The Cambridge History of Medieval English Literature - David Wallace 2002-04-25

This was the first full-scale history of medieval English literature for nearly a century. Thirty-three distinguished contributors offer a collaborative account of literature composed or transmitted in England, Wales, Ireland and Scotland between the Norman conquest and the death of Henry VIII in 1547. The volume has five sections: 'After the Norman Conquest'; 'Writing in the British Isles'; 'Institutional Productions'; 'After the Black Death' and 'Before the Reformation'. It provides information on a vast range of literary texts and the conditions of their production and reception, which will serve both specialists and general readers, and also contains a chronology, full bibliography and a detailed index. This book offers an extensive and vibrant account of the medieval literatures so drastically reconfigured in Tudor England. It will thus prove essential reading for scholars of the Renaissance as well as medievalists, and for historians as well as literary specialists.

Cambridge Grammar for CAE and Proficiency with Answers and Audio CDs (2) - Martin Hewings 2009-02-26

Cambridge Grammar for CAE and Proficiency provides complete coverage of the grammar needed for both CAE and Proficiency with plenty of exam practice at the same time. Grammar is presented in a listening context giving students the chance to hear it being used in realistic situations and making it easier to remember. It includes the full range of exam tasks from the Reading, Writing and Listening papers and shows how grammar knowledge is tested in each of these. Informed by the Cambridge Learner Corpus, grammar is presented in genuine contexts and the book covers the errors students really make.

The Fortress - Meša Selimović 1999

The Fortress is one of the most significant and fascinating novels to come out of the former Yugoslavia. Ahmet Shabo returns home to eighteenth-century Sarajevo from the war in Russia, numbed by the death in battle or suicide of nearly his entire military unit. In time he overcomes the anguish of war, only to find that he has emerged a reflective and contemplative man in a society that does not value, and will not tolerate, the subversive implications of these qualities.

Symbolic Construction of Community - Anthony P. Cohen 2013-03-07

Anthony Cohen makes a distinct break with earlier approaches to the study of community, which treated the subject in largely structural terms. His view is interpretive and experiential, seeing the community as a cultural field with a complex of symbols whose meanings vary among its members. He delineates a concept applicable to

local and ethnic communities through which people see themselves as belonging to society. The emphasis on boundary is sensitive to the circumstances in which people become aware of the implications of belonging to a community, and describes how they symbolise and utilise these boundaries to give substance to their values and identities.

Rhetorical Memory and Delivery - John Frederick Reynolds 2013-11-05

Why has classical rhetoric been a subject of such growing interest for the past ten years? Because the most exciting work in classical rhetoric has asked us to rethink classical concepts in modern terms. What's been missing, at least in book-length form, is a scholarly rethinking of rhetorical memory and delivery. As many scholars have been noting in their work for some time now, three of five classical issues -- invention, arrangement, and style -- have dominated rhetorical studies while the other two -- memory and delivery -- have largely been misunderstood or ignored. Re-examined in light of recent research on orality, literacy, and electronic technology, rhetorical memory and delivery issues can become not only central to the field but also key to the continued interest in classical rhetoric. Bringing together national scholars from a variety of related disciplines in which rhetorical memory and delivery issues matter, this collection is the only volume that examines classical and contemporary interpretations of rhetorical memory and delivery in depth and detail.

The Inconsiderate Waiter - J. M. Barrie 2017-04-23

Full text. How would you feel if your social position demands you to behave one way and your conscience asks you to behave in another way? When you are so conditioned by the social norms that you fail to recognize the faults in your actions eventhough your conscience pulls you back most of the time. This is a story of a person who faces that dilemma. Quote: It is not correct taste to know the name of a club waiter, so I must apologise for knowing William's, and still more for not forgetting it. If, again, to speak of a waiter is bad form, to speak bitterly is the comic degree of it. But William has disappointed me sorely. There were years when I would defer dining several minutes that he might wait on me.

Representing Reality - Jonathan Potter 1996-08-28

'This is an admirable book which can be recommended to students with confidence, and is likely also to become an indispensable source of reference for those researching fact construction' - Discourse & Society How is reality manufactured? The idea of social construction has become a commonplace of much social research, yet precisely what is constructed, and how, and even what constructionism means, is often unclear or taken for granted. In this major work, Jonathan Potter offers a fascinating tour of the central themes raised by these questions. Representing Reality overviews the different traditions in constructionist thought. Points are illustrated throughout with

Prosodic and Rhythmic Aspects of L2 Acquisition - Anna De Meo 2013-02-21

In recent years, prosodic competence has become increasingly important in second language acquisition studies, as it is a crucial element in the identification of non-native pronunciation and message understanding. This volume is the first attempt to provide a survey of interlanguage prosody research in L2 Italian. It begins with an overview of the possible approaches to the study of rhythmic-prosodic skills acquisition in an L2. The second part of the book emphasizes the relationship between the mother tongue and a second language, and investigates the presence of transfer in prosody interlanguage development. The third part illustrates prosody's role in the interpretation of pragmatic meaning in native-non-native interaction, and its influence on message persuasiveness. And in the fourth part, technology meets prosody in the areas of second language teaching and speech synthesis.

Semantics of Word Formation and Lexicalization - Pius ten Hacken 2013-11-17

In the study of word formation, the focus has often been on generating the form. In this book, the semantic aspect of the formation of new words is central. It is viewed from the perspectives of word formation rules and of lexicalization. An extensive introduction gives a historical overview of the study of the semantics of word formation and lexicalization, explaining how the different theoretical frameworks used in the contributions relate to each other. Each chapter then concentrates on a specific question about a theoretical concept or a word formation process in a particular language and adopts a theoretical framework that is appropriate to the study of this question. From general theoretical concepts of productivity and lexicalization, the focus moves to terminology, compounding, and derivation. Theoretical frameworks discussed include Jackendoff's Conceptual Structure, Langacker's Cognitive Grammar, Lieber's lexical semantic approach to word formation, Pustejovsky's Generative Lexicon, Beard's Lexeme-Morpheme-Base Morphology, The onomasiological approach to terminology and word formation.

The Media and Me - Ben Boyington 2022-12-06

From foundations in critical thinking skills to practical tools and real-life perspectives, this book empowers young adult readers to be independent media users. During the recent presidential election, "media literacy" became a buzzword that signified the threat media manipulation posed to democratic processes. Meanwhile, statistical research has shown that 8 to 18 year-olds pack more than eleven hours with some form of media into each day by "media multitasking." Young people are not only eager and interested to learn about and discuss the realities of media ownership, production, and distribution, they also deserve to understand differential power structures in how media influences our culture. The Media and Me provides readers with the tools and perspectives to be empowered and autonomous media users. The book explores critical inquiry skills to help young people form a multidimensional comprehension of what they read and watch, opportunities to see others like them making change, and insight into their own identity projects. By covering topics like storytelling, building arguments and recognizing fallacies, surveillance and digital gatekeeping, advertising and consumerism, and global social problems through a critical media literacy lens, this book will help students evolve from passive consumers of media to engaged critics and creators. The Media and Me is a joint production of The Censored Press and Triangle Square

Books for Young Readers.
