The February 23rd Coup - Chaitram Singh
2011-07-08

“... both an edge-of-your-seat page-turner and a profound commentary on Third World politics at their most elemental level.”

—Scott Douglas Gerber, author of *The Law Clerk and The Ivory Tower*

Captain Stephen Erickson is sent to Guyana, where he runs into West Point pal Andrew Rambarran. A government overthrow is imminent, but will Steve’s dedication to his old friend cause trouble? Guyana, South America, 1979, was not a free and easy place to be. The Kabaka Party ruled the government and the streets. They carried swagger sticks, wore heavy leather boots, and called each other “comrade.” They had promised to make the small man into a real man; instead they brought poverty, starvation, and racial mistrust to a nation once hopeful, but now

disgruntled. American Captain Stephen Erickson accepts his post as Assistant Military Attaché in Guyana, aware that a military coup might be in the offing. He’s happy to reconnect with his old West Point pal, Captain Andrew Rambarran, serving in the Guyanese army. While rekindling his friendship with Andrew, Steve meets Anita, Andrew’s cousin. She is beautiful and intelligent, and Steve can’t help but fall for her. Steve’s loyalties become severely tested when the military plan to take down the Kabaka Party moves the country into a state of uproar. Should Steve be true to his friend, Andrew, or to his country’s interests in the affair? More importantly, will either he or Andrew live to find out?

Sculpture from the Sheldon Memorial Art Gallery - Karen O. Janovy 2005-01-01

"All of the 90 pieces selected from more

than 350 works in the collection are presented here in full color, each accompanied by a brief discussion of the artist and his or her work by leading scholars in the field as well as authorities on the collection. The essays examine the works of sculptors represented in the Sheldon's collection, including Barlach, Brancusi, Calder, Duchamp, Moore, and Rodin, and present a concise yet comprehensive overview of pertinent scholarship that will be of value to both students and experts in the field."--BOOK JACKET.

Pages: 148. Chapters: Joseph McCarthy, Ted

Williams, Jim Webb, John Murtha, Paul Hackett (politician), Pat Robertson, John F. Bolt, John Glenn, Daniel Ellsberg, Alex Raymond, Robert Kiyosaki, Earl Hancock Ellis, John Philip Sousa, George P. Shultz, Joe Foss, Dennis Gorski, Scott Ritter, Raymond Kelly, Pappy Boyington, John Warner, Tyrone Power, Oliver North, Pete Wilson, Ilario Pantano, James Baker, John G. Schmitz, Paul Douglas, Kurt Chew-Een Lee, Robert Harold Davidson, Douglas A. Zembiec, Brian Stann, Rob Miller (South Carolina politician), Rob Riggie, Claude R. Kirk, Jr., Robert McFarlane. Excerpt: Joseph Raymond "Joe" McCarthy (November 14, 1908 - May 2, 1957) was an American politician who served as a Republican U.S. Senator from the state of Wisconsin from 1947 until his death in 1957. Beginning in 1950, McCarthy became the most visible public face of a period in which Cold War tensions fueled fears of widespread Communist subversion. He was

noted for making claims that there were large numbers of Communists and Soviet spies and sympathizers inside the United States federal government and elsewhere. Ultimately, his tactics and inability to substantiate his claims led him to be censured by the United States Senate. The term McCarthyism, coined in 1950 in reference to McCarthy's practices, was soon applied to similar anti-communist activities. Today the term is used more generally in reference to demagogic, reckless, and unsubstantiated accusations, as well as public attacks on the character or patriotism of political opponents. Born and raised on a Wisconsin farm, McCarthy earned a law degree at Marquette University in 1935 and was elected as a circuit judge in 1939, the youngest in state history. At age 33, McCarthy volunteered for the United States Marine Corps and served during World War II. He successfully ran for the United...

Orchestral "Pops" Music - Lucy Manning 2013-10-10

In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current.

Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral "Pops" Music* includes at least 1,000 new title listings. *Orchestral "Pops" Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

The Sociology of Wind Bands - Mr Emmanuel Pierru 2013-06-28

Despite the musical and social roles they play in many parts of the world, wind bands have not attracted much interest from sociologists. *The Sociology of Wind Bands* seeks to fill this gap in research by providing a sociological account of this musical universe as it stands now. Based on a qualitative and quantitative survey conducted in northeastern France, the authors present a vivid description of the

orchestras, the backgrounds and practices of their musicians, and the repertoires they play. Their multi-level analysis, ranging from the cultural field to the wind music subfield and to everyday life relationships within bands and local communities, sheds new light on the social organisation, meanings and functions of a type of music that is all too often taken for granted. Yet they go further than merely portraying a musical genre. As wind music is routinely neglected and socially defined in terms of its poor musical quality or even bad taste, the book addresses the thorny issue of the effects of cultural hierarchy and domination. It proposes an imaginative and balanced framework which, beyond the specific case of wind music, is an innovative contribution to the sociology of lowbrow culture.
