**National Geographic Animal Encyclopedia** - Lucy Spelman 2012

Contains more than 1,000 full-color photographs and text of many animals.

Science Encyclopedia - National Geographic Kids 2016

Offers an illustrated encyclopedia of general science, with informative and fun facts on a broad array of scientific topics.

**National Geographic Kids Encyclopedia of the American Indian** - Cynthia O'Brien 2019

American Indian customs, stories, and history come to life in this important and authoritative reference, artfully designed and packaged for kids and students. More than 160 tribes are featured in this outstanding new encyclopedia, which presents a comprehensive overview of the history of North America's Native peoples. From the Apache to the Zuni, readers will learn about each tribe's history, traditions, and culture, including the impact of European expansion across the land and how tribes live today. Features include maps of ancestral lands; timelines of important dates and events; fact boxes for each tribe; bios of influential American Indians such as Sitting Bull; sidebars on daily life, homes, food, clothing, jewelry, and games; Did You Know facts with photographs; and traditional Native stories. The design is compelling and colorful,

packed with full-color photographs. To help give kids the lay of the land, this reference is arranged by region, and all federally recognized tribes are included. Tribal members representing each region and experts at the National Museum of the American Indian at the Smithsonian Institution were involved in its creation. With nothing comparable available, it is sure to be a valuable resource for kids, students, librarians, and families.

Space Encyclopedia - David A. Aguilar 2013

A tour of outer space explores the solar system as well as stars, galaxies, and the birth of planets, and speculates on whether other intelligent beings exist in the universe.

National Geographic Almanac 2021 - National Geographic 2020-08-25

The essential annual for the 21st century, this high-energy almanac is packed with facts, photos, infographics, time lines, and maps--the perfect stocking stuffer and book to browse all year long. A guide to the world like no other, this vivid and comprehensive book offers the best of National Geographic and more: science, nature, history, world cultures, geography, and the environment, illustrated with amazing photography, fascinating infographics, and maps created by expert cartographers. Highlights this year include a sneak preview of the James Webb telescope, due to

launch in 2021; an in-depth look at the global factors influencing immigration around the world; a brand-new wildflower guide; a guided tour of the most interesting moons of our solar system; a beautiful infographic on how jellyfish eat; and a feature on lithium, the fascinating mineral central to the work of this year's Nobel prizewinner in chemistry.

Beginning with top trending topics of 2021, including a special focus on biodiversity, the book is divided into lively chapters including Exploration & Adventure, This Planet & Beyond, Life on Earth, and The Science of Us. Recurring features include highlights from NG explorers, favorite photos from National Geographic's celebrated Instagram account, and Quizmaster trivia questions for each chapter. Geniuses of past and present highlighted this year include Jane Goodall, Amelia Earhart, and acclaimed conservationist Kris Tompkins, dedicated to preserving most of Chile's Patagonia. With new discoveries on every page, this cutting-edge book--called a "category buster" by Booklist--brings you, as Publishers Weekly puts it, "all the things that National Geographic does best."

*The Rhino with Glue-On Shoes* - Lucy H. Spelman, DVM 2009-06-23

A moray eel diagnosed with anorexia...A herd of bison whose only hope is a crusading female doctor from Paris...A vet desperately trying to save an orphaned whale by unraveling the mystery of her mother's death...This fascinating book offers a rare glimpse into the world of wild animals and the doctors who care for them. Here pioneering zoological veterinarians—men and women on the cutting edge of a new medical frontier—tell real-life tales of daring procedures for patients weighing tons or ounces, treating symptoms ranging from broken bones to a broken heart, and life-and-death dramas that will forever change the way you think about wild animals and the bonds we share with them. At once heart-quickenning and clinically fascinating, the stories in this remarkable collection represent some of the most moving and unusual cases ever taken on by zoological vets. A chronicle

of discovery, compassion, and cutting-edge medicine, *The Rhino with Glue-on Shoes* is must reading for animal lovers, science buffs, and anyone who loves a well-told tale.

[The Animal Book](#) - David Burnie 2013-10-01

If you're wild about animals, this visual encyclopedia is the ultimate page-turner, bringing our planet's creatures together in spectacular style. This inspiring children's reference guide welcomes you to the animal kingdom where you can meet more than 1,500 species, ranging from ants to zebras and everything in between. Stunning pictures bring you face to face with giant predators you know and love, including polar bears and tigers, as well as mysterious microscopic life, including amoebas and bacteria. A variety of animal habitats are shown in beautiful detail, while accessible information, additional fact boxes, and amazing galleries complete the stories. A jaw-dropping spectrum of animal types - from fish and birds to reptiles and mammals - provides a learning experience like no other. Whether you're a budding naturalist or simply want to complete a school project, *The Animal Book* has got it covered.

**The Encyclopedia of Animals** - Tim Harris 2018-10-16

Discover the lifestyles, habitats, and behaviors of the animal kingdom as you've never seen them before with *The Encyclopedia of Animals*. Each page of this comprehensive guide is packed with amazingly detailed artworks and full-color photographs. From the flying squirrel to the yellow-bellied sapsucker, and from the fire ant to the sun bear, animals are seen in all their splendid variety in this fascinating visual guide. Divided by class and family, the sections in this book clarify the distinguishing traits of the animals, which are depicted in colorful scientific drawings; captions provide additional information. User-friendly and with the sections marked by color tabs for quick consultation, this book could serve as a field guide or a desk reference. Shown in all their glory, here are the gulper eel, the blue wildebeest, the giant African bullfrog, the Sumatran Orangutan, the Chilean flamingo, and the tiny but terrifying anglerfish. Many of the book's images show the animals in their natural environment and behaving as they

would in the wild. An orangutan is shown swinging from a branch, a bird-of-paradise is illustrated during a courtship display, and hyenas are depicted in pursuit of zebra prey. Map icons illustrate the animal's distribution around the world, while key fact boxes highlight features of the animal's anatomy, diet, and genus. Learn more about your favorite species, from the smallest insects to the largest mammals, with expert information and up-to-date population statistics throughout. User-friendly and accessible, this is the perfect modern encyclopedia for animal enthusiasts of all ages.

**The Complete Book of Animals** - Tom Jackson 2011

"This is a world encyclopedia of amphibians, reptiles and mammals with over 500 detailed illustrations. This is a fully illustrated encyclopedia of over 350 amphibians, reptiles and mammals from the world. It includes the venomous western diamondback

rattlesnake of the southern United States; the tree-dwelling flying lizard of South-east Asia, the extraordinary egg-laying platypus of Australia. This is a natural history guide that focuses on how animals have adapted in terms of anatomy, senses and survival skills, and describes the varied habitats in which animals live. This is a fabulous, accessible natural history reference for both families and schools. The first section of this incredible illustrated reference book focuses on the diversity of life in the animal kingdom, looking at the habitats in which animals live and how they survive. It also includes a guide to amphibian, reptilian and mammalian anatomy and senses. The rest of the book is divided into three chapters, each focusing on a different area of the world: the Americas; Europe and Africa; and Asia, Australia and New Zealand. Each animal is

accompanied by a colour illustration and a specification panel giving information about distribution, habitat, food, size, maturity, breeding, life span and more. With over 900 magnificent colour illustrations and photographs, and packed with fascinating facts, this book is a must-have family reference for anyone interested in wild animals, where they live and how they survive."--  
Publisher's description.
