I learned to dive in the mid 70 s by reading a short book about diving. Then my brother told me to NOT hold my breath and swim. My first dive was a solo dive in a stone quarry in Indiana. The next few years I got formal training and worked through the ranks to instructor. I worked as a YMCA and PADI instructor in Florida for several years before going

to the West coast to train instructors at PADI College. In the mid 80 s I was hired by Werner and Myra Kurn to work as the Director of Training at Ocean Enterprises in San Diego, and trained instructors at Ocean Enterprises in Guantanamo Bay Cuba. I worked as a PADI Instructor examiner for more than 20 years and have more than 5000 dives.

*New Frontiers in Marine Tourism* - Brian Garrod 2008

Diving tourism has seen such growth in the past decade that the World Tourism Organization suggests it will soon become as important as ski tourism. According to a WTO estimate, there are now 5-7 million active certified divers in the world. Despite its development as a mass tourism activity, its dynamic growth and great economic importance, particularly for island destinations in the tropics, surprisingly few scientific publications address this form of special-interest tourism. In the light of this, "New Frontiers in Marine Tourism" is the first attempt to describe and analyse this tourism sector

comprehensively. The first part of the book is devoted to an overview of the dive sector, addressing different types of diving locations and their particular characteristics, the geographical distribution of dive locations, the origins of dive tourists, as well as the growth and economic significance of diving tourism in destinations worldwide. In its second section, the book outlines different motivations and typologies of diving tourists, their learning behaviour, knowledge of marine environments, and their interaction with flora and fauna. The third section focuses on diver satisfaction, attitudes and preferences, diver education and interpretation, compliance with regulations by divers and tour operators, environmental impacts, and aspects of risk and health, thus highlighting a variety of pressing topics related to the management of diving tourism. \*

First book of its kind to address the rapidly growing area of diving tourism \* Contributions from academic experts in the field, it addresses hot issues such as environmental impacts, health and safety, education, and economic factors and impacts. \* Brilliantly edited, it represents a coherent and cohesive collection of critically important issues in this area.

**232 Bars: A Novel About Scuba, Ladyboys, and Living the Dream** - John Triggerfish 2017-11-25

John Triggerfish lost everything and decided to start a new life in paradise. It didn't quite work out that way, although the ladyboys were pretty interesting. This is his story about becoming a Padi diving professional and meeting all manner of characters on his travels around the wonderful Kingdom of Thailand. Then of course there's his

relationship with all the women that he meets whilst cruising around the beaches and bars. That's pretty interesting/disturbing. Add in a few nutters from Blighty and some of the best diving on the planet, and you've probably got the funniest book about scuba ever written. 232 Bars is NOT for the faint hearted. Please don't bother to read if easily offended.

*Croatia: Istria* - Rudolf Abraham 2017-04-21

This new 2nd edition of Bradt's Croatia: Istria, with Rijeka and the Slovenian Adriatic has been fully updated and remains the only full-length guide to the region including background and practical information. Istria has some of Croatia's most famous sites, including Pula's Roman amphitheatre, UNESCO-protected Byzantine mosaics in Porec, picturesque medieval hilltowns and frescoes, and the Brijuni Islands National Park, home to Tito's summer residence. This guide also includes the transport hub and gateway city of Rijeka in the neighbouring Kvarner region, which is set to become European Capital of Culture in 2020. Istria

makes a great base to explore the nearby Capodistria region of the Slovenian coast and Karst areas, including beautiful coastal towns, Lipizzaner horses and UNESCO-listed caves, all of which are given expanded coverage in this new edition. Also new is increased coverage of the Parenzana cycling and hiking route. With detailed sections on trekking, cycling and diving, plus information on windsurfing, paragliding, wreck diving (including sites such as the Coriolanus and the Baron Gautsch) and sailing, Bradt's Croatia: Istria, with Rijeka and the Slovenian Adriatic is ideal for adventurous people of all ages and on all budgets, who are curious about this well-heeled part of the former Yugoslavia. There is also a comprehensive wildlife section. Croatia is renowned for its cuisine (and particularly its truffles) and there is plenty of pampering on offer, too, with some excellent luxury and boutique hotels and restaurants, as well as cheap spas and treatments compared to the rest of mainland Europe. Festivals, music, travelling with children, buying and maintaining property in Croatia, dinosaur tracks and ancient history are all included, as are inland areas which often receive comparatively little attention (and with the exception of Motovun see far fewer visitors than the coast).

**Walking on Ocean Floors** - Mike Mcgettigan 2019-10-27

This book is based on the life of a commercial diver working in the oil and gas industry from the cowboy days of the early 1980s around Asia, India, Australasia, and Africa to the safety-orientated twenty-first century in the North Sea and Gulf of Mexico. You will travel with the characters that work in this world and see the countries that they visit. It's a wild and dangerous job, and most people would struggle to get their head around the fact that people actually do this for a living. But that's not all. You also get to travel with a traveller, who, when not submerged under the water building or fixing oil fields, is sitting on a surfboard riding the waves that he dreamt about when he was growing up. This is proof that dreams can turn into reality if you want to push yourself over the edge of your safety zone. Dreams become reality if you work on it and face your fears. Give it a shot and see how you go.
