Exemplary Elementary Social Studies - Sherry L. Field 2014-04-01

In many elementary classrooms, social studies has taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand-wringing lament. On the contrary, the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom, how teachers can integrate social studies knowledge and skills throughout the school day, and how this learning can carry over into children's homes and communities. The seven case studies in this book, one at each elementary grade level, highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability. At the end of each case study, each teacher provides advice for elementary teachers of social studies. Our hope is that elementary teachers and prospective teachers, elementary principals, social studies supervisors, staff developers, and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum.

Documents of the Assembly of the State of New York - New York (State). Legislature. Assembly 1911

World Yearbook of Education 2003 - Jill Bourne 2003-12-16 The issues raised by the role of language in education are some of the most important and contentious faced by education systems across the globe. Language is embedded in the concepts of nationhood and identity, and is therefore directly linked to the very social and political fabric of a country. In a climate of increasing globalisation, development and mobility of populations, nations around the world are concerned with the tension between cultivating a sense of cultural and linguistic cohesion and making use of the linguistic diversity that exists in every country and region. This book examines the implications and impacts, the dilemmas and potential for language education in relation to education systems and wider society. Split into three key parts, it considers: *current issues in language education, including the role of language in maintaining power and inequalities, in encouraging participation and inclusion and in challenging the status quo; *different approaches to language education around the world; *the potential for language to provide opportunities for the disadvantaged, illustrated by case studies of three cities. This recent volume of the internationally respected World Yearbook of Education continues the tradition of offering a wide range of international perspectives from leading commentators on a universal concern. The material amassed here will be essential reading for teacher educators, education researchers and school leaders across the world. English Mock Exam Papers - Serena Foo 2016

Assessing Young Learners of English: Global and Local Perspectives - Marianne Nikolov 2015-10-29

This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self- perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.

Internationalisation in Vietnamese Higher Education - Ly Thi Tran 2018-06-08

This book focuses on models, strengths, opportunities, constraints and tensions in internationalisation in Vietnamese higher education. It reflects on key concepts from contemporary theories and models of internationalisation and discusses the implications for innovation, flexibility and responsiveness to local needs in Vietnam. Based on empirical research, theoretical knowledge and the experiences of researchers from Vietnam and overseas, the book draws out the distinctiveness and complexity of internationalisation practices and charts a way forward. It examines the key drivers and dimensions of internationalising Vietnamese higher education, and compares internationalisation in Vietnam to that in other countries. It clarifies and discusses tensions related to the appropriation of 'Western' internationalisation practice and models, and neo-liberal ideologies, to the local context of Vietnam. It provides readers with insights into government policy, quality assurance and benchmarking strategies, curriculum, the impact of international organisations on higher education, international student mobility, transnational education, employability, brain drain and brain gain and brain circulation.

Child Cultures, Schooling, and Literacy - Anne Haas Dyson 2016-02-19

Through analysis of case studies of young children (ages 3 to 8 years), situated in different geographic, cultural, linguistic, political, and socioeconomic sites on six continents, this book examines the interplay of childhoods, schooling, and, literacies. Written language is situated within particular childhoods as they unfold in school. A key focus is on children's agency in the construction of their own childhoods. The book generates diverse perspectives on what written language may mean for childhoods. Looking at variations in the complex relationships between official (curricular) visions and unofficial (child-initiated) visions of relevant composing practices and appropriate cultural resources, it offers, first, insight into how those relationships may change over time and space as children move through early schooling, and, second, understanding of the dynamics of schools and the experience of childhoods through which the local meaning of school literacy is formulated. Each case—each child in a particular sociocultural site—does not represent an essentialized nation or a people but, rather, a rich, processual depiction of childhood being constructed in particular local contexts and the role, if any, for composing.

Kenya Gazette - 1977-05-20

The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or

policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.
