**Cochrane Handbook for Systematic Reviews of Interventions** - Julian P. T. Higgins 2008-11-24

Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library ([www.thecochranelibrary.com](http://www.thecochranelibrary.com)). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

**Teaching and Learning in Digital World** - Mercè Gisbert 2015-06-11

Many reports over the last few years have analysed the potential use of games, videogames, 3D environments and virtual reality for educational purposes. Numerous emerging technological devices have also appeared that will play important roles in the development of teaching and learning processes. In the context of these developments, learning rather than teaching becomes the main axis in the organisation of the educational process. This process has now gone beyond the analogue world and face-to-face education to enter the digital world, where new learning environments are being produced with ever greater doses of realism. Teaching and Learning in Digital Worlds examines the teaching and learning process in 3D virtual environments from both the theoretical and practical points of view.

A list of acronyms occurring frequently in Bank texts

(the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.

**When I Was Puerto Rican** - Esmeralda Santiago 2006-02-28

Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.

**Nineteen Eighty-Four** - George Orwell 2021-01-09

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

**How to Generate and Interpret Fire Characteristics Charts for Surface and Crown Fire Behavior** - Patricia L. Andrews 2011

**The Program for Better Vision** - Martin Sussman 2007-01-01

**Hispanisation** - Thomas Stolz 2008-08-27

Literally hundreds of languages world-wide have experienced direct or indirect Hispanisation during the heyday of the Spanish colonial empire. The number of languages which continue to borrow from Spanish on a daily basis is considerable especially in Latin America. This volume gives the reader a better idea of the range of contact constellations in which Spanish functions as the donor language. Moreover, the contributions to this collection of articles demonstrate that it is not only possible to compare the contact-induced processes in the (Hispanised) languages of Austronesia and the Americas. It is emphasized that one can draw far-reaching conclusions from the presented borrowing facts for the theory of language contact in general. The volume is

divided into two sections according to geographical principles: section I is devoted to contacts of Spanish in Latin America. Two contributions look at the Hispanisation of varieties of Nahuatl (Classical Nahuatl studied by Anne Jensen and modern varieties studied by José Antonio Flores Farfán). Martina Schrader-Kniffki discusses Spanish-Zapotec contacts and their relations to language mixing and purism. Luciano Giannelli and Raoul Zamponi address the issue of Hispanisms in Kuna, a language from Panama. For South America, Jorge Gómez-Rendón discusses whether or not there are constraints on lexical borrowing from Spanish into Imbabura Quichua. Suzanne Dikker studies the intertwined language *Media Lengua* in her attempt at redefining the notion of relexification. Section II focuses on the impact of Spanish on the languages of Austronesia and South-East Asia. Steven Roger Fischer shows that the heavy Hispanisation of Rapanui is currently being reverted. Steve Pagel compares Hispanisation processes and their results in the Mariana Islands and on Rapa Nui. The second comparative study is by Patrick O. Steinkrüger who reviews a variety of Philippinian languages and their degrees of Hispanisation. The attitudes of native speakers of Chamorro as to Hispanisms is the topic of the study by Rosa Salas Palomo and Thomas Stolz. The volume is especially interesting for students of language contact. But also scholars with a background in Romance linguistics or Hispanic philology will find the assembled articles very useful, as well as Austronesianists and Amerindianists.
