Whimsical Times - Mukta Arya 2016-03-24
Whimsical Times: Memories from Hong Kong distills on its pages the sensations and reflections of Mukta Arya, a writer and poet who works as a human resources

professional in Hong Kong. Over the course of her time in the city, she captured in writing her experiences and the thoughts and feelings that sprang from the events and observations of her days. Even the small details of Hong Kongs life prove worthy of reflection. For instance, the author draws in the reader by illustrating the wonder and mystery of the ordinary: The glittering shops in Hong Kong with every possible type of bling available- for phone covers, bags, clips, purses, ipad covers..you name it and they have it. The glitter can actually kill a person by the combined strength of the coloured rays! I always used to wonder who are the target buyers for these really, really BLINGY articles which seem to be shouting boldly -LOOK AT ME. Why would someone actually buy these in-your-face things...and guess what? I was in for a surprise, a very big surprise. If you find joy in connecting with the deeply human moments of life, particularly when they arise from

unusual and unexpected locales, then Whimsical Times: Memories from Hong Kong will satisfy you with its personal musings on life in that city. In the end, the lessons Mukta Arya extracts from her reflections reveal the universal truths of human life, whatever place one calls home.

Emotional Intuition for Peak Performance - Jason Gregory
2020-06-16

Reveals a structured mind-body system for cultivating effortless action and intelligent spontaneity for peak performance • Details 4 fundamental habits and routines that are essential for developing peak performance and explains how to incorporate them into daily life • Explains the cognitive science behind the development of expert skills and how the teachings of ancient Eastern sages align with these scientific findings • Offers practices for cultivating physical and mental intelligence, fasting the mind, and harnessing creativity to achieve your desires Integrating the wisdom of the ancient sages with modern science, Jason Gregory explains how world-class artists and athletes reach peak performance--and how you, too, can harness this "lifestyle technology" to make your actions effortless, enjoy intelligent spontaneity, and reach

optimal performance at a peak level. Drawing on modern cognitive science, Gregory explains dual process theory, which divides mental activity into two spheres: cold cognition, analogous with rational thought, and hot cognition, based on emotional intuition--a theory anticipated by ancient Eastern thought, especially the teachings of the Chinese sages. The author explains that peak performance is impossible to achieve by relying solely on cold cognition as it cuts you off from the energy reserves necessary to excel. He shows how the athletic concept of being "in the zone" is based on practices that have become energized by hot cognition and thus instinctive. Outlining a structured training system that blends hot and cold cognition, the author identifies four fundamental habits and routines that lay the foundation for a healthy embodied mind and mindful body and thus are essential for developing peak performance and success. He explains how these training methods are practical applications of ancient wisdom from Zen and Taoist traditions, such as wu-wei, as well as how they are supported by recent medical research. Building on the four fundamentals, he offers practices for cultivating physical and mental intelligence, fasting the mind, and harnessing creativity to achieve your desires. Gregory explains how, with regular practice, we can use the four fundamentals to create masterpiece days. And, as the masterpiece days compound, you build an unstoppable momentum where success is inevitable.
