Censored 2020 - Andy Lee Roth 2019-10-08

In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of

the people," *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues

in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

Memories - Teffi 2016-05-03

WINNER OF THE 2018 READ RUSSIA PRIZE AND THE PUSHKIN HOUSE BEST BOOK IN TRANSLATION IN 2017 Considered Teffi's single greatest work, *Memories: From Moscow to the Black Sea* is a deeply personal account of the author's last months in Russia and Ukraine, suffused with her acute awareness of the political currents churning around her, many of which

have now resurfaced. In 1918, in the immediate aftermath of the Russian Revolution, Teffi, whose stories and journalism had made her a celebrity in Moscow, was invited to read from her work in Ukraine. She accepted the invitation eagerly, though she had every intention of returning home. As it happened, her trip ended four years later in Paris, where she would spend the rest of her life in exile. None of this was foreseeable when she arrived in German-occupied Kiev to discover a hotbed of artistic energy and experimentation. When Kiev fell several months later to Ukrainian nationalists, Teffi fled south to Odessa, then on to the port of Novorossiysk, from which she embarked at last for Constantinople. Danger and death threaten throughout *Memories*, even as the book displays the brilliant style, keen eye, comic gift, and deep feeling that have made Teffi one of the most beloved of twentieth-century Russian writers.

Genealogies of Art, Or the History of Art As Visual Art - Manuel Fontan del Junco 2020-01-21
How artists, historians and theorists have

diagrammed art's lineages, from the Middle Ages to Fluxus Genealogies of Art analyzes the visual representations of art history made by artists, critics, designers, theorists and poets alike, from the genealogical trees of the 12th through the 15th centuries and the Renaissance to more recent information graphics, including paintings, sketches, maps, plans, prints, drawings and diagrams. The conceptual core of the book is the famed chart that Alfred H. Barr, first director of the Museum of Modern Art, composed for the cover of his landmark exhibition Cubism and Abstract Art in 1936, which sought to trace the origins of abstract art from 1890 to 1936. Around this paradigmatic chart is gathered a tremendous pageant of works by great polymaths and thinkers, including Guy Debord's situationist maps; the Guerrilla Girls' "Guerrillas in the Midst of History"; Athanasius Kircher's baroque-era trees of knowledge; George Maciunas' Fluxus diagrams; André Malraux's Museum without Walls; Otto Neurath's charts and isotypes; Ad

Reinhardt's collaged histories of art; Ward Shelley's *Who Invented the Avant-Garde?*; Maurice Stein, Larry Miller and Marshall Henrichs' *Blueprint for Counter Education*; Aby Warburg's legendary *Mnemosyne Atlas*; and many others. Across 450 pages, *Genealogies of Art* reproduces more than 500 images. In addition to these, Astrit Schmidt-Burkhardt contributes an essay titled "The Diagrammatic Shift," following by Manuel Lima's "Trees of Knowledge: The

Diagrammatic Traditions of the Middle Ages and the Renaissance," both of which contextualize the relevance of this form throughout history. Uwe Fleckner explores the use of diagrammatic visualization in curatorial and collecting activities, as in the cases of Carl Einstein or Aby Warburg; and the Picasso specialist Eugenio Carmona looks at Alfred H. Barr's conception of Picasso's work, in his text "Barr, Cubism and Picasso: Paradigm and 'Anti-paradigm.'"
