Juarez and His Mexico - Ralph Roeder 1968

Finanzas aplicadas - Manuel Chu Rubio 2019-03-01

La última crisis internacional, conocida como "crisis de los países desarrollados", nos ha recordado que no somos una isla y que nuestra vida cotidiana está muy ligada al quehacer financiero, lo cual hace imperativo el conocimiento de los conceptos básicos de las finanzas modernas. Los ejecutivos cada vez son más conscientes de que la creación de valor en las empresas se debe dar en el largo plazo. Entendemos por valor el incremento de las riquezas de los dueños de capital, que no es otra cosa que obtener mayores utilidades e incrementar el valor patrimonial, de tal forma que el valor de la empresa sea cada vez mayor. ¿Cuándo se crea valor? Cuando la rentabilidad obtenida es mayor al costo de capital de los accionistas. Muchos negocios obtienen utilidades e incluso pagan impuestos por utilidades declaradas, pero la pregunta sería si la rentabilidad es mayor a su costo de oportunidad. Si lo anterior no ocurre, no estamos creando valor.

Sovereign Debt Diplomacies - Pierre Penet 2021

This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Sovereign Debt Diplomacies aims to revisit the meaning of sovereign debt in relation to colonial history and postcolonial developments. It offers three main contributions. The first contribution is historical. The volume historicises a research field that has so far focused primarily on the post-1980 years. A focus on colonial debt from the 19th century building of colonial empires to the decolonisation era in the 1960s-70s fills an important gap in recent debt historiographies. Economic historians have engaged with colonialism only reluctantly or en passant, giving credence to the idea that colonialism is not a development that deserves to be treated on its own. This has led to suboptimal developments in recent scholarship. The second contribution adds a 'law and society' dimension to studies of debt. The analytical payoff of the exercise is to capture the current developments and functional limits of debt contracting and adjudication

in relation to the long-term political and sociological dynamics of sovereignty. Finally, Sovereign Debt Diplomacies imports insights from, and contributes to the body of research currently developed in the Humanities under the label 'colonial and postcolonial studies'. The emphasis on 'history from below' and focus on 'subaltern agency' usefully complement the traditional elite-perspective on financial imperialism favoured by the British school of empire history.

This is Not Leonardo Da Vinci - Riccardo Magnani 2021-01-04

Despite so much being written about Leonardo da Vinci and the Renaissance, many questions about the Tuscan artist's life and works remain shrouded in mystery: Why isn't the painting exhibited at the Louvre Museum the Mona Lisa? Why do we find so many pagan symbols in Leonardo's Christian representations? Was Leonardo really the son of a notary and a slave? Why is there such a lack of work from Leonardo's early life-perhaps his most important period? Why do we have paintings of the Americas well before the first trips of Christopher Columbus? Riccardo Magnani, economist-turned-Leonardo expert, reconstructs the political and economic world around da Vinci, illustrating how he was influenced by the biggest "discovery" of all, the Americas. This is not Leonardo provides the key to understanding Leonardo's visual language, within the context of the Renaissance and its artists-essential to fully comprehend his work and the many clues he left behind. Magnani reveals little-known facts about Leonardo's education, long suppressed by the Catholic Church-from his use of iconography of the ancient Egyptians, Greeks and Byzantines, to his influence by the Neoplatonic movement led by George Gemistus. Thanks to the new insights presented by This is not Leonardo, the dogmatic prism that our Western society has employed for so long to understand Leonardo da Vinci can now finally be challenged.

Movies R Fun! - Josh Cooley 2014-02-25

No one under seventeen should be admitted without a parent or guardian to these "fun-filled" illustrations of twisted movie moments from a beloved animator (Parade). Let's face it, reading sucks . . . but movies are fun! In this grown-up parody of a children's picture book, Pixar writer and artist Josh Cooley presents the most hilariously inappropriate—that is, the best—scenes from contemporary classic films in an illustrated, for-early-readers style. Terrifying, sexy, and awesome scenes from such favorite films as Alien, Rosemary's Baby, Fargo, Basic Instinct, Seven, The Silence of the Lambs, Apocalypse Now, The Shining, and many more are playfully illustrated and captioned to make reading fun and exciting for kids who never grew up. A sly celebration of the things fans love most about these legendary films (and movies in general), this is one book that probably should not be read at bedtime.

Narcoland - Anabel Hernandez 2013-09-10

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for

journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."
