Then the people, possessed by Yagen-Atep, set their own town ablaze in a riotous orgy of destruction that often comes without warning.

Whandall Placeholder has lived with the Burning all his life. Fighting his way to adulthood in the mean-but-magical streets of the city's most blighted neighborhoods, Whandall dreams of

Fallen Angels - Jerry Pournelle 2002-10-01

IT ALL HAPPENED SO FAST One minute the two space Hab astronauts were scoop-diving the atmosphere, the next they'd been shot down over the North Dakota Glacier and were the object of a massive manhunt by the United States government. That government, dedicated to saving the environment from the evils of technology, had been voted into power because everybody knew that the Green House Effect had to be controlled, whatever the cost. But who would have thought that the cost of ending pollution would include not only total government control of day-to-day life, but the onset of a new Ice Age Stranded in the anti-technological heartland of America, paralyzed by Earth's gravity, the "Angels" had no way back to the Space Habs, the last bastions of high technology

and intellectual freedom on or over the Earth. But help was on its way, help from the most unlikely sources Join # 1 national bestsellers Larry Niven and Jerry Pournelle and Michael Flynn in a world where civilization is on the ropes, and the environmentalists have created their own worst nightmare: A world of Fallen Angels At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Integral Trees - Larry Niven 1997-05-01

“Niven has come up with an idea about as far out as one can get. . . . This is certainly classic science fiction—the idea is truly the hero.”

—Asimov’s Science Fiction Magazine When

leaving Earth, the crew of the spaceship

Discipline was prepared for a routine assignment.

Dispatched by the all-powerful State on a mission

of interstellar exploration and colonization,

Discipline was aided (and secretly spied upon) by

Sharls Davis Kendy, an emotionless computer

intelligence programmed to monitor the loyalty

and obedience of the crew. But what they weren’t

prepared for was the smoke ring—an immense

gaseous envelope that had formed around a

neutron star directly in their path. The Smoke

Ring was home to a variety of plant and animal

life-forms evolved to thrive in conditions of

continual free-fall. When Discipline encountered it,

something went wrong. The crew abandoned ship

and fled to the unlikely space oasis. Five hundred

years later, the descendants of the Discipline

crew living on the Smoke Ring no longer

remember their origins. Earth is more myth than

memory, and no recollection of the State remains.

But Kendy remembers. And just outside the

Smoke Ring, Discipline waits patiently to make

contact with its wayward children.

Starborn and Godsons - Larry Niven 2020-04-07

THE LONG-AWAITED CONCLUSION OF THE HEOROT SERIES FROM GENRE LEGENDS LARRY NIVEN, JERRY POURNELLE, AND STEVEN BARNES Avalon was thriving. The cold sleep colonists from Earth had settled on a verdant, livable world. The fast and cunning predators humans named grendels were under control, and the mainland outposts well established. Avalon's new mainland hydroelectric power station was nearly complete, and when on-line would compensate for the nuclear power

systems lost in the Grendel Wars. Humans would have power, and with power came the ability to make all the necessities for life. They would survive. They would not survive as a spacefaring people. What they were losing faster than they knew was the ability to get to space. But unbeknownst to the planet-bound humans, something was moving out there in the stars, decelerating at a rate impossible for a natural object. And its destination was Avalon. The most probable origin was Earth's Solar System. This is a novel of first contact—between the human Starborn and the self-named Godsons who followed on, between the first generation of Avalon born humans and their descendants, and between humans and the almost ineffably alien species native to their new world At the publisher's request, this title is sold without DRM (Digital Rights Management). This time humanity's representatives to the Warrior Race are Donald Kingsbury, Greg Bear, and Steve Stirling.
