*Global Environment Outlook* - 2010

In Latin America and the Caribbean, the regional focus was designed both

to adapt the generalisations of the global assessment to the considerably different environmental, political, economic and cultural realities of the LAC

region, and to support regional, national, local and thematically focused

groups to use the same methods to assess their immediate concerns. As

with its global cousin, GEO-LAC aims to provide scientifically credible,

policy-relevant, up-to-date assessment of, and outlook for, the state of the

environment in Latin America and the Caribbean, using the GEO

conceptual framework and process refined by UNEP over the past 12

years. As result, GEO analysts provide an impartial, scientifically sound

analysis of the state of the environment, major impacts, drivers and

options for action for decision makers and other regional actors concerned

with the state of the environment. In addition, it analyses a number of

possible scenarios.

*bookdown* - Yihui Xie 2016-12-12

*bookdown: Authoring Books and Technical Documents with R Markdown* presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

**Communication for Development and Social Change** - Jan Servaes 2008-12-08

This volume is first and foremost about people and the processes needed to facilitate sharing of knowledge in order to effect positive developmental change. It is contextual and based on dialogue necessary to promote stakeholder's participation, which is essential for the understanding of their perceptions, perspectives, values, attitudes and practices, so that these can be incorporated into the design and implementation of development initiatives. This volume follows the two-way horizontal model and increasingly makes use of many-to-many forms of communications to facilitate the understanding of people's perceptions, priorities and knowledge with its use of a number of tools, techniques, media and methods. It aims to give voice to those most affected by the development issue(s) at stake, allowing them to participate directly in defining and implementing solutions and identifying development directions. Based on the assumption that authentic participation directly addresses power and its distribution in society, which often decreases the advantage of certain

elite groups, the authors argue that structural and sustainable change necessitates the redistribution of power. This collection offers perceptive insights and vivid examples to prove that the field of communication for development and social change is indeed vibrant.

**Managing by the Bhagavad Gītā** - Satinder Dhiman 2018-11-27

Drawing upon the timeless wisdom of the Bhagavad Gītā, a philosophical-spiritual world classic, this professional book highlights the spiritual and moral dimensions of management using an inside-out leadership development approach. It interprets the Bhagavad Gītā's teachings on the personality types and psychological makeup of managers and employees; self-knowledge and self-mastery; and the leadership concepts of vision, motivation, and empowerment. This book covers topics such as training of the mind, ethical leadership, communication, stress management, and corporate social responsibility (CSR). Collectively, the enclosed contributions provide managers with an enhanced outlook on management functions such as leading, planning, organizing, and controlling in today's organizations, particularly those run by knowledge workers. Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager. However, this traditional paradigm cannot solve many of the problems that confront leaders and managers today. Recent studies have shown that values traditionally associated with spirituality—such as integrity, honesty, trust, kindness, caring, fairness, and humility—have a demonstrable effect on managerial effectiveness and success. Although traditionally interpreted as a religious-spiritual text, the Bhagavad Gītā teaches these values which can be extrapolated and applied to practical management lessons in today's corporate boardrooms. Applying the text of the Bhagavad Gītā to the context of management, this book views the manager as an “enlightened sage” who operates from higher stance,

guided by self-knowledge and self-mastery. It demonstrates how character is the key ingredient for effective management and leadership. This book is therefore applicable to all managers, from first-line to CEOs, in their management and leadership roles in organizations.

**Eccentric Neighborhoods** - Rosario Ferré 2014-04-29

A “colorful family saga” set against the dramatic historical backdrop of twentieth-century Puerto Rico, from an author nominated for the National Book Award (Kirkus Reviews). Elvira Vernet narrates *Eccentric Neighborhoods* as she attempts to solve the mystery of who her parents truly are. Her mother, the beautiful and aristocratic Clarissa Rivas de Santillana, was born into a rarefied world of privilege, one of five daughters on the family's sugar plantation. Elvira's father, Aurelio Vernet, and his three brothers and two sisters were raised by Santiago, a Cuban immigrant who ruled his family with an iron hand. As Puerto Rico struggles for independence—and Aurelio takes his place among the powerful political gentry—a legacy of violence, infidelity, faith, and sacrifice is born. Set against the backdrop of a country coming of age, *Eccentric Neighborhoods* is a lush, transcendent novel, a family saga about mothers and daughters, husbands and wives, parents and children. In this magnificent follow-up to *The House on the Lagoon*, Rosario Ferré delivers a work of historical

fiction influenced by magical realism and infused with forgiveness and love.

Así lo veo: Gente, Perspectivas, Comunicación - Michael Leiser 2010-01-08

Increase students' ability to comprehend spoken Spanish; express their ideas & opinions; and analyze cultural perspectives while challenging fixed beliefs and cultural stereotypes. These outcomes motivated the respected author team of Así lo veo, the first Intermediate Spanish program to use a documentary, filmed specifically for the program, as the basis for instruction and learning. Since a documentary captures real situations and personal perspectives it is the perfect vehicle for increasing student engagement. With Así lo veo, the documentary motivates the presentation of content—vocabulary, grammar, and culture—and by extension, the learning. Specifically, Así lo veo documents how six Spanish speakers view timely, provocative themes. Because these are everyday people, not actors, they bring unscripted, real language as well as fresh ideas to the context of learning Spanish.

**Guardians of Power: The Myth of the Liberal Media** - David Edwards 2014-07-24

Guardians of Power ought to be required reading in every media college. It is the most important book about journalism I can remember." John Pilger "Regular critical analysis of the media, filling crucial gaps and correcting the distortions of ideological prisms, has never been more important. Media Lens has performed a major public service by carrying out this task with energy, insight, and care." Noam Chomsky "Media Lens is doing an outstanding job of pressing the mainstream media to at least follow their own stated principles and meet their public service obligations. [This is] fun as well as enlightening." Edward S. Herman Can a corporate media system be expected to tell the truth about a world dominated by corporations?
