To Sail a Darkling Sea - John Ringo 2014-02-04
A World Cloaked in Darkness
With human civilization annihilated by a biological zombie plague, a rag_tag fleet of yachts and freighters known as Wolf Squadron scours the Atlantic, searching for survivors. Within every abandoned liner and carrier lurks a potential horde, safety can never be taken for granted, and death and turning into one of the enemy is only a moment away. The Candle Flickers Yet every ship and town holds the flickering hope of survivors. One and two from lifeboats, a dozen from a fishing village, a few hundred wrenched by fury and fire from a ship that once housed thousands... Light a Flame Now Wolf Squadron must take on another massive challenge: clear the assault carrier USS Iwo Jima of infected before the trapped Marines and sailors succumb to starvation. If Wolf Squadron can accomplish that task, an even tougher trial awaits: an apocalyptic battle to win a new dawn for humanity.

The war for civilization begins as the boats of the Wolf Squadron become a beacon of hope on a Darkling Sea. At the publisher's request, this title is sold without DRM (Digital Rights Management). Companion - George Beahm

The Stephen King Companion is an authoritative look at horror author King's personal life and professional career, from *Carrie* to *The Bazaar of Bad Dreams*. King expert George Beahm, who has published extensively about Maine's main author, is your seasoned guide to the imaginative world of Stephen King, covering his varied and prodigious output: juvenalia, short fiction, limited edition books, bestselling novels, and film adaptations. The book is also profusely illustrated with nearly 200 photos, color illustrations by celebrated "Dark Tower" artist Michael Whelan, and black-and-white drawings by Maine artist Glenn Chadbourne. Supplemented with interviews with friends, colleagues, and mentors who knew King well, this book looks at his formative years in Durham, when he began writing fiction as a young teen, his college years in the turbulent sixties, his struggles with early poverty, working full-time as an

The JFK Conspiracy - David Miller 2002-09

David Miller, in this, his most recent book *The JFK Conspiracy*, has not only amassed a wealth of facts in connection with the greatest conspiracy of our age, but he has also succeeded in connecting the dots, adding new ones in turn, unearthing

fact upon fact heretofore conveniently ignored or, what is more likely, intentionally buried, and not only by all the usual suspects.

Undrowned - Alexis Pauline Gumbs 2020-11-17

Undrowned is a book-length meditation for social movements and our whole species based on the subversive and transformative guidance of marine mammals. Our aquatic cousins are queer, fierce, protective of each other, complex, shaped by conflict, and struggling to survive the extractive and militarized conditions our species has imposed on the ocean. Gumbs employs a brilliant mix of poetic sensibility and naturalist observation to show what they might teach us, producing not a specific agenda but an unfolding space for wondering and questioning. From the relationship between the endangered North Atlantic Right Whale and Gumbs's Shinnecock and enslaved ancestors to the ways

echolocation changes our understandings of "vision" and visionary action, this is a masterful use of metaphor and natural models in the service of social justice.
