everyone—most of all, her. Sally Koslow's fourth novel is deftly told through the alternating viewpoints of her remarkable female protagonists as they plumb for the grit required to reinvent their lives. Inspiring, funny, and deeply satisfying, *The Widow Waltz* explores in a profound way the bonds between mothers and daughters, belligerent siblings, skittish lovers, and bitter rivals as they discover the power of forgiveness, and healing, all while asking, "What is family, really?"

Voices of the Confederation - Don Elkins 2016-12-14

First compiled and edited in 1975, *Voices of the Confederation* is a collection of channeled material from the early years of Don Elkins' and Carla Rueckert's experiments with telepathic communication with extraterrestrials. Originally titled *Voices of the Gods*, it was never officially published and sat on the shelf until the project was resurrected decades later. The collection contains excerpts arranged categorically to help introduce people to Confederation philosophy. Some of these transcripts are being published for the first time in this book, having never appeared on L/L Research's archive website. Topics covered include channeling, meditation, love, service, UFOs, and other subjects relevant to the spiritual seeker. Explored in these pages are the basic themes of the Confederation philosophy that have become the hallmark of L/L Research's channeling ever since. "Seek, my friends. Seek. This is the word that opens the door to everything that exists throughout all of space and all of time. Seek. Seek. And what will you find? You will find love, for that is all that there is to find. For that is all that there is." - Hatonn, February 9, 1974

Love can be blinding and by the time the truth shines through, it's too late to escape. Fame. Fortune. Success. Is that too much to ask? All I need is to catch a break. To snag the attention of someone important. Someone who can help make my career everything I want it to be. Joseph was that man. Until the night the lights went out and I left with someone else. Someone who stole my breath and made me want for things I'd never considered before. I should have known better than to trust a stranger. Especially one of his stature and class. About the kind of man he really was and the secrets he paid good money to keep hidden from everyone. Now I'm trapped, with no way out. Book 1 of 2 in the Storm Series.

The Courage of Marge O'Doone, - James Oliver Curwood 2006-07-01

If you had stood there in the edge of the bleak spruce forest, with the wind moaning dismally through the twisting trees - midnight of deep December - the Transcontinental would have looked like a thing of fire; dull fire, glowing with a smouldering warmth, but of strange ghostliness and out of place. It was a weird shadow, helpless and without motion, and black as the half-Arctic night save for the band of illumination that cut it in twain from the first coach to the last, with a space like an inky hyphen where the baggage car lay. Out of the North came armies of snow-laden clouds that scudded just above the earth, and with these clouds came now and then a shrieking mockery of wind to taunt this stricken creation of man and the creatures it sheltered - men and women who had begun to shiver, and whose tense white faces stared with increasing anxiety into the mysterious darkness of the night that hung like a sable curtain ten feet from the car windows.
