STEM and Social Justice: Teaching and Learning in Diverse Settings - Cheryl B. Leggon 2017-06-06

This volume focuses on selected innovative programs designed to augment the science, engineering, engineering and mathematics (STEM) workforce through increasing and enhancing the participation of under-represented groups. The programs span the STEM career pathway—primary,

secondary, and tertiary education—and professional development and socialization—in the United States, South Africa, and New Zealand. Similarities as well as differences between and among programs across nations will be systematically analyzed for lessons learned. The conceptualization for this volume developed over the past several years during various international conferences—starting in

Havana, Cuba in 2006, and continuing at meetings in Japan (2014), South Africa (2013 and 2015), and New Zealand (2015).

The Power to Transform -
Stephanie Pace Marshall
2006-03-10

In this important new book, Stephanie Pace Marshall argues that by focusing on reforming the contents of schooling and not transforming the context and conditions of learning, we have created false proxies for learning and eroded the potentially vibrant intellectual life of our schools. Finishing a course and a textbook has come to mean achievement. Listening to a lecture has come to mean understanding. Getting a high score on a standardized test has come to mean proficiency. Credentialing has come to mean competence. To educate our children wisely requires that we create generative learning communities, by design. Such learning communities have their roots in meaning, not memory; engagement, not transmission; inquiry, not compliance; exploration, not acquisition; personalization, not uniformity; interdependence, not individualism; collaboration, not competition; and trust, not fear.

The College Board Guide to

High Schools - College Entrance Examination Board 1994

School and College - Gene I. Maeroff 1983

Cooperation between colleges and schools is considered in seven chapters. Attention is directed to academic standards, accelerating students, teacher preparation, experiments in transition, minorities, and special models. The analysis is intended to illustrate the great diversity of partnership activities in progress. In an introduction by Ernest L. Boyer, conclusions of the publication are identified as follows: high schools and colleges should cooperate to determine the content and specific skills considered essential for college entrance; students should be free to move at their own pace to make the transition from school to college; programs for beginning and senior teachers should be collaboratively developed by colleges and schools; experimental transition schools should be

established that combine the school-college years and avoid curricular overlap and duplication; collaboration is required to identify disadvantaged students at an early age and to provide the assistance they require as they move from school to college; and colleges and universities should establish a partnership with one or more school districts to provide educational and cultural enrichment as determined by principals and teachers at the schools. Writing Fiction - Janet Burroway 1987

The most widely used and respected book on writing fiction, *Writing Fiction* guides the writer from first inspiration to final revision. Supported by an abundance exercises, this guide/anthology explores and integrates the elements of fiction while offering practical

techniques and concrete examples. A focus on the writing process in its entirety provides a comprehensive guide to writing fiction, approaching distinct elements in separate chapters while building on what has been covered earlier. Topics include free-writing to revision, plot, style, characterization, dialogue, atmosphere, imagery, and point of view. An anthology of diverse and contemporary short stories followed by suggestions for discussion and writing exercises, illustrates concepts while offering variety in pacing and exposure to this increasingly popular form. The book also discusses key issues including writing workshops, using autobiography as a basis for fiction, using action in stories, using dialogue, and maintaining point of view. The sixth edition also features more short short stories than any previous edition and includes quotation boxes that offer advice and inspirational words from established writers on a wide range of topics--such as writing from experience, story

structure, openings and endings, and revision. For those interested in developing their creative writing skills.

SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS - Elva Duran

2013-04-01

Students whose first language is not English are the fastest-growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U.S. are under-educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes

the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction, listening, and speaking with Spanish-speaking students and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish-speaking students, while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally, Chapter 10 discusses two-way bilingual

immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U.S. so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts' staff development in addressing school improvement goals for increasing the achievement of Hispanic students.

Learning to Survive - Atron Gentry 1994

This book presents the experiences and ideas of a leading black educator, interweaving his autobiography with the stories of contemporary street gang members and former members. Their own words illustrate Gentry's thesis that even the hardest gang members want to

get an education and want to find The Hope Factor. In addition, the book offers an approach for dealing with the greatest challenges facing the nation today: urban violence and the miseducation of minority youth. Gentry begins by outlining his major themes and then examines American urban education, using his own personal history as well as his more than 25 years of experience in the field. He then provides exemplary case studies and proposes practical solutions. The book is addressed to future teachers and administrators as well as to those now in urban schools, and to all concerned with the state of urban and minority education.

Louisiana, Yesterday and Today - John Wilds 1996-07-01
In Louisiana, Yesterday and Today, three veteran newspapermen examine the history and character of one of America's most remarkable states. This comprehensive, entertaining work will inform natives of their rich heritage and familiarize others with the many sources of Louisiana's special charm. In concise, thematic chapters, the authors discuss practically every aspect of Louisiana's history. They explore in depth many specific events and eras, including the Louisiana Purchase, the Battle of New Orleans, the Civil War and Reconstruction, and the rise of Huey P. Long. Illuminating Louisiana's wonderfully polyglot character, they trace the cultural milieu from earliest Indian days through the French and Spanish regimes into statehood. They tell of the

pirate Jean Lafitte and the voodoo queen Marie Laveau, of the state's unique Cajun and Creole heritages, of the legendary red-light district of Storyville, and of the excitement and debauchery of Mardi Gras. As a bonus, the book provides an incisive look at the state's 64 parishes as it portrays Louisiana's history, population, economy, culture, and outstanding tourist attractions, evincing the diversity -- most notably between north and south -- that characterizes the state. An excellent guide for visitors who wish to learn about Louisiana's past as well as its present attractions, Louisiana, Yesterday and Today will also beckon natives to rediscover their heritage and the cultural wonderland that exists in their own backyard.
