**Adjudication in Religious Family Laws** - Gopika Solanki 2011-04-25

This book argues that the shared adjudication model in which the state splits its adjudicative authority with religious groups and other societal sources in the regulation of marriage can potentially balance cultural rights and gender equality. In this model the civic and religious sources of legal authority construct, transmit and communicate heterogeneous notions of the conjugal family, gender relations and religious membership within the interstices of state and society. In so doing, they fracture the homogenized religious identities grounded in hierarchical gender relations within the conjugal family. The shared adjudication model facilitates diversity as it allows the construction of hybrid religious identities, creates fissures in ossified group boundaries and provides institutional spaces for ongoing intersocietal dialogue. This pluralized legal sphere, governed by ideologically diverse legal actors, can thus increase gender equality and individual and collective legal mobilization by women effects institutional change.

Hindu women in India have independent right of ownership to property under the Law of Succession (The Hindu Succession Act, 1956). However, during the last five decades of its operation not many women have exercised their rights under the enactment. This volume addresses the issue of Hindu peasant women's ability to effectuate the statutory rights to succession and assert ownership of their share in family land. The work combines a critical evaluation of law with economic analyses into allocation of resources within the family as a means of addressing gender relations and explaining resulting gender inequalities.

Women of India - Bharati Ray 2005-09-15

This valuable reference work, the first volume in the SAGE series History of Science, Philosophy and Culture in Indian Civilization, offers insights into the lives of Indian women by taking into account the complex interlinking of class, caste, ethnicity, religion, nation, state policy and gender. The themes taken up in the various essays in this volume are crucial to the understanding and experience of gender in India. They revolve around a number of important central issues: - That the 'woman question' was the chosen site for cultural confrontation between the colonial British and the colonized Indians; - That the freedom movement gave women the opportunity to break the monopoly of men over the political arena; - That despite legal and constitutional guarantees concerning the equality of the sexes, women in post-colonial India are struggling to be treated as equals. The essays are divided into six interrelated sections:

Family/Law; Body/Sexuality; Knowledge System; Work; Creativity/Voices; and Politics. Within these broad frameworks, the 30 contributors to this volume explore the operation of power and women's resistance to it, and how they continue to play a role in modern-day India. Drawing on themes across disciplines and across India to raise our awareness of overt and covert discriminations against women, the book reminds us of the multiple ways in which women manage to survive and thrive despite familial, community and state neglect.

**Separated and Divorced Women in India** - Kirti Singh 2013-04-30

Separated and Divorced Women in India examines the economic rights and entitlements of separated/deserted women in law and practice in India, and explores all the laws and policies relating to

financial support for a wife or child that come into play once a separation or divorce has taken place. Based on a survey of more than 400 women in four different regions across the country, this seminal work lays bare the miserable financial conditions of separated/deserted women and the lengthy procedural obstacles that these women have to contend with to get any justice. It interrogates the absence of any laws that would give Indian women ownership rights in the property and assets that they have helped to acquire through financial or non-financial contributions in the marital home, and suggests that Community of Property should be made a part of law for all Indian women. This work further challenges the conventional understanding of productive work and advocates recognition of the productive nature of women's household work. Another aspect discussed pertains to the pervasive scourge of dowry and how seldom women recover their dowry and stridhan through the law.

Hindu Law - Werner Menski 2008-09-10

This book presents a study on a postmodernist analysis of classical Hindu law, which has become neglected due to the modernist assumptions about the increasing irrelevance of 'religious' legal systems. The book is split into three parts. The first part focuses on the historical and conceptual background of Hindu law, while the second part concentrates on five facets of Hindu law that go beyond tradition and modernity, namely the Hindu marriage law, child marriage, polygamy, divorce, and the maintenance law. Finally, the third part presents a concluding analysis to the preceding chapters, where it presents the postmodern condition of Hindu law.
