Designing Data-Intensive Applications - Martin Kleppmann 2017-03-16

Data is at the center of many challenges in system design today. Difficult issues need to be figured out, such as scalability, consistency, reliability, efficiency, and maintainability. In addition, we have an overwhelming variety of tools, including relational databases, NoSQL datastores, stream or batch processors, and message brokers. What are the right choices for your application? How do you make sense of all these buzzwords? In this practical and comprehensive guide, author Martin Kleppmann helps you navigate this diverse landscape by examining the pros and cons of various technologies for processing and storing data. Software keeps changing, but the fundamental principles remain the same. With this book, software engineers and architects will learn how to apply those ideas in practice, and how to make full use of data in modern applications. Peer under the hood of the systems you already use, and learn how to use and operate them more effectively Make informed decisions by identifying the strengths and weaknesses of different tools Navigate the trade-offs around consistency, scalability, fault tolerance, and complexity Understand the distributed systems research upon which modern databases are built Peek behind the scenes of major online services, and learn from their architectures

The Leader in Me - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers - Kotler Philip 2019-03-15

Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment, such as the digital revolution. This is critical all over the world, but none more so than in Asia. Asia is not only the world's biggest market, but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing, provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete, but also to analyze the concepts of new wave marketing their actions are based on. This book is unique in its depth and breadth of cases, from companies in the ASEAN region to North-east Asia, including Mongolia and SAARC. The authors of this book, Professor Philip Kotler, arguably the Father of Modern Marketing,

Hermawan Kartajaya from Indonesia, and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book, Marketing for Competitiveness. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.
