**Narrative Factuality** - Monika Fludernik 2019-12-16

The study of narrative—the object of the rapidly growing discipline of narratology—has been traditionally concerned with the fictional narratives of literature, such as novels or short stories. But narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual. In this volume, which provides a companion piece to Tobias Klauk and Tilmann Köppe's *Fiktionalität: Ein interdisziplinäres Handbuch*, the use of narrative to convey true and reliable information is systematically explored across media, cultures and disciplines, as well as in its narratological, stylistic, philosophical, and rhetorical dimensions. At a time when the notion of

truth has come under attack, it is imperative to reaffirm the commitment to facts of certain types of narrative, and to examine critically the foundations of this commitment. But because it takes a background for a figure to emerge clearly, this book will also explore nonfactual types of narratives, thereby providing insights into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology.

The first major translation of the Christian Scriptures from the original languages to be undertaken since the King James Version (1611), the Revised Standard Version debuted in 1952 to simultaneous acclaim and condemnation from American Christians. Mainline Protestants and Roman Catholics lauded the new translation, while many evangelicals vilified it. The RSV dramatically shaped the course of English Bible translation work in the latter half of the Twentieth Century, and it remains the Bible of choice for many people. This Anniversary Edition features a clear new type setting that readers are certain to appreciate.

Oneness Pentecostals and the Trinity - Gregory Boyd 1992-06-01

What's special about Oneness Pentecostals? In this penetrating analysis of Oneness theology and practice, Gregory Boyd reveals the experience of four years of personal involvement in a Oneness church. Although Oneness Pentecostals' belief in Christ's deity establishes some common ground with other Christians, their aggressive denial of the Trinity has nonetheless fostered their indisputably sub-Christian ideas about God's character, about salvation, and about Christian living.

The Churches and the Third Reich - Klaus Scholder 2018-05-04

This second volume of *The Churches and the Third Reich*, the last which the author lived to write, covers the year 1934. This year, which saw the birth of the Confessing Church and the great Synods of Barmen and Dahlem, was the year of disillusionment, in which all the hopes of 1933 were shattered one by one. The gripping narrative of the first volume is continued as in addition to the rise of a legitimate church opposition we see how the German Christians overreached themselves by seeking, without Hitler's approval and against the law, to set up a Reich Church fully coordinated with the state. Meanwhile, the Roman Catholic Church was running into increasing difficulties as it tried to cope with the problems left unresolved on the conclusion of the Concordat. Like the first, this volume has many illustrations.

"We will never be silent until we get land to cultivate and freedom in this country of ours" ...so sang Mau Mau activists. The struggle for independence in Kenya was waged at many levels. *Never be Silent* explores how this struggle was reflected in the communications field. It looks at publishing activities of the main contending forces and explores internal contradictions within each community. It documents the major part played by the communications activities of the organised working class and Mau Mau in the achievement of independence in Kenya. The book contributes to a reinterpretation of colonial history in Kenya from a working class point of view and also provides a new perspective on how communications can be a weapon for social justice in the hands of liberation forces.
