*Journal of the Senate of the State of California* - 1902

ERDA Energy Research Abstracts - United States. Energy Research and Development Administration. Technical Information Center 1977

*The Letters of Richard Cobden* - Richard Cobden 2015

The letters of Richard Cobden (1804-1865)' provides, in four printed volumes, the first critical edition of Cobden's letters, publishing the complete text in as near the original form as possible. The letters are accompanied by full scholarly apparatus,

together with an introduction to each volume which re-assesses Cobden's importance in their light. Together, these volumes make available a unique source of the understanding of British liberalism in its European and international contexts, throwing new light on issues such as the repeal of the Corn Laws, British radical movements, the Crimean War, the Indian Mutiny, Anglo-French relations, and the American Civil War. The fourth and final volume, drawing on some forty-six archives worldwide, is dominated by Cobden's search for a permanent political legacy at home and abroad, following the severe check to his health in the autumn of 1859. In January 1860, he succeeded in negotiating the Anglo-French Commercial Treaty, a landmark in Anglo-French relations designed to bind the two nations closer together, and to provide the basis for a Europe united by free trade.

**Perspectives of System Informatics** -  
Alexander K. Petrenko 2018-01-17  
This book constitutes the refereed  
proceedings of the 11th International Andrei  
P. Ershov Informatics Conference, PSI 2017,  
held in Moscow, Russia, in June 2017. The  
31 full papers presented in this volume were  
carefully reviewed and selected from 57  
submissions. The papers cover various  
topics related to the foundations of program  
and system development and analysis,

programming methodology and software  
engineering and information technologies.

## **Ambivalent Nation** - Hugh Dubrulle 2018-06-11

In *Ambivalent Nation*, Hugh Dubrulle explores how Britons envisioned the American Civil War and how these conceptions influenced their discussions about race, politics, society, military affairs, and nationalism. Contributing new research that expands upon previous scholarship focused on establishing British public opinion toward the war, Dubrulle offers a methodical dissection of the ideological forces that shaped that opinion, many of

which arose from the complex Anglo-American postcolonial relationship. Britain's lingering feeling of ownership over its former colony contributed heavily to its discussions of the American Civil War. Because Britain continued to have a substantial material interest in the United States, its writers maintained a position of superiority and authority in respect to American affairs. British commentators tended to see the United States as divided by two distinct civilizations, even before the onset of war: a Yankee bourgeois democracy and a southern oligarchy supported by slavery. They invariably articulated mixed feelings toward both sections, and shortly before the Civil War, the expression of these feelings was magnified by the sudden emergence of inexpensive newspapers, periodicals, and books. The conflicted nature of British attitudes toward the United States during

the antebellum years anticipates the ambivalence with which the British reacted to the American crisis in 1861. Britons used prewar stereotypes of northerners and southerners to help explain the course and significance of the conflict. Seen in this fashion, the war seemed particularly relevant to a number of questions that occupied British conversations during this period: the characteristics and capacities of people of African descent, the proper role of democracy in society and politics, the future of armed conflict, and the composition of a durable nation. These questions helped shape Britain's stance toward the war and, in turn, the war informed British attitudes on these subjects. Dubrulle draws from numerous primary sources to explore the rhetoric and beliefs of British public figures during these years, including government papers, manuscripts from press archives, private correspondence, and samplings from

a variety of dailies, weeklies, monthlies, and quarterlies. The first book to examine closely the forces that shaped British public opinion about the Civil War, *Ambivalent Nation* contextualizes and expands our understanding of British attitudes during this tumultuous period.

**Reports from Committees of the House of Commons** - Great Britain. Parliament. House of Commons 1803

Blue & Gray Diplomacy - Howard Jones  
2010-01-01

In this examination of Union and Confederate foreign relations during the Civil War from both European and American perspectives, Howard Jones demonstrates that the consequences of the conflict between North and South reached far beyond American soil. Jones highlights the mixture of reasons for European interest in the war, which ranged from self-interest to fear that an intervention would cause war with the Union. Most of all, he explores the horrible nature of a war that attracted outside involvement as much as it repelled

it. Written in a narrative style that relates the story as its participants saw it play out around them, Blue and Gray diplomacy depicts the complex set of problems faced by policymakers from Richmond and Washington to London, Paris, and St. Petersburg.
