Under the Skin - Linda Villarosa 2022-06-14

From an award-winning writer at the New York Times Magazine and a contributor to the 1619 Project comes a landmark book that tells the full story of racial health disparities in America, revealing the toll racism takes on individuals and the health of our nation. In 2018, Linda Villarosa's New York Times Magazine article on maternal and infant mortality among black mothers and babies in America caused an awakening. Hundreds of studies had previously established a link between racial discrimination and the health of Black Americans, with little progress toward solutions. But Villarosa's article exposing that a Black woman with a college education is as likely to die or nearly die in childbirth as a white woman with an eighth grade education made racial disparities in health care impossible to ignore. Now, in *Under the Skin*, Linda Villarosa lays bare the forces in the American health-care system and in American society that cause Black people to "live sicker and die quicker" compared to their white counterparts. Today's medical texts and instruments still carry fallacious slavery-era assumptions that Black bodies are fundamentally different from white bodies. Study after study of medical settings show worse treatment and outcomes for Black patients. Black people live in dirtier, more polluted communities due to environmental racism and neglect from all levels of government. And, most powerfully, Villarosa describes the new understanding that coping with the daily scourge of racism ages Black people prematurely. Anchored by unforgettable human stories and offering incontrovertible proof, *Under the Skin* is dramatic, tragic, and necessary reading.

The Pedagogy of Confidence - Yvette Jackson 2015-04-24

In her new book, prominent professional developer Yvette Jackson focuses on students' strengths, rather than their weaknesses, to reinvigorate educators to inspire learning and high intellectual performance. Through the lens of educational psychology and historical reforms, Jackson responds to the faltering motivation and confidence of educators in terms of its effects on closing the achievement gap. The author seeks to rekindle the belief in the vast capacity of underachieving urban students, and offers strategies to help educators inspire intellectual performance. Jackson proposes that a paradigm shift towards a focus on strengths will reinvigorate educators passion for teaching and belief in their ability to raise the intellectual achievement of their students. Jackson addresses how educators can systematically support the development of motivation, reflective and cognitive skills, and high performance when standards and assessments are predisposed to non-conceptual methods. Furthermore, she examines challenges and offers strategies for dealing with cultural disconnects, the influence of new technologies, and language preferences of students.

Start with Why - Simon Sinek 2011-12-27

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

**City of Gold** - Jim Krane 2009-09-15

Award-winning journalist Jim Krane charts the history of Dubai from its earliest days, considers the influence of the family who has ruled it since the nineteenth century, and looks at the effect of the global economic downturn on a place that many tout as a blueprint for a more stable Middle East. The city of Dubai, one of the seven United Arab Emirates, is everything the Arab world isn't: a freewheeling capitalist oasis where the market rules and history is swept aside. Until the credit crunch knocked it flat, Dubai was the fastest-growing city in the world, with a roaring economy that outpaced China's while luring more tourists than all of India. It's one of the world's safest places, a stone's throw from its most dangerous. In *City of Gold*, Jim Krane, who reported for the AP from Dubai, brings us a boots-on-the-ground look at this fascinating place by walking its streets, talking to its business titans, its prostitutes, and the hard-bitten men who built its fanciful skyline. He delves into the city's history, paints an intimate portrait of the ruling Maktoum family, and ponders where the city is headed. Dubai literally came out of nowhere. It was a poor and dusty village in the 1960s. Now it's been transformed into the quintessential metropolis of the future through the vision of clever sheikhs, Western capitalists, and a river of investor money that poured in from around the globe. What has emerged is a tolerant and cosmopolitan city awash in architectural landmarks, luxury resorts, and Disneyfied kitsch. It's at once home to America's most prestigious companies and universities and a magnet for the Middle East's intelligentsia. Dubai's dream of capitalism has also created a deeply stratified city that is one of the world's worst polluters. Wild growth has clogged its streets and left its citizens a tiny minority in a sea of foreigners. Jim Krane considers all of this and casts a critical eye on the toll that the global economic downturn has taken. While many think Dubai's glory days have passed, insiders like Jim

Krane who got to know the city and its creators firsthand realize there's much more to come in the City of Gold, a place that, in just a few years, has made itself known to nearly every person on earth.

**Strategic Diversity Leadership** - Damon A. Williams 2013-10-01

In today's world - whether viewed through a lens of educational attainment, economic development, global competitiveness, leadership capacity, or social justice and equity - diversity is not just the right thing to do, it is the only thing to do! Following the era of civil rights in the 1960s and '70s, the 1990s and early 21st century have seen both retrenchment and backlash years, but also a growing recognition, particularly in business and the military, that we have to educate and develop the capacities of our citizens from all levels of society and all demographic and social groups to live fulfilling lives in an inter-connected globe. For higher education that means not only increasing the numbers of diverse students, faculty, and staff, but simultaneously pursuing excellence in student learning and development, as well as through research and scholarship - in other words pursuing what this book defines as strategic diversity leadership. The aim is to create systems that enable every student, faculty, and staff member to thrive and achieve to maximum potential within a diversity framework. This book is written from the perspective that diversity work is best approached as an intellectual endeavor with a pragmatic focus on achieving results that takes an evidence-based approach to operationalizing diversity. It offers an overarching conceptual framework for pursuing diversity in a national and international context; delineates and describes the competencies, knowledge and skills needed to take effective leadership in matters of diversity; offers new data about related practices in higher education; and presents and evaluates a range of strategies, organizational structures and models drawn from institutions of all types and sizes. It covers such issues as the reorganization of the existing diversity infrastructure, building accountability systems, assessing the diversity process, and addressing legal threats to implementation. Its purpose is to help strategic diversity leaders combine big-picture thinking with an on-the-ground understanding of organizational reality and work strategically with key stakeholders and allies. This book is intended for presidents, provosts, chief diversity officers or diversity professionals, and anyone who wants to

champion diversity and embed its objectives on his or her campus, whether at the level of senior administration, as members of campus organizations or committees, or as faculty, student affairs professionals or students taking a leadership role in making and studying the process of change. This title is also available in a set with its companion volume, *The Chief Diversity Officer*.

It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother's family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father's life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* “Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride's *The Color of Water* and Gregory Howard Williams's *Life on the Color Line* as a tale of living astride America's racial categories.”—Scott Turow “Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither.”—The New York Times Book Review “Obama's writing is incisive yet forgiving. This is a book worth savoring.”—Alex Kotlowitz, author of *There Are No Children Here* “One of the most powerful books of self-discovery I've ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. Perceptive and wise, this book will tell you something about yourself whether you are black or white.”—Marian Wright Edelman

Leadership Dubai Style - Tommy Weir 2015-10

For the first time ever, the habits behind Dubai's success... Every now and then a story comes along that absolutely captures your attention. Dubai is one of those for me, but not just me—millions around the world yearn to come to Dubai. This global supercity, which just five decades ago was a cholera-plagued backwater, might just be the picture of a dream becoming reality. But how, exactly, did this incredible transformation take place? Leadership! But not your run-of-the-mill government leadership, nor typical corporate leadership, nor leadership taught in classrooms. This is Dubai-style leadership. Living and working in Dubai for the past decade, I've seen the leadership impact firsthand. As a leadership scholar and advisor to CEOs, I thought I was perfectly situated to discover the reasons behind Dubai's success. So, in 2008 I set out to discover the city's "secret sauce." Then the Global Financial Crisis hit! Disaster! I pressed the pause button on my research, and, like everyone in the city, held my breath. Well, what happened next confirmed that there is indeed something unique and special here. I spent the next three years researching, interviewing more than two hundred leaders, and identifying the city's leadership secrets, eventually whittling them down to twelve habits. My aim was to develop a replicable model that I could share with my readers—leaders in businesses, governments, and elsewhere. Anyone who is interested in leadership, and in particular achieving exceptional results, can benefit from understanding the twelve habits I outline here. To learn how to lead Dubai style, we need to walk the desert paths of the past to the superhighways of the future. *Leadership Dubai Style* retraces the city's journey and draws out the leadership habits that emerged over time. For decades Dubai brought in—imported—leading minds from every field to learn from them. Now it's time for Dubai to teach us—to teach us how to lead!

**My Story** - Mohammed Bin Rashid Al Maktoum 2019-03-07

This important collection of anecdotes and reminiscences from Sheikh Mohammed bin Rashid Al Maktoum is published to mark the occasion of his fifty years in public service, which began with his appointment as Dubai's Minister of Defence in 1968. These stories tell of the vision behind Dubai's meteoric growth from a small and bustling trading port to an international metropolis at the heart of global business. They record the evolution of the United Arab Emirates from a shared

ideal to a nation where more than 195 nationalities live and work in peace, harmony and prosperity. And they reveal insights from a man whose drive, determination and will to succeed have become legendary. Within these stories lies the heart of Sheikh Mohammed the statesman, the equestrian, the poet and the leader. They are written with the intent to inspire and inform new generations of readers, and to celebrate the achievements of this young and vibrant nation and the people who shaped it. This celebration of a life in service is unavoidably incomplete. As Sheikh Mohammed himself indicates, there is still so much left to do. As a record of the first fifty years alone, however, it forms part of a remarkable legacy. Other titles written by Sheikh Mohammed and published by Explorer include *Zayed, Reflections on Happiness & Positivity*, *Flashes of Verse* and *Two Great Leaders*.

**Desert Kingdoms to Global Powers** - Rory Miller 2016-10-15

An expert in Arab Gulf politics offers a revealing analysis of the region's stunning rise to global power and the challenges it confronts today. Once just sleepy desert sheikdoms, the Arab Gulf states of Saudi Arabia, Oman, the United Arab Emirates, Qatar, Bahrain, and Kuwait now exert unprecedented influence on international affairs—the result of their almost unimaginable riches in oil and gas. In this accessible study, Gulf politics expert Rory Miller examines the achievements of these countries since the 1973 global oil crisis. He also investigates how the shrewd Arab Gulf rulers who have overcome crisis after crisis meet the unpredictable future. The Arab Gulf region has become a global hub for travel, tourism, sports, culture, trade, and finance. But can the autocratic regimes maintain stability at home and influence abroad as they deal with the demands of social and democratic reform? Miller considers an array of factors—Islamism, terrorism, the Arab Spring, volatile oil prices, global power dynamics, and others—to assess the region's future possibilities.

*Factfulness* - Hans Rosling 2018-04-03

INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “*Factfulness* by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama *Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor*

of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.” Hans Rosling, February 2017.

**Toward Excellence with Equity** - Ronald F. Ferguson 2007

For more than a decade, economist Ronald F. Ferguson has investigated the myriad factors that combine to create racial disparities in academic performance, ranging from school policies and practices to informal interactions between children and their parents and peers. *Toward Excellence with Equity* brings together Ferguson's most important articles and most recent thinking on these ideas. Taken together, these essays show that closing achievement gaps is more urgent today than ever before—and that dramatic success is possible. “This book issues an urgent call to action to anyone concerned about the lagging success rates among minority children in American schools and the repercussions for our country's future. Ronald Ferguson not only surveys the bleak terrain surrounding the achievement gap, but provides all of us with a road map to reach higher ground.” -- Geoffrey Canada, President and CEO, Harlem Children's Zone

"Toward Excellence with Equity is an important book written by one of the nation's foremost experts on education and economic development. Ronald Ferguson's pioneering work on black/white disparities in student skill levels and achievement-test scores has significant public policy implications. This book is a must-read for anyone concerned about narrowing the racial gap in educational attainment and earnings." -- William Julius Wilson, Lewis P. and Linda L. Geysler University Professor, Harvard University "This book combines high-quality research, judicious insights, brilliant speculation, and common sense to set forth strategies to reduce the achievement gap dramatically. It is particularly compelling in calling for a comprehensive social movement that will not only transform schools but establish strong communities, effective parenting, and powerful peer cultures." -- Henry M. Levin, William H. Kilpatrick Professor of Economics and Education, Teachers College, Columbia University "Ferguson conducts an authoritative review to show that disparities in academic performance can be closed by strong parental engagement and by parents working in partnership with schools around a shared vision of success for their children. The reality is that educators can't do it alone. This highly intelligent book gives policymakers, educators, and parents essential tools for closing achievement gaps between high-performing and low-performing schools." -- Susan Zelman, Superintendent of Public Instruction, Ohio Department of Education "Toward Excellence with Equity is essential reading for any businessperson who cares about the well-being of children and the future quality of the American workforce." -- Bridgette Heller, Chairman of the Executive Leadership Council and Global President of Johnson & Johnson's Baby, Kids, and Wound-Care Division Ronald F. Ferguson is the faculty cochair and director of the Achievement Gap Initiative at Harvard University and the

founder and director of the Tripod Project for school improvement.
