Personal Religion and Spiritual Healing -

Alastair Lockhart
2019-02-01

A unique historical study of the personal nature of religion, spirituality, and healing in the twentieth

century based on the letters of ordinary people from around the world. The Panacea Society was a small religious community of women that was established in England in the early twentieth century. They followed the early nineteenth-century mystic Joanna Southcott, as well other emerging spiritual movements of the day, and developed a remarkable spiritual healing practice that spread around the world. Based on the thousands of letters held in the Society's healing archive, which were sent by ordinary people from around the world, Alastair Lockhart offers a detailed study of the religious ideas of religious seekers from the 1920s to the 1970s. Focusing on Great Britain, Finland, Jamaica, and the US, Lockhart provides unique

insight into the personal nature of spirituality in recent times and how ancient and modern spiritual strands were harnessed to the needs of late-modern spiritual seekers. This book addresses debates about the complexity and meaning of the rise or decline of religion in the twentieth century and the processes involved in the formation of popular nontraditional spiritualities. It informs our understanding of global and transnational religions and recent forms of spiritual healing. "This is a comprehensive history of the Society from its origins to World War II" and includes a chapter on the healing "and is foundational for work in this field." — Jane Shaw, author of *Octavia*,

Daughter of God: The Story of a Female Messiah and Her Followers

Struck - Douglas Segal
2018-09-28

One of life's biggest clichés becomes a horrific reality when Douglas Segal's wife and young daughter are hit head-on by a Los Angeles city bus. Miraculously, his daughter was unharmed, but his wife faced a series of life-threatening injuries, including the same one that famously left Christopher Reeve paralyzed. Following the accident, Segal began sending regular email updates to their circle of friends and family—a list that continued to grow as others heard of the event and were moved by the many emotional and spiritual issues it raised. Segal's compelling memoir is an intimate and honest chronicle built around

these email updates, and is a profound example of how people show up for one another in times of crisis. Alternatingly harrowing, humorous, heartbreaking, and hopeful, this is an uplifting tribute to love, determination, and how the compassion of community holds the power to heal, serving as an inspiring testament to the resilience of the human spirit when faced with pain and adversity.

Flourishing in Faith - Gillies Ambler
2017-07-07

Flourishing in Faith: Theology Encountering Positive Psychology explores the fascinating dialogue between two scholarly traditions concerned with personal wellbeing, Christian

theology and Positive Psychology, primarily from the perspective of theology. Although each works within different paradigms and brings different fundamental assumptions about the nature of the world, both are oriented toward that which leads to human flourishing and contentment. In such an encounter, can both disciplines learn from one another? Do they challenge each other? How can they enrich and or critique each other? With the widespread emergence of Positive Psychology in educational, church, and community settings across the world, many of which self-identify with the Christian tradition, many are wondering how this new branch of psychology integrates with traditional Christian belief and practice. This groundbreaking book

explores this question from a diversity of perspectives: theology, biblical studies, education, psychology, social work, disability studies, and chaplaincy, from scholars and practitioners working in Australia and the United States.

Aids and Religious Practice in Africa -

Felicitas Becker

2009-02-23

This volume explores, through anthropological and historical case studies from different parts of Africa, how AIDS is understood, confronted and lived with through religious ideas and practices, and how these, in turn, are reinterpreted and changed by the experience of AIDS.

Belief, Law and Politics

- Marie-Claire Foblets

2016-04-15

This edited collection gathers together the principal findings of

the three-year RELIGARE project, which dealt with the question of religious and philosophical diversity in European law. Specifically, it covers four spheres of public policy and legislation where the pressure to accommodate religious diversity has been most strongly felt in Europe: employment, family life, use of public space and state support mechanisms. Embracing a forward-looking approach, the final RELIGARE report provides recommendations to governance units at the local, national and European levels regarding issues of religious pluralism and secularism. This volume adds context and critique to those recommendations and more generally opens an intellectual discussion on the topic of religion in the European Union.

The book consists of two main parts: the first includes the principal findings of the RELIGARE research project, while the second is a compilation of 28 short contributions from influential scholars, legal practitioners, policy makers and activists who respond to the report and offer their views on the sensitive issue of religious diversity and the law in Europe. *Santería Healing* - Johan Wedel 2004 "Will be of interest not only to specialists in Afro-Cuban and African Diaspora religions, but also to medical anthropologists and students of anthropology, psychology, and religious studies. This work provides a particularly revealing entry way into the realities of contemporary Cuba."--

George Brandon, Sophie Davis School of Biomedical Education, City University of New York Johan Wedel offers a visit inside the world of Santería healing. Drawing upon extensive fieldwork in contemporary Cuba, including interviews with Santería devotees, firsthand observations of divination sessions, and interviews with healed patients supplemented by comments from Santería healers, Wedel demonstrates how Santería healing is carried out and experienced by the participants. Santería--with roots in Africa and the slave trade and rituals including divination, animal sacrifice, and possession trance--would seem an anachronism in the modern world. Still, Wedel argues, it offers treatment and ideas about illness that are

flourishing and even spreading in the face of Western medicine. He shows that Santería healing is best understood as a transformation of the self, allowing the patient to experience the world in a new way. He grounds his analysis of Santería in lively and sometimes frightening narratives in which people reveal in their own words the experience of illness, sorcery, and healing. Wedel's account will appeal to scholars and others interested in Santería, Cuba, and religious healing. He shows that Santería is not only a challenge to Western medical theory, but also an important contribution to our understanding of illness, suffering, and well-being. Johan Wedel is instructor in social anthropology at Göteborg University, Sweden.

God, Grades, and Graduation - Ilana M. Horwitz 2022
"It's widely acknowledged that American parents from different class backgrounds take different approaches to raising their children. Upper and middle-class parents invest considerable time facilitating their children's activities, while working class and poor families take a more hands-off approach. These different strategies influence how children approach school. But missing from the discussion is the fact that millions of parents on both sides of the class divide are raising their children to listen to God. What impact does a religious upbringing have on their academic trajectories? Drawing on 10 years of survey data with over 3,000 teenagers and over

200 interviews, *God, Grades, and Graduation* (GGG) offers a revealing and at times surprising account of how teenagers' religious upbringing influences their educational pathways from high school to college. GGG introduces readers to a childrearing logic that cuts across social class groups and accounts for Americans' deep relationship with God: religious restraint. This book takes us inside the lives of these teenagers to discover why they achieve higher grades than their peers, why they are more likely to graduate from college, and why boys from lower middle-class families particularly benefit from religious restraint. But readers also learn how for middle-upper class kids--and for girls especially--religious

restraint recalibrates their academic ambitions after graduation, leading them to question the value of attending a selective college despite their stellar grades in high school. By illuminating the far-reaching effects of the childrearing logic of religious restraint, GGG offers a compelling new narrative about the role of religion in academic outcomes and educational inequality"--

Trees For the Forest -

Paul Ownman 2022-11-28

When he's abruptly thrust into single parenthood of his two young children, Shane Murphy's life changes dramatically. As he ventures into a new career to better provide

for his children, Shane slowly changes his approach to life. Trees for the Forest is filled with numerous misadventures, humorous anecdotes, and some surprising insights as Shane navigates his way through life as a chauvinistic, single father and unconventional teacher. As he learns to become "Mr. Mom," Shane is faced with many lessons about the true value of motherhood, and parenthood. His experiences challenge his conception and understanding of women and includes the discoveries that many women don't like nicknames, nor do they appreciate his somewhat juvenile pranks—including goldfish in the water cooler. Is it possible to teach this old dog new tricks? Does Shane stay close to his

narrow-minded roots, or is his journey one of growth and self-discovery?

Removing Labels, Grades K-12 - Dominique Smith

2021-01-14

Disrupting the cycle starts with you. No matter how conscientious we are, we carry implicit bias... which quickly turns into assumptions and then labels. Labels define our interactions with and expectations of students. Labels contribute to student identity and agency. And labels can have a negative effect beyond the classroom. It's crucial, then, that teachers remove labels and focus on students' strengths—but this takes real work at an individual, classroom, and schoolwide scale. *Removing Labels* urges you to take an active approach toward disrupting the negative effects of labels and assumptions that interfere with student learning. This book offers: 40 practical, replicable teaching

techniques—all based in research and best practice—that focus on building relationships, restructuring classroom engagement and management, and understanding the power of social and emotional learning. Suggestions for actions on an individual, classroom, and schoolwide level. Ready-to-go tools and student-facing printables to use in planning and instruction. *Removing Labels* is more than a collection of teaching strategies—it's a commitment to providing truly responsive education that serves all children. When you and your colleagues take action to prevent negative labels from taking hold, the whole community benefits. *The Reception of James Joyce in Europe: Germany, Northern and East Central Europe* -

2004-01-01

James Joyce is now widely considered the most influential writer of the twentieth century. His name and his most important works appeared again and again in fin-de-millennium surveys. This is the case not only in the English-speaking world, but also in many European literatures. Joyce's influence is most pronounced in French, German and Italian literatures, where translations of most of his works appeared during his life-time and where he had a clear impact on his fellow-writers. In other countries and cultures, his influence took more time to register, sometimes after the war in the fifties and sixties, and sometimes only in the final decade of the century. This was the case in most of the

languages of Eastern Europe, where the translation of Joyce's work could only begin after the collapse of the Soviet Union in the 1990s. This book contains two volumes. Series Editor: Dr Elinor Shaffer FBA, Institute of Germanic & Romance Studies, School of Advanced Study, University of London

Journey into Self -

James Joseph Blaha III
2010-11-05

The author of this book chronicles his life dealing with many mental diagnoses. At the age of 22 he had a serious episode of depression. He went on to have 6 (total) episodes over the course of his life. These episodes were going on after being with Westinghouse for 25 years and continued after that in the merger acquisition banking business. Despite this he went to college, and eventually obtained an MBA/Management degree. His goal is to show that anyone with a mental diagnosis can be happy, healthy, wise and

responsibly wealthy. He teamed up with a friend who became a ghost writer and together they developed a working relationship to write this story. It took many phone calls, emails, hard work and early morning rewrites to complete the final manuscript.

Confessions of the Sullivan Sisters -

Natalie Standiford
2010-10-01

From the author of HOW TO SAY GOODBYE IN ROBOT, the story of a fractured family and three sisters' secrets The Sullivan sisters have a big problem. On Christmas Day their rich and imperious grandmother gathers the family and announces that she will soon die . . .and has cut the entire family out of her will. Since she is the source of almost all their income, this means they will soon be

penniless. Someone in the family has offended her deeply. If that person comes forward with a confession of her (or his) crime, submitted in writing to her lawyer by New Year's Day, she will reinstate the family in her will. Or at least consider it. And so the confessions begin....

San Francisco's St. Cecilia Parish - Frank Dunnigan 2016-11-07
Originally housed in a two-story home and then in an old converted schoolhouse along Taraval Street in 1917, San Francisco's St. Cecilia Church today stands as a cultural pillar and architectural gem of the Parkside District. The parish continually grew to meet the demands of its members, despite the hardships brought on by

events like the Great Depression and both world wars. Through years of expansions, new construction and additions, the parish remains an active gathering place for thousands of people. Local author Frank Dunnigan utilizes community remembrances and photos from dozens of different sources to tell the story of a vibrant parish that continues to live up to its motto: "The Finest, the Greatest and the Best."

Black God - Julian Baldick 1996-12-31
In his latest provocative book, Julian Baldick argues that just as there is a common Afroasiatic language family, so too there is a common Afroasiatic family of religions. There is an inner logic

to be found in myths, folk-tales, rituals, customs and beliefs as far apart as Yemen and Nigeria, which go back to an ancient past shared by the Bible and the pharaohs. Using the methods of comparative mythology, the author sifts through the work of an array of scholars - including anthropologists, religious historians, archaeologists and classical Greek writers and contemporary comments on them by professional Egyptologists - to build his picture of the Afroasiatic heritage, and how much of it is still with us in modern Western thought.

Why? When Both My Parents Took Their Lives
- Yin (SOS) 2016-07-26
When she was only seven, Yin's mother took her

own life. Forty years later her father jumped to his death. This is the story of how she survived her parents' suicides. "When someone dear to us dies through suicide, we are left with the agonising ordeal of having to survive the heart-rending loss. It traumatises us and leaves us with a profound struggle to make sense of the suicide and learn to live again. This first-hand narration promises not only to enlighten, but also serves as a balm for those working through their own loss and grief."— from the foreword by Anthony Yeo

**Freud, Religion, and the
Roaring Twenties** - Henry
Idema 1990

In this book, Henry
Idema has developed a
theory of religion and
culture indebted to the
psychological work of
Sigmund Freud and the
sociological work of
Weinstein and Platt, and
he has shown the
validity of his theory
through illustrations
from the life and times
and work of Sherwood
Anderson, Ernest
Hemingway, and F.Scott

Fitzgerald. Idema brings
a psychoanalytic
perspective to his
analysis of religion and
culture. He starts out
by developing a theory
of religion focusing on
early relationships with
the mother and father,
and then shows how
social forces such as
urbanization,
industrialization etc.
weakened religion in the
institutional church,
especially in its
function of helping men
and women to cope with
anxiety.
