Two Men and Music -

Janaki Bakhle 2005-10-20
A provocative account of the development of modern national culture in India using classical music as a case study. Janaki Bakhle demonstrates how the emergence of an "Indian" cultural tradition reflected colonial and exclusionary practices,

particularly the exclusion of Muslims by the Brahmanic elite, which occurred despite the fact that Muslims were the major practitioners of the Indian music that was installed as a "Hindu" national tradition. This book lays bare how a nation's imaginings--from politics to culture--reflect rather than transform societal divisions.

Mass Communication In India - J V Vilanilam
2005-10-04

This book traces the progress of mass communications in India and the West from a historical and sociological perspective, from primitive to modern times. Placing his argument in the global

context within which mass communication takes place, the author: - Emphasizes the distinction between communication and mass communication—the former being a two-way exchange and the latter mostly a one-way communication. - Discusses the relevance of mass communication for the largely illiterate population of India, with particular reference to the type of media content and the inadequacy of conventional schooling. - Discusses the rapid technological progress in the world in recent decades in the context of digitalization, computerization and media convergence, as well as the global nature of mass communication. - Highlights that almost half the world's population remains untouched by the communications revolution even at the beginning of the 21st century. - Examines the potential of EDUSAT, the

educational satellite launched recently, as a means to bring education and information to all sectors of the Indian population.
