Overlanders' Handbook - Chris Scott 2011

Chris Scott and his band of globetrotting contributors and specialists have put together the definitive manual for planning and undertaking a vehicle-dependent overlanding adventure across the wilds of Africa, Asia and Latin America. The Overlanders' Handbook is written in the same entertaining yet clear jargon-free English for which Chris's other books are known - it doesn't assume you know your plug gap from a radiator cap. Planning - When to go; typical costs; documentation; sponsorship; early overland journeys. Vehicle choice and preparation - The Overlanders' Handbook is the most comprehensive account in print, covering everything from adapting a cheap car to equipping a campervan or 4x4 for months on the road, or even building and outfitting your own accommodation module to mount on an all-terrain truck chassis. Life on the road - How to handle dodgy borders, haggle over a purchase, treat a dodgy stomach and cope with crazy driving conditions. Guidance on wild camping; navigation and mapping strategies; onward shipping; advice for solo women overlanders; travelling with children or with pets; vehicle repairs and troubleshooting; and off-road driving techniques. Continental route outlines - Guidelines on both popular and obscure overland routes through Africa, Asia and Latin America. Includes fuel prices, easiest borders and best seasons, visa strategies, danger zones and regional highlights. Overlanders' Tales - Half a dozen accounts of global adventures lasting months or even years - in vans, 4x4s and all-terrain trucks - from contributors aged from 9 to 69. Supported by the online resource: www.overlanders-handbook.com

Nigeria's Soldiers of Fortune - Max Siollun 2019-08-29

In the cataclysmic decade that is the focus of this book, Nigeria was subject to several near-death experiences. These began when the country nearly tore itself apart after the northern-led military government annulled the results of a 1993 presidential election won by the southerner Moshood Abiola, and ended with former military ruler General Olusegun Obasanjo being the unlikely conduit of democracy. This mini-history of a nation's life also reflects on three

mesmerizing protagonists who personified that era. First up is Abiola: the multi-billionaire businessman who had his election victory voided by the generals who made him rich, and who was later assassinated. General Sani Abacha was the mysterious, reclusive ruler under whose watch Abiola was arrested and pro-democracy activists (including Abiola's wife) were murdered. He also oversaw a terrifying Orwellian state security operation. Although Abacha is today reviled as a tyrant, the author eschews selective amnesia, reminding Nigerians that they goaded him into seizing power. The third protagonist is Obasanjo, who emerged from prison to return to power as an elected civilian leader. The penumbra of military rule still looms over Nigeria nearly twenty years after the soldiers departed, and key personalities featured in this book remain in government, including the current president.
