Five Minutes, Mr. Byner - John Byner
2020-06-01

John Byner is a man of many voices and characters, from impersonating the slow, rolling gait and speech of John Wayne, to lending his voice to The Ant and the Aardvark cartoons. His dead-on impersonations, as well as his unique talents as a character actor, have put him on the small screen in peoples' homes, the big screen in theaters, and no screen on Broadway. Growing up in a big family on Long Island, John discovered his uncanny ability to mimic voices as a child when he returned home from a Bing Crosby

movie and repeated Bing's performance for his family in their living room. He discovered his talent made him the focus of everyone's attention, and allowed him to make friends wherever he went, from elementary school to the U.S. Navy. John started his career in nightclubs in New York, but soon found himself getting national acclaim on The Ed Sullivan Show. With that he was on his way. This memoir is the best and funniest moments of his life, career, and relationships with some of the biggest names in entertainment, both on and off the screen.

The Liffey Archive - Bob Harley 2012-08

Bob Harley is a typical 1950's suburban teenage boy when his father's job is transferred to Holland and Bob's family moves to Europe. He finds himself in a strange new world when he is sent to boarding school in Ireland, where his mother grew up. Bob is at first confused by the English spoken by the people around him. Accustomed to comfort, his new school has bad food and no heat. Even worse, the teachers use a bamboo cane on students as punishment. One of them even seems so nuts that the other boys say

he's a Martian. Bob only wants to go home. Then Bob falls in with a group of friends who prod him out of some of his misery. He discovers the teacher he finds the most frightening (the one assigned to cane the boys) is the one he likes the best. He and his friends create hilarity with their suspenseful pranks and, inspired by the Goons comedy radio show, they commit acts of theater which culminate in Bob bringing American rock and roll to the other boys for the very first time.

America's Music Makers - John Behrens 2011-03

Discourses of Space - Judit Pieldner 2014-07-18

Ever since the emergence of the spatial turn in several scientific discourses, special attention has been paid to the surrounding space conceived as a construct created by the dynamics of human activity. The notion of space assists us in describing the most varied spheres of human existence. We can speak of various

physical, metaphysical, social and cultural, and communicative spaces, as structuring components providing access to various literary, linguistic, social and cultural phenomena, thus promoting the initiation of a cross-disciplinary dialogue. The essays selected in this volume cover a wide range of topics related to space: intercultural and interethnic spaces; linguistic, textual space formation; the narratology of space, spatial-temporal relationships, space construction in literature and film; space in contemporary art; inter-art relations and intermediality; spaces of cultural memory; nature and culture; cultural geography; cross-cultural connections between the East and the West; Central and Eastern European geocultural paradigms; the relationship between geographical space and cyberspace; and relational spaces. The approaches used in this volume range across various discursive practices related to space, outlining the shifts and displacements concerning existence and identity

in the continuously changing, restructuring, always transitory, in-between spaces.

Sasebo - Mack Samples 2007-02

Sasebo is the story of young Mason McCabe, an enlisted sailor whose leisurely tour of duty at the U.S. Naval Base in Sasebo, Japan during the 1950's is turned upside down when he comes face to face with the realities of the Cold War. His

work with classified documents brings an offer from a communist undercover organization, headed by a Nisei with a grudge against America, to buy military secrets. Mason shrugs off the early offers, but his work as a courier of top secret documents eventually gets him into a situation where he is fighting for his very life on a mountain outside Sasebo. During the course of his tour he also becomes involved in a swing band comprised of both Japanese and Americans. The band experience brings him into contact with Laura Robbins, a beautiful young officer's wife. Even though he knows that a relationship with her could have tragic consequences, he is unable to fend off the temptation. His involvement with a Japanese bar girl further complicates the situation. Mason MaCabe's adventures reveal what life was like for young servicemen in the Far East during the 1950's when America had all the money and the Seventh Fleet was the "Bull of the Pacific."

Sweet Anticipation - David Huron 2008-01-25
The psychological theory of expectation that David Huron proposes in Sweet Anticipation grew out of the author's experimental efforts to understand how music evokes emotions. These efforts evolved into a general theory of expectation that will prove informative to readers interested in cognitive science and evolutionary psychology as well as those interested in music. The book describes a set of psychological mechanisms and illustrates how these mechanisms work in the case of music. All examples of notated music can be heard on the Web. Huron proposes that emotions evoked by expectation involve five functionally distinct response systems: reaction responses (which engage defensive reflexes); tension responses (where uncertainty leads to stress); prediction responses (which reward accurate prediction); imagination responses (which facilitate deferred gratification); and appraisal responses (which occur after conscious thought is engaged). For

real-world events, these five response systems typically produce a complex mixture of feelings. The book identifies some of the aesthetic possibilities afforded by expectation, and shows how common musical devices (such as syncopation, cadence, meter, tonality, and climax) exploit the psychological opportunities. The theory also provides new insights into the physiological psychology of awe, laughter, and spine-tingling chills. Huron traces the psychology of expectations from the patterns of the physical/cultural world through imperfectly learned heuristics used to predict that world to the phenomenal qualia we experienced as we apprehend the world.

Over the years the motion picture career of

Jimmy Stewart has been highly praised and well documented. But did you know that he also had an extensive career on the radio? Among the pages of this well researched book, you will read the detailed work of Stewart on the radio. When Stewart lent his talent "on the air," radio was at its prime and was the main source of entertainment in the homes of America and around the world. Stewart was at the heart of all of this. In all, his radio career spanned seven decades. He did comedy with Bob Hope, Jack Benny, Bing Crosby and Mortimer Snerd. He did drama on Lux Radio Theatre, Screen Guild Theater and Suspense. He even brought some of his best films to the listening audience, including Harvey, The Philadelphia Story and Winchester '73. Go back now to those glory days of radio, when your "mind's eye" and a healthy dose of imagination brought you genuine, clean fun and entertainment. Back to a time when glamorous Hollywood stars weren't afraid to have their voices do all the acting for them...no makeup, no
