Contemporary Dystopian Fiction for Young Adults - Balaka Basu 2013-05-02

Winner of the Children's Literature Association Edited Book Award From the jaded, wired teenagers of M.T. Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy, the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings. As the dark universes of YA dystopias continue to flood the market, *Contemporary Dystopian Fiction for Young Adults: Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon. With its capacity to frighten and warn, dystopian writing powerfully engages with our pressing global concerns: liberty and self-determination, environmental destruction and looming catastrophe, questions of identity and justice, and the increasingly fragile boundaries between technology and the self. When directed at young readers, these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood. This collection enacts a lively debate about the goals and efficacy of YA dystopias, with three major areas of contention: do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature? Do their political critiques represent conservative or radical ideologies? And finally, are these novels high-minded attempts to educate the young or simply bids to cash in on a formula for commercial success? This collection represents a prismatic and evolving understanding of the genre, illuminating its relevance to children's literature and our wider culture.

Peeps - Scott Westerfeld 2006-09-07

A year ago, Cal Thompson was a college freshman more interested in meeting girls and partying than in attending biology class. Now, after a fateful encounter with a mysterious woman named Morgan, biology has become, literally, Cal's life. Cal was infected by a parasite that has a truly horrifying effect on its host. Cal himself is a carrier, unchanged by the parasite, but he's infected the girlfriends he's had since Morgan. All three have turned into the ravaging ghouls Cal calls *Peeps*. The rest of us know them as vampires. It's Cal's job to hunt them down before they can create more of their kind. . . . Bursting with the sharp intelligence and sly humor that are fast becoming his trademark, Scott Westerfeld's novel is an utterly original take on an archetype of horror.

The Killing of Worlds - Scott Westerfeld 2008-09-30

Scott Westerfeld, the acclaimed author of *Fine Prey*, *Polymorph*, and *Evolution's Darling*, reached new heights of excitement in last spring's *The Risen Empire*, and left readers begging for more. Now he comes through with the dazzling payoff in book two of *Succession*, *The Killing of Worlds*. Captain Laurent Zai of the Imperial frigate *Lynx* is a walking dead man. Unjustly held responsible for the death of the Child Empress, sister of the immortal Emperor,

Zai has been sent to fight an unwinnable battle. The Lynx must stop a vastly superior Rix ship from reaching the planet Legis, a suicide mission that will almost certainly end in oblivion for Captain Zai and his crew. On the planet Legis below, a Rix compound mind--a massive emergent AI formed from every computer on the planet--as been isolated by their Imperial blockade. But the mind has guided a lone Rix commando, Herd, to the planet's frozen north, and will soon order a desperate attempt to seize a polar communications array and break the blockade. Herd is a single warrior against an Imperial army, but moving silently behind her is the intelligence of an entire planet. Ten light-years away, Captain Zai's true love, the psychic (some say mad) Senator Nara Oxham is engaged in a deadly game of political intrigue. From her position on the Emperor's War Council, Senator Oxham must find a way to forestall the Emperor's final solution if the blockade is broken: a nuclear strike to destroy the compound mind, which will also kill millions of Imperial citizens. She suspects that the Emperor has a hidden weakness discovered, by the mind, a secret so dangerous to his immortal dynasty that to prevent its discovery the Emperor is willing to countenance the ultimate crime. . . . The killing of worlds. With this powerful conclusion to the first story arc of *Succession*, Scott Westerfeld confirms his stature as one of the leading writers of high space opera. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Beauty ideals and cosmetic surgery in Scott Westerfeld's novel "Uglies" - 2019-03-22

Seminar paper from the year 2018 in the subject English Language and Literature Studies - Literature, grade: 1,5, Karlsruhe University of Education, language: English, abstract: Television, social platforms and advertisements

are full of them: successful, rich and irresistibly attractive people. Their pretty faces, their beguiling smiles and glamorous appearances have a great influence on our idea of being beautiful. In our recent society beauty is a privilege, which leads to success, money and an unbridled lovelife. We strive for being equal to them. We envy them for their beauty, their fame and their lifestyle. At the same time it is obvious, that this world of glamour and flawlessness is moreoften a world of sham and pretence. High prices are paid for a beautiful face or a slim figure. Being under pressure to fit into a certain beauty ideal, the people in our society are victims of a beauty mania, which demands a lot. Not only a ridiculous high consumption of cosmetics and beauty products, but also more drastic measures like cosmetic surgeries or symptoms like anorexia and bulimia can be seen as a sign for that. But let us imagine a world without this beauty competition. A world, in which everyone is equally pretty due to a compulsory cosmetic surgery as a teenager. Scott Westerfeld creates such a scenery in his young dystopian fiction novel "Uglies" and takes a critical approach to a society, which is only based on being pretty. On the basis of this book, I want to have a closer look on our modern beauty ideals and how they influence our recent society. Or rather how our society influences beauty ideals. What problems arise with this beauty mania? What does Westerfeld criticises in his novel? I also want to pay attention on the beauty ideals in a historical context and how they changed over time.
