Jack McAfghan - Kate McGahan 2015-04-02

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Blabac Photo - 2009-07-14

"It's rad what I do." -Mike Blabac
Blabac Photo: The Art of Skateboarding Photography is astunning chronicle of a youth movement as seen through the lens of Mike Blabac, a man who is as dedicated to his craft as he is to the skateboarding lifestyle that inspired it. For millions of people around the world, skateboarding is more than a mere hobby or a sport-it's a way of life that has shaped everything from fashion and music, to videogames and art. Blabac Photo proves that point with 300 awe-inspiring images that communicate the stories and exploits of some of the most creative athletes to ever step on a skateboard including Eric Koston, Stevie Williams, Colin McKay, Rob Dyrdek, and Danny Way. As skateboarding evolved over time, from a hobby for kids on the Venice boardwalk into a global culture, skate legends were born, records were broken, titans of industry materialized-and Mike Blabac was there to document the history of the movement as it developed before his eyes.

The Ethos of Belonging - Bronwyn Clarke 2016-06-30

The Belonging Project is a longitudinal learning and teaching research project seeking to develop and define a new approach to enhancing student engagement and graduate outcomes in the School of Media and Communications RMIT University. The project, bound by the theoretical concept of belonging, grew from collaborative work undertaken within the School to develop and document a common pedagogical approach and create a unified learning and teaching narrative. Importantly, the project was aligned with the whole of undergraduate degree structure in order to achieve findings with transferability to other schools and higher education institutions.

Bruno Sacco - Nicholas Greene 2020-09

When Bruno Sacco walked through the doors on his first day at Mercedes-Benz on 13 January 1958, it is highly unlikely that his Daimler-Benz colleagues could ever imagine that this nervous young man would not only revolutionize design but would change the way design and innovation connected with brand tradition forever. Bruno Sacco is one of the most influential automotive designers of the late twentieth century; many models launched during his era now characterize the Mercedes-Benz brand. When Nik Greene asked Bruno Sacco to assist with this book, he replied humbly "No-one designs a car alone, and more to the point, I never, for one minute, wanted to. From the moment I became Head of Design, I put down my pens and became a manager of minds." With over 330 photographs and illustrations, this book includes an overview of the early days of functional vehicle design and the influence of safety on design evolution. The protagonists of Daimler-Benz design from Hermann Ahrens to Paul Bracq are covered. Design philosophy and innovation under Bruno Sacco is discussed along with the Sacco-designed cars and, finally, the Bruno Sacco legacy.

Hitler's Chariots - Blaine Taylor 2009

This book is the first ever illustrated study on the often photographed - but never fully explained - mechanical marvel, the Mercedes-Benz G-4 cross-country touring car, the vehicle that carried Adolf Hitler across much of Europe before and during World War II. Culled from the rich photo archives of Daimler-Benz, as well as from captured German albums in U.S. archives, this work depicts the G-4 in fascinating images and detailed text. Volume 2 will cover the Daimler-Benz 770K Grosser Mercedes. ILLUSTRATIONS 300 b/w images

Lamborghini Countach - Thillainathan Path Pathmanathan 2021-08-17

When launched at the Geneva motor show in 1971, the Lamborghini Countach was like a vision of the future, with its incredibly radical styling by Bertone's Marcello Gandini. Through various evolutionary stages, the Countach remained in production from 1973 to 1990 and during that time 1,997 examples were manufactured, making it exceedingly rare as well as highly desirable. Subsequently the magnificent Countach has risen to almost mythical status among collectors and enthusiasts. Now, as the model approaches its 50th anniversary, two passionate and deeply knowledgeable Countach co-owners have written an authoritative new book -- the first English-language study of the car for 30 years -- to celebrate this fabled Italian supercar in all its glory. The Countach's spectacular design and unique engineering are explored in depth, including analysis of its Bizzarrini-designed V12 engine with forward-mounted gearbox (giving 'south-north' orientation), intricate spaceframe chassis and aerodynamics. Painstaking development of the original LP500 prototype into the final LP400 production version is covered in detail, with insights into the work of key figures Paolo Stanzani, Giampaolo Dallara, Bob Wallace and Massimo Parenti. Production evolution is explained, from LP400 to LP400S and LP500S, then the definitive 5000 Quattrovalvole (QV) versions with four-valve cylinder heads, culminating in the '881/2' and '25th Anniversary' models. For today's owners and aspiring owners, matters of maintenance and restoration are investigated, with plenty of personal perspective. Speaking from the heart: Thillainathan Pathmanathan describes a 30-year journey towards Countach ownership, including visits to the Sant'Agata factory and encounters with significant people in the Countach story. Tonino Lamborghini, son of founder Ferruccio Lamborghini, provides a special chapter dispelling common myths, misconceptions and mistakes about the cars and the company. Comprehensive presentation of data includes the best available information on the thorny subject of chassis numbering and production figures. Beautifully designed and illustrated, this book will be treasured

not only by Lamborghini fans but anyone who adores sports cars, especially of the exotic Italian variety.
