His Own Way Out - Taylor Saracen

2018-06-28

Blake Mitchell knows a bit about enough things and a lot about a few. While the

teenager is unsure of which direction to take in life, he's aware the road he's on is a direct route to desolation. Being outed as bisexual in the bluegrass state is alienating,

and the events to follow are worse. Still, Blake is driven--by any means necessary--to make something more of himself.

Identifying an opening, Blake paves a path and finds His Own Way Out.

The Autobiography of a Tibetan Monk - Palden Gyatso 2015-12-15

Palden Gyatso was born in a Tibetan village in 1933 and became an ordained Buddhist monk at 18 — just as Tibet was in the midst of political upheaval. When Communist China invaded Tibet in 1950, it embarked on a program of “reform” that would eventually affect all of Tibet’s citizens and nearly decimate its ancient culture. In 1967, the Chinese destroyed monasteries across Tibet and forced thousands of monks into labor camps and prisons. Gyatso spent the next 25 years of his life enduring interrogation and torture simply for the strength of his beliefs. Palden Gyatso’s story bears witness to the resilience of the

human spirit, and to the strength of Tibet’s proud civilization, faced with cultural genocide.

Virtual Orientalism - Jane Iwamura
2011-01-14

Saffron-robed monks and long-haired gurus have become familiar characters on the American popular culture scene. Jane Iwamura examines the contemporary fascination with Eastern spirituality and provides a cultural history of the representation of Asian religions in American mass media. Encounters with monks, gurus, bhikkhus, sages, sifus, healers, and masters from a wide variety of ethnic backgrounds and religious traditions provided initial engagements with Asian spiritual traditions. *Virtual Orientalism* shows the evolution of these interactions, from direct engagements with specific individuals to mediated relations with a conventionalized icon: the Oriental Monk.

Visually and psychically compelling, the Oriental Monk becomes for Americans a "figure of translation"--a convenient symbol for alternative spiritualities and modes of being. Through the figure of the solitary Monk, who generously and purposefully shares his wisdom with the West, Asian religiosity is made manageable--psychologically, socially, and politically--for popular culture consumption. Iwamura's insightful study shows that though popular engagement with Asian religions in the United States has increased, the fact that much of this has taken virtual form makes stereotypical constructions of "the spiritual East" obdurate and especially difficult to challenge.

The Pants Of Perspective - Anna McNuff
2020-09-14

"When I ran, I ran for pleasure. I didn't run for times, to win, to impress: I ran for me. When I ran my bum cheeks rubbed

together, so much so that if I was going on a long run I'd have to 'lube up'. I maintained that I was not a 'real' runner - I just liked to run so that I could eat cake." Anna was never anything like those 'real' runners on telly - all spindly limbs, tiny shorts and split times - but when she read about New Zealand's 3,000-kilometre-long Te Araroa Trail, she began to wonder... perhaps being a 'real' runner was overrated. Maybe she could just run it anyway? Travelling alone through New Zealand's backcountry for 148 days, she scrambled through forests, along ridge-lines, over mountain passes, along beaches and across swollen rivers. Running up to 52 kilometres in a day, she slept wild most nights, and was taken into the homes and hearts of the kiwi people in between. *The Pants of Perspective* is a witty, colourful and at times painfully raw account of a journey to the edge of what a woman

believes herself to be capable of. It is a coming-of-age story which will lead you on a roller coaster ride through fear, vulnerability courage and failure. For anyone who has ever dreamt of taking on a great challenge, but felt too afraid to begin - this story is for you.

Tell to Win - Peter Guber 2011-03-01

Today everyone—whether they know it or not—is in the emotional transportation business. More and more, success is won by creating compelling stories that have the power to move partners, shareholders, customers, and employees to action. Simply put, if you can't tell it, you can't sell it. And this book tells you how to do both.

Historically, stories have always been igniters of action, moving people to do things. But only recently has it become clear that purposeful stories—those created with a specific mission in mind—are absolutely essential in persuading others to support a vision, dream or cause. Peter Guber, whose executive and entrepreneurial accomplishments have made him a success in multiple industries, has long relied on purposeful story telling to motivate, win over, shape, engage and sell. Indeed, what began as knack for telling

stories as an entertainment industry executive has, through years of perspiration and inspiration, evolved into a set of principles that anyone can use to achieve their goals. In *Tell to Win*, Guber shows how to move beyond soulless Power Point slides, facts, and figures to create purposeful stories that can serve as powerful calls to action. Among his techniques: * Capture your audience's attention first, fast and foremost * Motivate your listeners by demonstrating authenticity * Build your tell around "what's in it for them" * Change passive listeners into active participants * Use "state-of-the-heart" technology online and offline to make sure audience commitment remains strong To validate the power of telling purposeful stories, Guber includes in this book a remarkably diverse number of "voices" —master tellers with whom he's shared experiences. They include YouTube

founder Chad Hurley, NBA champion Pat Riley, clothing designer Normal Kamali, "Mission to Mars" scientist Gentry Lee, Under Armour CEO Kevin Plank, former South African president Nelson Mandela, magician David Copperfield, film director Steven Spielberg, novelist Nora Roberts, rock legend Gene Simmons, and physician and author Deepak Chopra. After listening to this extraordinary mix of voices, you'll know how to craft, deliver—and own—a story that is truly compelling, one capable of turning others into viral advocates for your goal.

The Yellow Peril - Christopher Frayling
2014-10-06

A hundred years ago, the fictional evil genius called Dr Fu Manchu appeared, described as 'the yellow peril incarnate in one man'. Why did the idea that the Chinese were a threat to Western civilization develop at precisely the time when that

country was in chaos, divided against itself, victim of successive famines and utterly incapable of being a 'peril' to anyone? In this gripping book, Sir Christopher Frayling assembles an astonishing diversity of evidence to show how deeply ingrained Chinaphobia became in the West - acutely relevant again in the new era of Chinese superpower. Along the way he talks to Edward Said, to the last Governor of Hong Kong, to movie stars and a host of others; he journeys through the opium dens of the 19th century with Dickens; takes us to the heart of popular culture in the music hall, pulp literature and the mass-market press; and shows how film amplifies our assumptions, demonstrating throughout how if we want to understand our deepest desires and fears we neglect the history of popular culture at our own peril. Christopher Frayling is a former rector of the Royal College of Art and a renowned

cultural historian.

I'm Going to Miss You - Robert Tennent
2021-06-23

'I'm going to miss you' documents long and nostalgic summer days, shared with beautiful men. The photography book explores brotherhood, sensuality, and the act of playing, for to play is to be vulnerable. Rob Tennent carries through themes presented in his earliest book 'Come Back to Bed'. Themes of intimacy are suggested in his creative direction and composition, serving as a nod to his earlier works. The sentence 'I'm going to miss you' is a quote whispered by lovers photographed in 'Come Back to Bed'. Now repurposed to symbolise the emotions he feels towards the summer just past.

English in Tibet, Tibet in English - L. McMillin 2001-11-16

This book explores two kinds of self-presentation in Tibet and the Tibetan diaspora: that of British writers in their

travel texts to Tibet from 1774 to 1910 and that of Tibetans in recent autobiographies in English. McMillin contends that Tibet and the Anglophone West have had a long, complex, and convoluted relationship that can be explored, in part, through analysis of English language texts. The first part of the book explores how a myth of epiphany in Tibet comes to dominate English texts of travel in Tibet, while the second part considers how Tibetan autobiographers writing in English have responded and resisted Western images of them.

Dirty Words and Filthy Pictures - Jeremy Geltzer 2016-01-04

From the earliest days of cinema, scandalous films such as *The Kiss* (1896) attracted audiences eager to see provocative images on screen. With

controversial content, motion pictures challenged social norms and prevailing laws at the intersection of art and entertainment. Today, the First Amendment protects a wide range of free speech, but this wasn't always the case. For the first fifty years, movies could be censored and banned by city and state officials charged with protecting the moral fabric of their communities. Once film was embraced under the First Amendment by the Supreme Court's *Miracle* decision in 1952, new problems pushed notions of acceptable content even further. *Dirty Words & Filthy Pictures* explores movies that changed the law and resulted in greater creative freedom for all. Relying on primary sources that include court decisions, contemporary periodicals, state censorship ordinances, and studio production codes, Jeremy Geltzer offers a comprehensive and fascinating history of cinema and free

speech, from the earliest films of Thomas Edison to the impact of pornography and the Internet. With incisive case studies of risqué pictures, subversive foreign films, and banned B-movies, he reveals how the legal battles over film content changed long-held interpretations of the Constitution, expanded personal freedoms, and opened a new era of free speech. An important contribution to film studies and media law, Geltzer's work presents the history of film and the First Amendment with an unprecedented level of detail.

Making India Great Again - Meeta Rajivlochan 2020-10-01
How can India become a great country once again, is the question explored in this book. In the past, India had significant achievements in science, technology,

mathematics and business. A failure to build robust institutional networks of information and trust and indifference of the state to business communities, brought all that crashing down within a generation. Many of these historical patterns persist till today. The ability to create wealth has everything to do with such networks. There was never any shortage of innovation in India. What was lacking was the ability to learn from their own experience. The building of learning networks and a learning ecosystem that could be used by people to leverage success – this is what is needed to unlock the huge talent pool that India possesses. This book addresses young, educated and aspiring Indians in different walks of life who are interested in contemporary issues relating to nation, society and economy. It puts forward some solutions to the problems that India faces. It would be of interest to anyone who would

like to know how history can teach us to rewrite the Indian growth story and to rebuild a great nation. The book could also be used as reading material for students of history, political science, public administration, business administration, in under-graduate and post-graduate classes. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

Electric Soul - Taylor Saracen 2019-02-21
Joey Mills doesn't know who he wants to be. He isn't even sure who he doesn't. All he knows is that he thinks about it less than other people who try to mold themselves into certain boxes they are convinced they need to fit into. He always fit in just by being himself. Or maybe that is what he trains his brain to believe, that he is who he wants to be, and that people want to be around whoever he is. Thinking about it too much is a dangerous exercise in self-doubt,

one he doesn't have the patience to participate in. Why doesn't he tell people he is gay? Why is it off-limits if he truly doesn't worry about what people think of him? Maybe it's time for a change. Rise Up is a series of new adult novels that illuminates pivotal moments in the lives of LGBTQ youth. Each novel features a fresh protagonist and his experience navigating the ups and downs of adulthood. While the characters change and the stories vary, common themes--including the struggle for independence, identifying one's passions, searching for acceptance and for love--are interwoven through the pages of the novels. These stories will open your eyes to worlds of possibilities, both conventional and off-beat, as these men take you on their journeys to self-discovery.

Called Again - Jennifer Pharr Davis
2013-05-31

In 2011, Jennifer Pharr Davis became the overall record holder on the Appalachian Trail. By hiking 2,181 miles in 46 days - an

average of 47 miles per day - she became the first female to ever set that mark. But this is not a book about records or numbers; this is a book about endurance and faith, and most of all love. The most amazing part of this story is not found at the finish, but is discovered through the many challenges, lessons and relationships that present themselves along the trail. This is Jennifer's story, in her own words, about how she started this journey with a love for hiking and more significantly a love for her husband Brew. Together, they were able to overcome rugged mountains and raging rivers, sleet storms and 100 degree heat, shin-splints and illnesses. They made new friends and tested old friendships; they shared together laughter, and tears - a lot of tears. But, through it all, they fell more in love with one another and with the wilderness. By completing this extraordinary amateur feat, Jennifer rose

above the culture of multi-million dollar sports contracts that is marked by shortcuts and steroids. This is the story of a real person doing something remarkable. Jennifer Pharr Davis is a modern role-model for women - and men. She is an authentic hero.

Seven Years in Tibet - Heinrich Harrer 1982

In this vivid memoir that has sold millions of copies worldwide, Heinrich Harrer recounts his adventures as one of the first

Europeans ever to enter Tibet. Harrer was traveling in India when the Second World War erupted. He was subsequently seized and imprisoned by British authorities. After several attempts, he escaped and crossed the rugged, frozen Himalayas, surviving by duping government officials and depending on the generosity of villagers for food and shelter. Harrer finally reached his ultimate destination—the Forbidden City of Lhasa—without money, or permission to be in Tibet. But Tibetan hospitality and his own curious appearance worked in Harrer's favor, allowing him unprecedented acceptance among the upper classes. His intelligence and European ways also intrigued the young Dalai Lama, and Harrer soon became His Holiness's tutor and trusted confidant. When the Chinese invaded Tibet in 1950, Harrer and the Dalai Lama fled the country together. This timeless story illuminates Eastern culture,

as well as the childhood of His Holiness and the current plight of Tibetans. It is a must-read for lovers of travel, adventure, history, and culture. A motion picture, under the direction of Jean-Jacques Annaud, will feature Brad Pitt in the lead role of Heinrich Harrer.

A timely and groundbreaking work, here is a comprehensive analysis of the interactions between religion and technology in Asia today. How does the use of technology affect people's experience of spirituality and the formation of religious identity and community? How do developments in the latest technological breakthroughs such as the Internet influence the ways people constitute themselves as social beings, and how does it shape their experience of the sacred and the divine? Conversely, to what extent, and in what ways do religious beliefs and practices shape people's attitude towards new technology and its deployment? Combining wide-ranging empirical

investigations and sophisticated theoretical reflections, this book demonstrates how the technological and the religious often intersect with the political, thereby elucidating the complex relationships between spirituality, social and identity formation, sovereignty and power.
