Education and Society in the Middle East and North Africa - Milton George 2020-01-17

In the past, the Middle East and the so-called Muslim world used to be beacons of learning and critical thought. Although historical variables—such as conquest, internal conflict, and colonization—demoted their position on the global stage, changes are now in the offing. In these interesting times, a growing number of educators, thinkers and visionaries are trying both to find and to generate new approaches to the past, present, and future of the region. This book is a collection of articles which reflect on various aspects related to education and society in the Middle East and North Africa (also known as the MENA region), their peoples and educational processes. It provides a platform for people to join the global conversation and to contribute to it with data which are relevant to regional concerns, research and practices. This is necessary because many of the theories and research findings which are still being used to understand the region were generated elsewhere and, despite their lack of regional representativeness, were generalized as the most trustworthy interpretive tools across the world. Hence, there is a need for the world to open up to the voices from the MENA region.

New Headway iTools makes it easy to use interactive whiteboards and digital technology with Headway. Everything about these resources is user-friendly and supportive - and here's why. First, you don't need any special equipment. Just use what you already have in the school - an interactive whiteboard, a computer, a data projector, an ebeam. New Headway iTools works on all of these, and it doesn't matter which brand of whiteboard you have. Second, you get a full-colour Teacher's Guide in the pack. This shows you when and how to use the activities in the lesson, and includes whiteboard tips so you're never without support. The Guide also appears on the disc, for easy access during the lesson. New Headway iTools saves you time, too. How? Pre-selection ... the activities on the disc are pre-selected from the Student's Book. This means you don't need to go through the book deciding which activities are most suitable for the interactive whiteboard - they've already been researched and chosen for that very reason. Just go ahead and use them in class, with confidence.

Writing With Power - Peter Elbow 1998-07-09

A classic handbook for anyone who needs to write, *Writing With Power* speaks to everyone who has wrestled with words while seeking to gain power with them. Here, Peter Elbow emphasizes that the essential activities underlying good writing and the essential exercises promoting it are really not difficult at all. Employing a cookbook approach, Elbow provides the reader (and writer) with various recipes: for getting words down on paper, for revising, for dealing with an audience, for getting feedback on a piece of writing, and still other recipes for approaching the mystery of power in writing. In a new introduction, he offers his reflections on the original edition, discusses the responses from people who have followed his techniques, how his methods may differ from other processes, and how his original topics are still pertinent to today's writer. By taking risks and embracing mistakes, Elbow hopes the writer may somehow find a hold on the creative process and be able to heighten two mentalities--the production of writing and the revision of it. From students and teachers to novelists and poets, *Writing with Power* reminds us that we can celebrate the uses of mystery, chaos, nonplanning, and magic, while achieving analysis, conscious control, explicitness, and care in whatever it is we set down on paper.

English Education in Oman - Rahma Al-Mahrooqi 2018-07-02

This book explores an area that has been somewhat overlooked in the literature to date – the current status and future trends of English education in Oman. It offers a variety of theoretical and methodological approaches to the subject and explores areas of English education in Oman that have, until now, been little

investigated. It explores these issues from a variety of perspectives: the professionalization of English teachers in the country; the implementation of novel teaching methodologies, curricula, and assessment approaches, into what are, in many ways, still very traditional education settings; the integration of learner identity into English language instruction; country- and culture-specific concerns with conducting research with Omani participants; the strategic demands of building stronger links between education and workforce needs; and developing learner autonomy and motivation.
