Freedom of Expression® -  
Kembrew McLeod 2007

In 1998 the author, a  
professional prankster,  
trademarked the phrase  
"freedom of expression"  
to show how the  
expression of ideas was  
being restricted. Now he  
uses intellectual  
property law as the  
focal point to show how  
economic concerns are  
seriously eroding  
creativity and free  
speech.

**The Nativist Prophets of  
Early Islamic Iran** -  
Patricia Crone  
2012-06-28  
Patricia Crone's latest

book is about the Iranian response to the Muslim penetration of the Iranian countryside, the revolts subsequently triggered there, and the religious communities that these revolts revealed. The book also describes a complex of religious ideas that, however varied in space and unstable over time, has demonstrated a remarkable persistence in Iran across a period of two millennia. The central thesis is that this complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country, most strikingly in the revolts examined here, and in the rise of the Safavids who imposed Shi'ism on Iran. This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre-Islamic Iran, and on the persistence of Iranian religious beliefs both

outside and inside Islam after the Arab conquest.

*The Dangerous Lives of Public Performers* - A.

Shay 2014-07-10

Examining performers from the ancient Mediterranean world to

the modern Islamic Middle East, including India and Pakistan, Shay explores the careers, artistic performances, and legacies of these individuals who were forced to produce entertainment and art for, and have sex with, any and all patrons.

*Armenia* - Helen C. Evans  
2018-09-22

At the foot of Mount Ararat on the crossroads of the eastern and western worlds, medieval Armenians dominated international trading routes that reached from Europe to China and India to Russia. As the first people to convert officially to Christianity, they commissioned and produced some of the most extraordinary religious objects of the Middle Ages. These objects—from sumptuous illuminated manuscripts to handsome carvings, liturgical furnishings, gilded reliquaries, exquisite textiles, and printed books—show the strong persistence of their own cultural identity, as well as the

multicultural influences of Armenia's interactions with Romans, Byzantines, Persians, Muslims, Mongols, Ottomans, and Europeans. This unprecedented volume, written by a team of international scholars and members of the Armenian religious community, contextualizes and celebrates the compelling works of art that define Armenian medieval culture. It features breathtaking photographs of archaeological sites and stunning churches and monasteries that help fill out this unique history. With groundbreaking essays and exquisite illustrations, Armenia illuminates the singular achievements of a great medieval civilization.

*Modern Music and After* -  
Paul Griffiths  
2011-02-16

Over three decades, Paul Griffiths's survey has remained the definitive study of music since the Second World War; this fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time. The disruptions of the war, and the struggles of the ensuing peace, were reflected in the music of the time: in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music; in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies; in Karlheinz Stockhausen's development of electronic music and in

Luigi Nono's pursuit of the universally human, in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language. The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding. This constant expansion of musical thinking since 1945 has left us with no singular history of music; Griffiths's study accordingly follows several different paths, showing how and why they converge and diverge. This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition, but also the recent explosion of scholarly interest in the latter half of the twentieth century. In particular, the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers

of the 1980s and 1990s. Griffiths then moves the book into the twenty-first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino. For its breadth, wealth of detail, and characteristic wit and clarity, the third edition of *Modern Music and After* is required reading for the student and the enquiring listener.

**Research and Development in Intelligent Systems**

**XVIII** - Frans Coenen  
2012-12-06

M.A. BRAMER University of Portsmouth, UK This volume comprises the refereed technical papers presented at ES200 1, the Twenty-first SGES International Conference on Knowledge Based Systems and Applied Artificial Intelligence, held in Cambridge in December 200 1, together with an invited keynote paper by Professor Derek Sleeman. The conference was organised by SGES, the British Computer Society Specialist Group on Knowledge Based Systems and Applied Artificial Intelligence. The papers in this volume present new and innovative developments in the field, divided into sections on Machine Learning, Constraint Satisfaction, Agents, Knowledge Representation, Knowledge Engineering, and Intelligent Systems. The refereed papers begin with a paper

entitled 'Detecting Mismatches Among Experts' Ontologies Acquired Through Knowledge Elicitation', which describes a systematic approach to the analysis of discrepancies within and among experts' ontologies. This paper was judged to be the best refereed technical paper submitted to the conference. The remaining papers are devoted to topics in important areas such as agents, knowledge engineering, knowledge representation, planning and constraint satisfaction, with machine learning again the largest topic covered in terms of the number of papers accepted for publication. This is the eighteenth volume in the Research and Development series. The Application Stream papers are published as a companion volume under the title Applications and Innovations in Intelligent Systems IX.

Handbook of Human Resources Management - Matthias Zeuch 2016-05-09

Human Resources topics are gaining more and more strategic importance in modern business management. Only those companies that find the right answers to the following questions have a

sustainable basis for their future success: - How can we attract and select the right talent for our teams? - How can we develop the skills and behaviors which are key for our business? - How can we engage and retain the talent we need for our future? While most other management disciplines have their standards and procedures, Human Resources still lacks a broadly accepted basis for its work. - operational perspective Both the structured collection of reflected real-life experience and the multi-perspective view support readers in making informed and well-balanced decisions. With this handbook, Springer provides a landmark reference work on today's HR management, based on the combined experience of more than 50 globally selected HR leaders and HR experts. Rather than theoretical discussions about definitions, the handbook focuses on sharing practical experience and lessons

learned from the most relevant business perspectives: - cultural / emotional perspective - economic perspective - risk perspective

### **Fatal Accident Reporting System -**

Myanmar - Monique Skidmore 2007-10-01  
Despite deteriorating economic and developmental conditions, worsening environmental problems, and troubles arising from the unresolved status of its ethnic minorities, Myanmar seems no closer to a political resolution. Myanmar's economy continues to stagnate, with severe implications for its people. Low levels of international assistance have exacerbated the situation. Myanmar the state, community and the environment examines the missed opportunities by government and opposition groups to find a way out of the political impasse and improve the standard of living of the people of Myanmar. This collection

provides insights into the country's economic development, in particular the vital rice-marketing sector and the attempts to expand existing industrial zones. It focuses, for the first time, on Myanmar's environmental governance with in-depth case studies, and on the increasing need for effective environmental protection and sustainability..  
*Civilization Past & Present* - Palmira Johnson Brummett 2005-02  
The authors of the Eleventh Edition of *Civilization Past and Present* specialists in Islamic, African, Asian, Ancient, Russian, and East European history weave the diverse trends of world history into a clear and accessible analysis for today's students. *Civilization Past and Present*, well known in the marketplace as a highly readable survey text, delivers a strong narrative of world history and a level of detail that is manageable for students

and solid for instructors. Using images and documents that enhance the text's content, the narrative traces connections across cultures and introduces intriguing avenues of historical interpretation. The text examines all aspects of world history social, political, economic, religious, cultural, and geographic.
