

Privilege Power And Difference

When people should go to the books stores, search commencement by shop, shelf by shelf, it is in fact problematic. This is why we allow the book compilations in this website. It will certainly ease you to look guide **Privilege Power And Difference** as you such as.

By searching the title, publisher, or authors of guide you in fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections. If you mean to download and install the Privilege Power And Difference , it is utterly simple then, since currently we extend the associate to purchase and make bargains to download and install Privilege Power And Difference fittingly simple!

Undoing Privilege - Professor Bob Pease 2013-04-04

For every group that is oppressed, another group is privileged. In *Undoing Privilege*, Bob Pease argues that privilege, as the other side of oppression, has received insufficient attention in both critical theories and in the practices of social change. As a result, dominant groups have been allowed to reinforce their dominance. *Undoing Privilege* explores the main sites of privilege, from Western dominance, class elitism, and white and patriarchal privilege to the less-examined sites of heterosexual and able-bodied privilege. Pease points out that while the vast majority of people may be oppressed on one level, many are also privileged on another. He also demonstrates how members of privileged groups can engage critically with their own dominant position, and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.

White Fragility - Dr. Robin DiAngelo 2018-06-26

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Developing Cultural Humility - Miguel E. Gallardo 2013-01-18

Developing Cultural Humility offers a unique look into the journeys of psychologists striving towards an integration of multiculturalism in their personal and professional lives. Contributing authors—representing a mix of “cultural backgrounds” but stereotypically identified as “White”—engage in thoughtful dialogue with psychologists from underrepresented communities who are identified as established and respected individuals within the multicultural field. The contributing authors discuss both the challenges and rewards they experienced in their own journeys and how they continue to engage in the process of staying connected to their cultural identity and to being culturally responsive. In addition, psychologists who represent historically disenfranchised communities have similarly reflected on their own journey, while offering commentary to the personal stories of White psychologists. This text is useful for stimulating discussions about privilege, power, and the impact race has on either bringing people together or creating more distance, whether intentionally or unintentionally. It demonstrates to readers how to engage in the process of examining one’s own “culture” in more intentional ways, and discusses the implications as we move towards engaging in more dialogue around multicultural issues.

Race Cars - Jenny Devenny 2021-05-04

Race Cars is a picture book that serves as a springboard for parents and educators to discuss race, privilege, and oppression with their kids.

The Making of a Quagmire - David Halberstam 2008

Pulitzer-prize winning author David HalberstamOs eyewitness

account of the most critical political period of U.S. involvement in Vietnamthe Kennedy/Diem ereremains as fresh and stimulating today as when it was first published in 1965. In the introduction to this edition, historian Daniel J. Singal provides crucial background information that was unavailable when the book was written.

Sister Outsider - Audre Lorde 2020-02-25

“*Sister Outsider*, a collection of essays and speeches by the pioneering feminist Audre Lorde, is one of my all-time-favorite books. It’s always great to have an intersectional tome on hand.” —Amanda Gorman “*Sister Outsider*’s teachings, by one of our most revered elder stateswomen, should be read by everyone.” —Essence Presenting the essential writings of black lesbian poet and feminist writer Audre Lorde, *Sister Outsider* celebrates an influential voice in twentieth-century literature, with a foreword by Mahogany L. Browne. A New York Times New & Noteworthy book A Penguin Vitae Edition In this charged collection of fifteen essays and speeches, Lorde takes on sexism, racism, ageism, homophobia, and class, and propounds social difference as a vehicle for action and change. Her prose is incisive, unflinching, and lyrical, reflecting struggle but ultimately offering messages of hope. The groundbreaking feminist’s timely collection of nonfiction writings on race, gender, and LGBTQ issues is now for the first time in Penguin Classics as part of the Penguin Vitae series, with a foreword by poet Mahogany L. Browne. Penguin Classics launches a new hardcover series with five American classics that are relevant and timeless in their power, and part of a dynamic and diverse landscape of classic fiction and nonfiction from almost seventy-five years of classics publishing. Penguin Vitae provides readers with beautifully designed classics that have shaped the course of their lives, and welcomes new readers to discover these literary gifts of personal inspiration, intellectual engagement, and creative originality.

Mountains Beyond Mountains - Tracy Kidder 2009-08-25

NEW YORK TIMES BESTSELLER • “[A] masterpiece . . . an astonishing book that will leave you questioning your own life and political views.”—USA Today “If any one person can be given credit for transforming the medical establishment’s thinking about health care for the destitute, it is Paul Farmer. . . . [Mountains Beyond Mountains] inspires, discomforts, and provokes.”—The New York Times (Best Books of the Year) In medical school, Paul Farmer found his life’s calling: to cure infectious diseases and to

bring the lifesaving tools of modern medicine to those who need them most. Tracy Kidder's magnificent account shows how one person can make a difference in solving global health problems through a clear-eyed understanding of the interaction of politics, wealth, social systems, and disease. Profound and powerful, *Mountains Beyond Mountains* takes us from Harvard to Haiti, Peru, Cuba, and Russia as Farmer changes people's minds through his dedication to the philosophy that "the only real nation is humanity." WINNER OF THE LETTRE ULYSSES AWARD FOR THE ART OF REPORTAGE This deluxe paperback edition includes a new Epilogue by the author

Grit - Angela Duckworth 2016-05-03

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit*'s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winingly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

White Kids - Margaret A. Hagerman 2020-02-01

Winner, 2019 William J. Goode Book Award, given by the Family Section of the American Sociological Association Finalist, 2019 C. Wright Mills Award, given by the Society for the Study of Social Problems Riveting stories of how affluent, white children learn about race American kids are living in a world of ongoing public debates about race, daily displays of racial injustice, and for some, an increased awareness surrounding diversity and inclusion. In this heated context, sociologist Margaret A. Hagerman zeroes in on affluent, white kids to observe how they make sense of privilege, unequal educational opportunities, and police violence. In fascinating detail, Hagerman considers the role that they and their families play in the reproduction of racism and racial inequality in America. *White Kids*, based on two years of research involving in-depth interviews with white kids and their families, is a clear-eyed and sometimes shocking account of how white kids learn about race. In doing so, this book explores questions such as, "How do white kids learn about race when they grow up in families that do not talk openly about race or acknowledge its impact?" and "What about children growing up in families with parents who consider themselves to be 'anti-racist'?" Featuring the actual voices of young, affluent white kids and what they think about race, racism, inequality, and privilege, *White Kids* illuminates how white racial socialization is much more dynamic, complex, and varied than previously recognized. It is a process that stretches beyond white parents' explicit conversations with their white children and includes not only the choices parents make about neighborhoods, schools, peer groups, extracurricular activities, and media, but also the choices made by the kids themselves. By interviewing kids who are growing up in different racial contexts—from racially segregated to meaningfully integrated and from politically progressive to conservative—this important book documents key differences in the outcomes of white racial socialization across

families. And by observing families in their everyday lives, this book explores the extent to which white families, even those with anti-racist intentions, reproduce and reinforce the forms of inequality they say they reject.

Geographies of Privilege - France Winddance Twine 2013-02-11

How are social inequalities experienced, reproduced and challenged in local, global and transnational spaces? What role does the control of space play in distribution of crucial resources and forms of capital (housing, education, pleasure, leisure, social relationships)? The case studies in *Geographies of Privilege* demonstrate how power operates and is activated within local, national, and global networks. Twine and Gardener have put together a collection that analyzes how the centrality of spaces (domestic, institutional, leisure, educational) are central to the production, maintenance and transformation of inequalities. The collected readings show how power—in the form of economic, social, symbolic, and cultural capital—is employed and experienced. The volume's contributors take the reader to diverse sites, including brothels, blues clubs, dance clubs, elite schools, detention centers, advocacy organizations, and public sidewalks in Canada, Italy, Spain, United Arab Emirates, Mozambique, South Africa, and the United States. *Geographies of Privilege* is the perfect teaching tool for courses on social problems, race, class and gender in Geography, Sociology and Anthropology.

Difference Matters - Brenda J. Allen 2010-07-19

Allens proven ability and flare for presenting complex and oftentimes sensitive topics in nonthreatening ways carry over in the latest edition of *Difference Matters*. Her down-to-earth analysis of six social identity categories reveals how communication establishes and enacts identity and power dynamics. She provides historical overviews to show how perceptions of gender, race, social class, sexuality, ability, and age have varied throughout time and place. Allen clearly explains pertinent theoretical perspectives and illustrates those and other discussions with real-life experiences (many of which are her own). She also offers practical guidance for how to communicate difference more humanely. While many examples are from organizational contexts, readers from a wide range of backgrounds can relate to them and appreciate their relevance. This eye-opening, vibrant text, suitable for use in a variety of disciplines, motivates readers to think about valuing difference as a positive, enriching feature of society. Interactive elements such as Spotlights on Media, I.D. Checks, Tool Kits, and Reflection Matters questions awaken interest, awareness, and creative insights for change.

Playing the Race Card - George Jerry Sefa Dei 2004

Playing the Race Card reflects and engages the dynamic nature of racialized experience in Western contexts. It examines today's anti-racism project to discern how it might benefit from integrating strategies that work toward the development of critical consciousness as its main goal. So that the privileged and the oppressed alike may reflexively examine their own subject positions, this book identifies and addresses the need to develop a working model for anti-racism strategies. Given the need to understand and move beyond static conceptions of race and racism, *Playing the Race Card* offers both a critique of mainstream/privileged perceptions of racial oppression, as well as a direction forward within a more «organic» approach to social reform.

Privilege, Power, and Difference - Allan G Johnson 2006

This brief book is a groundbreaking tool for students and non-students alike to examine systems of privilege and difference in our society. Written in an accessible, conversational style, Johnson links theory with engaging examples in ways that enable readers to see the underlying nature and consequences of privilege and their connection to it. This extraordinarily successful book has been used across the country, both inside and outside the classroom, to shed light on issues of power and privilege. Allan Johnson has worked on issues of social inequality since receiving his Ph.D. in sociology from the University of Michigan in 1972. He has more than thirty years of teaching experience and is a frequent speaker on college and university campuses. Johnson has earned a reputation for writing that is exceptionally clear and explanations of complex ideas that are accessible to a broad audience. Instructors and students can now access their course content through the Connect digital learning platform by

purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here: <http://www.mheducation.com/highered/platforms/connect/training-support-students.html>

The Price of Privilege - Madeline Levine, PhD 2009-10-13

In this ground-breaking book on the children of affluence, a well-known clinical psychologist exposes the epidemic of emotional problems that are disabling America's privileged youth, thanks, in large part, to normalized, intrusive parenting that stunts the crucial development of the self. In recent years, numerous studies have shown that bright, charming, seemingly confident and socially skilled teenagers from affluent, loving families are experiencing epidemic rates of depression, substance abuse, and anxiety disorders—rates higher than in any other socioeconomic group of American adolescents. Materialism, pressure to achieve, perfectionism, and disconnection are combining to create a perfect storm that is devastating children of privilege and their parents alike. In this eye-opening, provocative, and essential book, clinical psychologist Madeline Levine explodes one child-rearing myth after another. With empathy and candor, she identifies toxic cultural influences and well-intentioned, but misguided, parenting practices that are detrimental to a child's healthy self-development. Her thoughtful, practical advice provides solutions that will enable parents to help their emotionally troubled "star" child cultivate an authentic sense of self.

Loose Leaf for Privilege, Power, and Difference with Connect Access Card - Allan Johnson 2015-03-16

This brief book is a groundbreaking tool for students and non-students alike to examine systems of privilege and difference in our society. Written in an accessible, conversational style, Johnson links theory with engaging examples in ways that enable readers to see the underlying nature and consequences of privilege and their connection to it. This extraordinarily successful book has been used across the country, both inside and outside the classroom, to shed light on issues of power and privilege. Privilege Power And Difference - Allan G. Johnson 2017

Constraint of Race - Linda Faye Williams 2010-11-01

Subversive Witness - Dominique DuBois Gilliard 2021-08-24

Learn to leverage privilege. Privilege is a social consequence of our unwillingness to reckon with and turn from sin. But properly stewarded, it can help us see and participate in God's inbreaking kingdom. Scripture repeatedly affirms that privilege is real and declares that, rather than exploiting it for selfish gain or feeling immobilized by it, Christians have a responsibility to leverage it. Subversive Witness asks us to grapple with privilege, indifference, and systemic sin in new ways by using biblical examples to reveal the complex nature of privilege and Christians' responsibility in stewarding it well. Dominique DuBois Gilliard highlights several people in the Bible who understood this kingdom call. Through their stories, you will discover how to leverage privilege to: Resist Sin Stand in Solidarity with the Oppressed Birth Liberation Create Systemic Change Proclaim the Good News Generate Social Transformation By embodying Scripture's subversive call to leverage--and at times forsake--privilege, readers will learn to love their neighbors sacrificially, enact systemic change, and grow more Christlike as citizens of God's kingdom.

Privilege Through the Looking-Glass - Patricia Leavy 2017-10-10

Privilege Through the Looking-Glass is a collection of original essays that explore privilege and status characteristics in daily life. This collection seeks to make visible that which is often invisible. It seeks to sensitize us to things we have been taught not to see. Privilege, power, oppression, and domination operate in complex and insidious ways, impacting groups and individuals. And yet, these forces that affect our lives so deeply seem to at once operate in plain sight and lurk in the shadows, making them difficult to discern. Like water to a fish, environments are nearly impossible to perceive when we are immersed in them. This book attempts to expose our environments. With engaging and powerful writing, the contributors share their personal stories as a means of connecting the personal and the public. This volume applies an intersectional perspective to explore how race, class, gender, sexuality, education, and ableness converge, creating the basis for privilege and oppression. Privilege Through the Looking-Glass encourages readers to engage in self and social reflection, and can be used in a range of courses in sociology, social work, communication, education, gender studies, and African American studies. Each chapter includes discussion questions and/or activities for further engagement. "Privilege Through the Looking-Glass offers a varied and profound examination of how privilege functions as the underside of power. This is a powerful and important book about inequality, identity, agency, and the challenge of addressing difference as part of a democratic ethos in a time of growing authoritarianism all over the world. Every educator should read this book." - Henry A. Giroux, Professor, McMaster University "A courageous volume that blends theory, personal experiences, and reflections on contemporary debates over identity. This is a book that is more about the politics of identity than identity politics. It is a powerful testament to the urgency of understanding privilege and deserves to be read widely." - Peter McLaren, Distinguished Professor, Chapman University "Privilege Through the Looking-Glass unmasks the casual 'isms' that suppress the best aspects of our humanity, by assembling a powerful and honest collection of parables. Poignant and unflinching, the contributors eschew to the cloak of objectivism to give the hard truth about privilege as a social ill, and the collective responsibility of the conscious community to confront all forms of oppression... this book has lessons for anyone with the spirit to explore better ways to be themselves and relate to others." - Ivory A. Toldson, Professor, Howard University, and Editor-in-Chief for The Journal of Negro Education Patricia Leavy, Ph.D., is an award-winning independent sociologist and best-selling author.

Seeing White - Jean Halley 2022-01-14

"An interdisciplinary, supplemental textbook for undergraduate students that challenges students to see race as everyone's issue"--

Privilege - Michael S. Kimmel 2013-07-30

Privilege is about more than being white, wealthy, and male—as Michael Kimmel, Abby Ferber, and a wide range of contributors make clear in this innovative and timely anthology. In an era when “diversity” is too often shorthand for “of color” and/or “female,” the personal and analytical essays in this collection explore the multifaceted nature of social location and consider how gender, class, race, sexual orientation, (dis)ability and religion interact to create nuanced layers of privilege and oppression. The individual essays are powerfully thought-provoking; taken together, they help guide students to a deep understanding of the dynamics of diversity and stratification, advantage and power. The third edition features ten new or newly-recast essays which will help students understand the intersectional nature of privilege and oppression. Enhanced pedagogy (including new discussion questions and “personal connections” activities at the conclusion of each section) encourages students to examine their own assumptions, beliefs, values, practices, and social locations—without becoming overwhelmed.

White Privilege - Paula S. Rothenberg 2004-06-25

Studies of racism often focus on its devastating effects on the victims of prejudice. But no discussion of race is complete without exploring the other side--the ways in which some people or groups actually benefit, deliberately or inadvertently, from racial bias. *White Privilege*, Second Edition, the revision to the groundbreaking anthology from Paula Rothenberg, continues her efforts from the first edition. Two new essays contribute to the discussion of the nature and history of white power. The concluding section again challenges readers to explore ideas for using the power and the concept of white privilege to help combat racism in their own lives. Brief, inexpensive, and easily integrated with other texts, this interdisciplinary collection of commonsense, non-rhetorical readings lets educators incorporate discussions of whiteness and white privilege into a variety of disciplines, including sociology, English composition, psychology, social work, women's studies, political science, and American studies.

Privilege, Power, and Difference - Allan G. Johnson 2001

Privilege and Punishment - Matthew Clair 2022-06-21

How the attorney-client relationship favors the privileged in criminal court—and denies justice to the poor and to working-class people of color The number of Americans arrested, brought to court, and incarcerated has skyrocketed in recent decades. Criminal defendants come from all races and economic walks of life, but they experience punishment in vastly different ways. *Privilege and Punishment* examines how racial and class inequalities are embedded in the attorney-client relationship, providing a devastating portrait of inequality and injustice within and beyond the criminal courts. Matthew Clair conducted

extensive fieldwork in the Boston court system, attending criminal hearings and interviewing defendants, lawyers, judges, police officers, and probation officers. In this eye-opening book, he uncovers how privilege and inequality play out in criminal court interactions. When disadvantaged defendants try to learn their legal rights and advocate for themselves, lawyers and judges often silence, coerce, and punish them. Privileged defendants, who are more likely to trust their defense attorneys, delegate authority to their lawyers, defer to judges, and are rewarded for their compliance. Clair shows how attempts to exercise legal rights often backfire on the poor and on working-class people of color, and how effective legal representation alone is no guarantee of justice. Superbly written and powerfully argued, *Privilege and Punishment* draws needed attention to the injustices that are perpetuated by the attorney-client relationship in today's criminal courts, and describes the reforms needed to correct them.

STUDYGUIDE FOR PRIVILEGE POWER - Cram101 Textbook Reviews 2016-11-18

Challenging Oppression and Confronting Privilege - Robert P. Mullaly 2010

First ed. published under title: *Challenging oppression*.

Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Who Really Matters - Art Kleiner 2003-10-14

In a breakthrough *Organization Man* for the twenty-first century, bestselling author Art Kleiner reveals that every organization is driven by a desire to satisfy a Core Group of influential individuals and explains why understanding this group's expectations is the key to success. When corporate leaders announce, with seeming sincerity, “We make our decisions on behalf of our shareholders,” their words are taken at face value. But as recent news stories prove, this imperative is routinely violated. In *Who Really Matters*, Art Kleiner argues that the dissonance between a declared mission and actual operation can be seen at organizations large and small. All organizations have one motive in common. Every decision—which projects to back, who to promote, or how to spend money—is affected by the perceived wants and needs of a core group of people “who really matter.” The composition of the group can differ from organization to organization. Often, the most senior people in the hierarchy are members—but not always. Sometimes,

the people who “matter” can extend far down the corporate ladder, or even reach outside the company to include key customers, labor union leaders, and stockholders. Kleiner gives readers clues about how to identify a core group’s real mission by observing its day-to-day actions, listening to the fundamental message it sends employees, examining its management of new members; understanding the ideas that shape its policies about management, money, and the way the world works; and avoiding the taboos governing the way it operates. Whether you’re a member of the Core Group—or want to be—this deft, engaging blend of argument and observation, anecdotes and advice, is the one guide you’ll need to achieve your career goals and aspirations by navigating the hidden pathways in any organization, large or small.

Loose Leaf for Privilege, Power, and Difference - Allan G. Johnson 2017-02-14

Privilege, Power, and Difference is a groundbreaking tool for students and non-students alike to examine systems of privilege and difference in our society. Written in an accessible, conversational style, the 3rd edition links theory with engaging examples in ways that enable readers to see the underlying nature and consequences of privilege and their connection to it. This program has been used across the country, both inside and outside the classroom, to shed light on issues of power and privilege. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor’s homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. The Epistemology of Resistance - José Medina 2013

This book explores the epistemic side of racial and sexual oppression. It elucidates how social insensitivities and imposed silences prevent members of different groups from listening to each other.

Making Sense of Race, Class, and Gender - Celine-Marie Pascale 2013-02-01

Using arresting case studies of how ordinary people understand the concepts of race, class, and gender, Celine-Marie Pascale shows that the peculiarity of commonsense is that it imposes obviousness—that which we cannot fail to recognize. As a result, how we negotiate the challenges of inequality in the twenty-first century may depend less on what people consciously think about “difference” and more on what we inadvertently assume. Through an analysis of commonsense knowledge, Pascale expertly provides new insights into familiar topics. In addition, by analyzing local practices in the context of established cultural discourses, Pascale

shows how the weight of history bears on the present moment, both enabling and constraining possibilities. Pascale tests the boundaries of sociological knowledge and offers new avenues for conceptualizing social change. In 2008, *Making Sense of Race, Class and Gender* was the recipient of the Distinguished Contribution to Scholarship Book Award, of the American Sociological Association Section on Race, Gender, and Class, for “distinguished and significant contribution to the development of the integrative field of race, gender, and class.”

Readings for Diversity and Social Justice - Maurianne Adams 2000

These essays include writings from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldua and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less-well known social aberrations.

Privilege - Michael S. Kimmel 2018-04-17

Privilege is about more than being white, wealthy, and male, as Michael Kimmel, Abby Ferber, and a range of contributors make clear in this timely anthology. In an era when ‘diversity’ is too often shorthand for ‘of color’ and/or ‘female’ the personal and analytical essays in this collection explore the multifaceted nature of social location and consider how gender, class, race, sexual orientation, (dis)ability, and religion interact to create nuanced layers of privilege and oppression. The individual essays (taken together) guide students to a deep understanding of the dynamics of diversity and stratification, advantage, and power. The fourth edition features thirteen new essays that help students understand the intersectional nature of privilege and oppression and has new introductory essays to contextualize the readings. These enhancements, plus the updated pedagogical features of discussion questions and activities at the end of each section, encourage students to examine their own beliefs, practices, and social location.

The Forest and the Trees - Allan G. Johnson 1997

If sociology could teach everyone just one thing, what would it be? What insight about the nature of social life could serve as a gateway to questions that point toward everything we want to know? What could we use as a starting point, a core view of reality on which sociological practice of all kinds is based, consciously or not? *The Forest and the Trees* is one sociologist's response to the hypothetical -- the core insight with the greatest potential to change how people see the world and themselves in it. It is about what that insight is and why it matters that we understand it, use it, and pass it on. It is about the future of a discipline whose influence and credibility will stand or fall on the ability to foster a clear and widespread understanding of what it means to think sociologically. *The Forest and the Trees* is an account of how sociological practice finds its way into almost every aspect of life, from headlines in the morning paper to the experiences of growing older to the ravages of social oppression. It is about things small and things large, things simple and things more complex than we can imagine. *The Forest and the Trees* flows from the tradition of Peter Berger's *Invitation to Sociology* and C. Wright Mills' *Sociological Imagination*. It will engage students and teachers alike with a rare and powerful combination of a scholar's feel for the discipline, and a gifted writer's voice that moves and inspires with the immediacy of lived experience, a clear and accessible articulation of the tools of the trade, and a passionate commitment to the promise of sociology to revolutionize how people think about social life and participate in it.
