The Three Waves of Volunteers & the New Earth - Dolores Cannon 2011

In 1945 when the atomic bombs were dropped in WWII, our "protectors" and "watchers" in outer space saw that Earth was on a collision course with disaster. The prime directive of non-interference prevented them from taking any action, but then they came up with a brilliant plan to save Earth and assist her in her ascension. They couldn't interfere from the "outside", but maybe they could influence from the "inside". So the call went out for volunteers to come and help. "Earth is in trouble - who wants to volunteer?" The native souls living on Earth were too caught up on the wheel of karma. The only hope was to ask for pure souls to come who had never been trapped on the karmic cycle. Dolores in her hypnosis work has discovered three waves of these volunteers. Some have come direct from the "Source" and have never lived in any type of physical body before. Others have lived as space beings on other planets or other dimensions. Because all memory is erased upon entry to the Earth dimension, they do not remember their assignment. Thus these beautiful souls have a difficult time adjusting to our chaotic world. These souls have a vital role to play as they help all of the rest of us ascend to the New Earth. * Characteristics of the Three Waves of Volunteers * The Difficulties being Experienced by First-Timers * How the Shift is affecting the Physical Body * The Roles of ETs and Light Beings in the Shift * Keepers of the Grid * The Separation of the Old and New Earth * What is the New Earth? * What is the Significance of 2012?

Flipside - Richard Martini 2012-01-11

What happens after we die? _x000D_ _x000D_ Author and award winning filmmaker Richard Martini explores startling new evidence for life after death, via the "life between lives," where we reportedly return to find our loved ones, soul mates and spiritual teachers. Based on the evidence of thousands of people who claim that under deep hypnosis, they saw and experienced the same basic things about the Afterlife, the book documents interviews with hypnotherapists around the world trained in the method pioneered by Dr. Michael Newton, as well as examining actual between life sessions. The author agrees to go on the same journey himself, with startling and candid results, learning we are fully conscious between our various incarnations, and return to connect with loved ones and spiritual soul mates, and together choose how and when and with whom we'll reincarnate. Martini examines how "Karmic law" is trumped by "Free will," with souls choosing difficult lives in order to learn from their spiritually; no matter how difficult, strange or complex a life choice appears to be, it was made in advance, consciously, with the help of loved ones, soul mates and wise elders. Extensively researched, breathtaking in scope, "Flipside" takes the reader into new territory, boldly going where no author has gone before to tie up the various disciplines of past life

regression, near death experiences, and between life exploration. In the words of author Gary Schwartz, Phd, once you've read "Flipside" "you'll never see the world in the same way again." _x000D_ _x000D_ Praise for Flipside: _x000D_ _x000D_ "Richard has written a terrific book. Insightful, funny, provocative and deep; I highly recommend it!" - Robert Thurman, author of *Why the Dalai Lama Matters* _x000D_ _x000D_ "Inspiring, well written and entertaining. The kind of book where once you have read it, you will no longer be able to see the world in the same way again." - Gary E. Schwartz, author of *The Sacred Promise* _x000D_ _x000D_ "Everyone should have a Richard Martini in their life." - Charles Grodin, author of *If I Only Knew Then... What I Learned From Mistakes*

Five Lives Remembered - Dolores Cannon 2009

THE BEGINNING What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing "normal" to relate to? This is what happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words "reincarnation, past-lives, regression, walk-ins, New Age" were unknown to the general population. This is the story of two normal people, who accidentally stumbled across past-lives while working with a doctor to help a patient relax. It began so innocently, yet it crossed the boundaries of the imagination to open up an entirely new way of thinking at a time when such a thing was unheard of. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment changed the participants and everyone involved, and their beliefs would never be the same. Dolores Cannon is now a world-renowned hypnotherapist who has explored thousands of cases in the forty years since 1968, and has written fifteen books about her discoveries. Her books are translated into more than 20 languages. She is teaching her unique form of hypnosis all over the world. When she lectures people ask, "How did you get started on all of this?" This is the story of her beginnings. The book was written in 1980, her very first book. It has laid dormant, gathering dust, until now, waiting. Now is the time for it to come forth. Enjoy the adventure!

The truth of existence is that we are ALL part of this ancient grouping of beings that have traveled from planet to planet to see what the next and the next will bring, so that we may never stop evolving.'--Three. Where Reincarnation and Biology Intersect - Ian Stevenson 1997

Children who claim to remember a previous life have been found in many parts of the world, particularly in the Buddhist and Hindu countries of South Asia, among the Shiite peoples of Lebanon and Turkey, the tribes of West Africa, and the American northwest. Stevenson has collected over 2,600 reported cases of past-life memories of which 65 detailed reports have been published. Specific information from the children's memories has been collected and matched with the data of their claimed former identity, family, residence, and manner of death. Birthmarks or other physiological manifestations have been found to relate to experiences of the remembered past life, particularly violent death. Writing as a specialist in psychiatry and as a world-renowned scientific investigator of reported paranormal events, Stevenson asks us to suspend our Western tendencies to disbelieve in reincarnation and consider the reality of the burgeoning record of cases now available. This book summarizes Stevenson's findings which are presented in full in the multi-volume work entitled *Reincarnation and Biology: A Contribution to the Etiology of Birthmarks and Birth Defects*, also published by Praeger.
