Hominescence - Michel Serres 2019-06-13
According to Michel Serres, a process of 'hominescence' has taken place throughout

human history. Hominescence can be described as a type of adolescence; humanity in a state of growing, a state of constant change, on the threshold of something unpredictable. We are destined never to be the same again but what does the future hold? In this innovative and

passionately original work of philosophy, Serres describes the future of man as an adolescence, transitioning from childhood to adulthood, or luminescence, when a dark body becomes light. After considering the radical changes that humanity has experienced over the last fifty years, Serres analyzes the new relationship that man has with diverse concepts, like the dead, his own body, agriculture, and new communication networks. He alerts us to the consequences of these changes, particularly on the danger of growing inequalities between rich and poor countries. Should we rejoice in the future, ignore it, or even dread it? Unlike other philosophies that preach doom and gloom, Hominescence calls for us to anticipate the uncertain light of the future.

The Bias That Divides Us - Keith E. Stanovich
2021-08-31

Why we don't live in a post-truth society but rather a myside society: what science tells

us about the bias that poisons our politics. In The Bias That Divides Us, psychologist Keith Stanovich argues provocatively that we don't live in a post-truth society, as has been claimed, but rather a myside society. Our problem is not that we are unable to value and respect truth and facts, but that we are unable to agree on commonly accepted truth and facts. We believe that our side knows the truth. Post-truth? That describes the other side. The inevitable result is political polarization. Stanovich shows what science can tell us about myside bias: how common it is, how to avoid it, and what purposes it serves. Stanovich explains that although myside bias is ubiquitous, it is an outlier among cognitive biases. It is unpredictable. Intelligence does not inoculate against it, and myside bias in one domain is not a good indicator of bias shown in any other domain. Stanovich argues that because of its outlier status,

myside bias creates a true blind spot among the cognitive elite--those who are high in intelligence, executive functioning, or other valued psychological dispositions. They may consider themselves unbiased and purely rational in their thinking, but in fact they are just as biased as everyone else. Stanovich investigates how this bias blind spot contributes to our current ideologically polarized politics, connecting it to another recent trend: the decline of trust in university research as a disinterested arbiter.

Themes in French Culture - Rhoda Métraux 2001

Margaret Mead collaborated with her long-time colleague Rhoda Métraux in this unique

study of French culture. The Hoover Institute at Stanford University originally published this volume, which grew out of the Columbia University project on Research of Contemporary Cultures in 1954. It is one of the few works by American social scientists dealing with broad themes of French life. Mead and Métraux present a vivid picture of the French starting with the organization of the house and its architecture, and drawing original conclusions for the structure of French families and overall cultural values. This work, long out of print, is a fascinating and penetrating portrait of a contemporary European society.

Agroecological Crop Protection - Jean-Philippe Deguine 2017-12-22

This book is devoted to Agroecological Crop Protection, which is the declension of the principles of agroecology to crop protection. It presents the concepts of this innovative approach, case studies and lessons and

generic keys for agroecological transition. The book is intended for a wide audience, including scientists, experimenters, teachers, farmers, students. It represents a new tool, proposing concrete keys of action on the basis of feedbacks validated scientifically. Beyond the examples presented, it is therefore of general scope and proposes recommendations for all temperate and tropical cropping systems. It contributes to the training and teaching modules in this field and it is an updated information support for professionals and a teaching aid for students (agronomy, crop protection, biodiversity management, agroecology).

The Plague - Albert Camus 1991-05-07
“Its relevance lashes you across the face.”
—Stephen Metcalf, *The Los Angeles Times* •
“A redemptive book, one that will the reader to believe, even in a time of despair.”
—Roger Lowenstein, *The Washington Post A*

haunting tale of human resilience and hope in the face of unrelieved horror, Albert Camus' iconic novel about an epidemic ravaging the people of a North African coastal town is a classic of twentieth-century literature. The townspeople of Oran are in the grip of a deadly plague, which condemns its victims to a swift and horrifying death. Fear, isolation and claustrophobia follow as they are forced into quarantine. Each person responds in their own way to the lethal disease: some resign themselves to fate, some seek blame, and a few, like Dr. Rieux, resist the terror. An immediate triumph when it was published in 1947, *The Plague* is in part an allegory of France's suffering under the Nazi occupation, and a timeless story of bravery and determination against the precariousness of human existence.

Montessori Madness - Trevor Eissler 2009
"We know we need to improve our

traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

Contemporary Indonesian Fashion -

Alessandra Lopez y Royo 2019-10-31

Indonesian fashion has undergone a period of rapid growth over the last three decades. This book explores how through years of social, political, and cultural upheaval, the country's fashion has moved away from "colonial fashion" and "national dress" to claim its own distinct identity as contemporary fashion in a global world. With specific reference to women's wear, *Contemporary Indonesian Fashion* explores the diversity and complexity of the country's sartorial offerings, which weave together local textile traditions like batik and ikat-making with contemporary narratives. The book questions concepts of "tradition" and "modernity" in the developing world, taking

stock of the elite consumption of luxury brands and the large-scale manufacturing of fast fashion, and introduces us to the rise of new trends such as busana muslim (or "modest wear"), creating a portrait of a vibrant and growing national and, increasingly, international, industry.

Exploring clothing in shopping malls, on the catwalk, in magazines, and online, the book examines how Indonesian fashion is made, presented, and consumed, combining research in Indonesia with analysis and personal reflection. *Contemporary Indonesian Fashion* ultimately questions the deeply entrenched eurocentrism of "global fashion", simultaneously interrogating current homogenizing beauty and body image discourses posited as universal, by pointing to absences, silences, and erasures as reflected by contemporary Indonesian fashion- hence the "looking glass" of the title. Aptly illustrated, the book offers a new

perspective on a rapidly developing new fashion capital, Jakarta.

Visible Writings - Marija Dalbello 2011-03-15

Exploring the concept and history of visual and graphic epistemologies, this engrossing collection of essays by artists, curators, and scholars provides keen insights into the many forms of connection between visibility and legibility. With more than 130 color and black-and-white photographs, Visible Writings sheds new light on the visual dimensions of writing as well as writing's interaction with images in ways that affect

our experiences of reading and seeing. Multicultural in character and historical in range, essays discuss pre-Colombian Mesoamerican scripts, inscriptions on ancient Greek vases, medieval illuminations, Renaissance prints, Enlightenment concepts of the legible, and the Western "reading" of Chinese ideograms. A rich array of modern forms, including comics, poster art, typographic signs, scribbles in writers' manuscripts, anthropomorphic statistical pictograms, the street writings of 9/11, intersections between poetry and painting, the use of color in literary texts, and the use of writing in visual art are also addressed. *Visible Writings* reaches outside the traditional venues of literature and art history into topics that consider design, history of writing, philosophy of language, and the emerging area of visual studies. Marija Dalbello, Mary Shaw, and the other contributors offer both scholars and those

with a more casual interest in literature and art the opportunity, simply stated, to see the writing on the wall.

Rich Dad, Poor Dad - Robert T. Kiyosaki
2016-04-27

Although we have been successful in our
careers, they have not turned out quite as

we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm

going to be rich."

The Windsor Border Region - Ernest J. Lajeunesse 1972

Remy - Katy Evans 2013-11-26
New York Times bestselling author Katy Evans expands upon the intense love story begun in *Real and Mine*—this time from Remington "Riptide" Tate's point of view. Underground fighter Remington Tate is a mystery, even to himself. His mind is dark and light, complex and enlightening. At times his actions and moods are carefully measured, and at others, they spin out of control. Through it all, there's been one constant: wanting, needing, loving, and protecting Brooke Dumas. This is his story; from the first moment he laid eyes on her and knew, without a doubt, she would be the realest thing he's ever had to fight for.
