Motor Business Japan - 1997

The Japanese motor industry worldwide.

La contabilità dei costi del personale - Andrea Sergiacomo 2013-01

La contabilizzazione dei costi del personale rappresenta, anche per gli addetti ai lavori, un'operazione non sempre facile e spesso fonte di dubbi: la presente guida ha l'obiettivo di illustrare, in maniera semplice e mediante l'ausilio di esempi pratici, come contabilizzare il costo del personale, evitando problematiche legate al non corretto appostamento delle voci nel bilancio di esercizio - soprattutto in presenza di eventi particolari, come la malattia, gli infortuni e così via - e alle conseguenti ripercussioni, in termini di imposizione fiscale. In virtù di questa considerazione, al fine di appostare correttamente tutte quelle voci di bilancio utili al calcolo delle imposte, è necessario valutare gli aspetti relativi agli oneri contributivi ed assicurativi, al fine dell'eventuale

deduzione dalla base imponibile IRAP. La disamina, alle cui fondamenta soggiacciono i principi contabili, si caratterizza per il gran numero di esempi - che, di fatto, rappresentano una sintesi delle casistiche più comuni che possono incontrarsi in azienda - volti a consentire un rapido approccio al lettore, soprattutto in quelle situazioni di particolare urgenza, come nel caso di dover calcolare il costo per esigenze di budget. Viene, infine, proposto un caso concreto di contabilizzazione del costo, partendo dal cosiddetto "cedolone", vale a dire il riassunto avvenuto nel periodo di lavoro considerato. Andrea Sergiacomo Dottore commercialista, Revisore legale dei conti, Mediatore civile, componente della Commissione cooperative O.D.C.E.C. di Roma e componente della Commissione diritto societario O.D.C.E.C. di Tivoli. Svolge attività pubblicitica per riviste specializzate in materia di bilancio, fisco e operazioni straordinarie.

Реструктуризация предприятия - Людмила Белых 2022-04-04

Рассмотрена сущность процесса реструктуризации и его основные этапы: оперативная и стратегическая реструктуризация. Детально проанализированы «точки повышенной опасности» в системе бизнеса, методы факторного анализа, используемые для выявления внутренних резервов развития предприятия. Освещены вопросы разработки планов финансового оздоровления, направленных на рост рыночной стоимости собственного капитала компании. Рассмотрена

основная задача реструктуризации - повышение инвестиционной привлекательности предприятия. Особое внимание уделено методам разработки антикризисной инвестиционной стратегии в условиях ограниченности финансовых ресурсов и обоснованию критериев эффективности различных вариантов развития. В основу учебного пособия положен анализ практики реструктуризации промышленных российских предприятий. Для студентов и преподавателей экономических вузов, руководителей предприятий, специалистов по антикризисному управлению.

Introduction to Sports Tourism and Event Management - Melville Saayman 2012-08-01

The importance of Sport Tourism as a developing science and Sport Events specifically is on the increase. This is especially true when experts say that sport tourism is big business. South Africa, like most other countries, hosts thousands of sport events each year. Therefore, destinations compete fiercely not only to host these events but also to offer quality events. All this is happening despite the fact that there is a lack of properly trained sport and event managers. Therefore, the purpose of this book is to equip the reader with specific knowledge and skills about the sport and events tourism phenomenon. The book deals with a wide variety of topics, stretching from the history of sport tourism

to new and globally important issues such as the greening of sport events. The book is a useful tool for both students and practitioners alike, since it also provides guidelines and case studies.

You & Your Mitsubishi Shogun (Pajero/Montero) - Paul Guinness 2005

The Mitsubishi Pajero was first launched in 1983, creating a new class of 4x4, smaller and more affordable than the Range Rover. Renamed Shogun for the UK market, and Montero for Spain and the Americas, this rugged, yet refined, off-roader rapidly became Mitsubishi's best-selling export product. In the 22 years since its introduction, the Shogun's popularity has gone from strength to strength, and in the UK grey imports of Pajeros now outnumber official Shoguns, while the Shogun brand has expanded to include the Shogun Sport and the Shogun Pinin. This fascinating book is essential reading for all Shogun owners and enthusiasts.

Violent Entrepreneurs - Vadim Volkov 2002-08-08

This book explores the economic uses of violence and coercion in Russia in the 1990s through interviews with members of criminal groups, heads of protection companies, law enforcement employees and businesspeople. It also uses journalistic and anecdotal evidence. It shows that violence has played a crucial role in creating the institutions of a new market economy, and describes the competition among so-called violence-managing agencies which have multiplied with the liberal reforms of the early 1990s. Examples of these organizations include

criminal groups, private security services, private protection companies, and informal protective agencies associated with the state. The book also examines the organizational bases of violence-prone groups in sports clubs (particularly martial arts clubs), associations for veterans of the Soviet-Afghan war, ethnic gangs, and regionally based social groups. Some groups wore state uniforms and others did not, but all of their members spoke and acted essentially the same and were engaged in the same activities: intimidation, protection, information gathering, dispute management, contract enforcement, and taxation. Each group controlled the same resource-organized violence.

Japan and the Global Automotive Industry - Koichi Shimokawa 2010-06-03

The Japanese automotive industry enjoyed spectacular success in the 1980s. This was largely due to the so-called 'Lean Production System' - the combination of an efficient production system, an effective supplier system, and a product development system. In the 1990s the industry fell on hard times because of the Japanese asset price bubble and extreme currency appreciation. In this book, eminent industry specialist Koichi Shimokawa draws on his thirty years of research and fieldwork with Japanese and American firms, to show how the Japanese automotive industry has managed to recover from this difficult period. He shows how firms like Toyota were able to transfer Japanese systems to overseas plants and how they have changed in order to compete in increasingly globalized markets. In addition, the book also addresses the two major challenges to the current industry model: the rise of China and the environmental and energy supply situation.

Mitsubishi Pajero Automotive Repair Manual - Jeff Killingsworth 2012-09-01

This is a maintenance and repair manual for the DIY mechanic. The book covers the Mitsubishi Pajero, 1997-2009 models.

Angkor Away - Steven W. Palmer 2022-02-18

Graphic designer Paul has a history. Having organized events on the London rave scene and supplied recreational drugs across the capital, he turns his back on his past life and leaves the UK to travel the world, picking up the odd bit of legal and illegal work on the way. After meeting gifted Thai chemists, Paul sets up a lab in Northern Thailand, producing high-quality LSD. But there are others on the same turf who don't appreciate the competition. When his new business comes to the attention of a local crime lord, Paul has to take drastic measures to

survive. It doesn't take long for Paul to be pulled back into the world of drug trafficking, as he gets involved with the biggest cartel in the region. When things turn sour, a frantic hunt across South East Asia follows. But when Paul and his pursuers finally confront each other, the answers are not at all what he had expected. This book contains adult content and is not recommended for readers under the age of 18.

Branding Demystified - Harsh V Verma 2010-01-20

The aspects of marketing surrounding a brand, like advertising, sales promotion and distribution, can mislead and confuse brand builders. Branding Simplified: Plans to Payoffs aims to dispel the cloud of these peripheral issues and clarify the foundations on which strong brands are built, with a distinct focus on the higher-order connect between the prospects and the brands. With the help of India-based examples and illustrations, the book analyses why brands have become indispensable in our lives. It communicates the key concepts of branding and branding strategy with an optimum degree of lucidity. The book focuses on the following important branding challenges: " Brand meaning " Brand vision

" Brand transformation " Brand value in higher orbits " Brand strategy " Leveraging the brand " Brand adjustments The book will be immensely helpful to professionals in the fields of marketing, advertising, consulting, strategy, and so on, and to entrepreneurs. Teachers and students of business management, advertising and branding will find it an incisive and exhaustive text on brand-building and brand management.

Responses to Regionalism in East Asia - Andrew Staples 2008-05-30
In the decade following the Asian financial crisis, the East Asian political economy has experienced a radical transformation. This book thus investigates the responses of Japanese automotive makers to the processes of regionalism and regionalization by locating firm-level analysis in a broader political economy context.
