*Divorce Sucks* - Mary Jo Eustace 2009-09-18

Hock the platinum. Take down the vacation photos. Cancel the joint checking account. There's no question . . . Divorce Sucks. And perhaps no one knows that better than author Mary Jo Eustace, whose ex-husband Dean McDermott married Tori Spelling a mere thirty days after their divorce was finalized. One part tell-all and one part guide to get readers on their feet after a bitter breakup, this hilarious addition to the bestselling Sucks series tells everything readers don't want to know about divorce - from what a phone call with a lawyer will cost; to how to handle your newer, younger replacement; to what Hollywood divorcees are actually thinking when they watch their ex walk the red carpet with a millionairess. Sometimes horrifying, sometimes gratifying, and never merciful, this book will give readers an inside look at one of today's most public divorces while reminding them - hey, it could always be worse.

**Setting Up a Cloud-hosted Environment for Dynamics 365** - Murray Fife 2019-06-30

The Waterdeep Trading Company is the purveyor of all the finest adventuring supplies to travelers, rogues, wizards and clerics in all Faerûn, and are headquartered in the great city of Waterdeep on the Sword Coast. Recently they have been experiencing a huge upswing in the traffic through their store and have realized that the old quill and scroll based financial system is not going to scale any more, and their manual supply chain management processes that they are using will not be able to handle their forecasted future demand. As a result, they have taken the step to modernize their finance and supply chain systems and implement Microsoft Dynamics 365 to manage all their legal (and not so legal) entities, and the following is a journal of how they set up their system, and how they tweaked the system to make it work perfectly for them. If you want to follow along in the journey and set up your own copy of the system, then feel free.

**Configuring Production Control Within Dynamics Ax 2012** - Murray Fife 2014-04-21

The Production Control area within Dynamics AX is a great feature to leverage if you are performing any type of manufacturing within your business, and is very powerful and flexible. It is able to handle almost anything that you want to throw at it, and is able to handle discrete and process based manufacturing requirements, it is able to perform both traditional and Lean based execution methodologies, it has inbuilt shop floor terminals that you can take advantage of, it has scheduling out of the box, and also has comprehensive costing capabilities that you can take advantage of. But that doesn't mean that it's complicated to set up. In this book we will start you off on your way by showing you how you can start using the Production Control module to create Bills Of Materials, link them with Routes and Resources, and then show you how you can easily configure the shop floor interface, control the production through work instructions, and finally extend out the costing capabilities by creating Costing Sheet template. Once you have this up and running you will have almost all that you need to model all of your production within Dynamics AX.

### **Configuring Product Information Management Within Dynamics AX 2012** - Murray Fife 2015-04-18

The Product Information Management area within Dynamics AX not only allows you to manage all of the core product details. It is also the central location for all the other product information such as the Product Attributes, Product Categories, External Product Descriptions and Product Structures. It also allows you to track the interrelationships between the products through this part of the system with the Product Relationships. If you want to add more control over the products lifecycle then you can use the Product Change Management Cases. All of this information is

managed through this one location and then consumed within all of the other modules. Setting up the Product and Service details are not hard either and this guide is designed to give you step by step instructions to show you how to configure the Product Information Management area, and also how some of the basic parts work to get you up and running and working with your Products and Services.
