Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every

leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book

provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. Black Thorn, White Rose - Ellen Datlow
2014-09-30

"Enchanting, witty" fairy tales for adults from Peter Straub, Daniel Quinn, Nancy Kress, Patricia C. Wrede, and other modern-day Grimms and Andersens (Publishers Weekly). World Fantasy Award-winning editors Ellen Datlow and Terri Windling return with another superb collection of wonders and terrors. In *Black Thorn, White Rose*, the magical tales we were told at bedtime have been upended, turned inside out, reshaped, and given a keen, distinctly adult edge by eighteen of the most acclaimed storytellers ever to reinvent a fairy tale. Our favorite characters, from Sleeping Beauty to Rumpelstiltskin to the Gingerbread Man, are here but in different guises, brought to new life by such masters as

Nancy Kress, Jane Yolen, Storm Constantine, and the late, great Roger Zelazny. These breathtaking tales of dark enchantments range from the tragic and poignant to the humorous to the horrifying to the simply astonishing. The story of an aging woodcutter persuaded to help a desperate prince make his way through the brambles to save a sleeping beauty twists ingeniously around like the thorny wall that impedes them. The fable of an all-controlling queen mother who faces her most fearsome adversary in a sensitive princess who appears mysteriously during a storm is a dark, disturbing masterpiece. And readers will long remember the exquisite tale of Death, his godson, football, and MTV. Anyone who has ever loved or even feared the old tales of witches and trolls and remarkable transformations will find much to admire in this extraordinary collection—happily ever after or not.

A Gentle Reminder - Bianca Sparacino 2020-11
A gentle reminder, for the days you feel light in

this world, and for the days in which the sun rises a little slower. A gentle reminder for when your heart is full of hope, and for when you are learning how to heal it. A gentle reminder for when you finally begin to trust in the goodness, and for when you need the kind of words that hug your broken pieces back together. A gentle reminder for when growth hangs heavy in the air, for when you need to tuck your strength into your bones just to make it to tomorrow. A gentle reminder for when you are balancing the messiness, and the beauty, of what it means to be human, when you are teaching yourself that it is okay to be both happy and sad, that you are real, not perfect. A gentle reminder for when you seek the words you needed when you were younger. A gentle reminder for when you need to hear that you deserve to be loved the way you love others. A gentle reminder for when you need to recognize that you are not your past, that you are not your faults. A gentle reminder for when you need to believe in staying soft, in continuing

to be the kind of person who cares. A gentle reminder for when you need to believe in loving deeply in a world that sometimes fails to do so. A gentle reminder to keep going. A gentle reminder to hope--

Remember - Lisa Genova 2021-03-23

NEW YORK TIMES BESTSELLER • A fascinating exploration of the intricacies of how we remember, why we forget, and what we can do to protect our memories, from the Harvard-trained neuroscientist and bestselling author of *Still Alice*. “Using her expertise as a neuroscientist and her gifts as a storyteller, Lisa Genova explains the nuances of human memory”—Steven Pinker, Johnstone Professor of Psychology, Harvard University, author of *How the Mind Works* Have you ever felt a crushing wave of panic when you can't for the life of you remember the name of that actor in the movie you saw last week, or you walk into a room only to forget why you went there in the first place? If you're over forty, you're probably not laughing.

You might even be worried that these lapses in memory could be an early sign of Alzheimer's or dementia. In reality, for the vast majority of us, these examples of forgetting are completely normal. Why? Because while memory is amazing, it is far from perfect. Our brains aren't designed to remember every name we hear, plan we make, or day we experience. Just because your memory sometimes fails doesn't mean it's broken or succumbing to disease. Forgetting is actually part of being human. In *Remember*, neuroscientist and acclaimed novelist Lisa Genova delves into how memories are made and how we retrieve them. You'll learn whether forgotten memories are temporarily inaccessible or erased forever and why some memories are built to exist for only a few seconds (like a passcode) while others can last a lifetime (your wedding day). You'll come to appreciate the clear distinction between normal forgetting (where you parked your car) and forgetting due to Alzheimer's (that you own a car). And you'll see

how memory is profoundly impacted by meaning, emotion, sleep, stress, and context. Once you understand the language of memory and how it functions, its incredible strengths and maddening weaknesses, its natural vulnerabilities and potential superpowers, you can both vastly improve your ability to remember and feel less rattled when you inevitably forget. You can set educated expectations for your memory, and in doing so, create a better relationship with it. You don't have to fear it anymore. And that can be life-changing.

Remember who You are - David Icke 2012

"David Icke...has exposed the global network of

families behind Big Banking, Big Biotech, Big Food, Big Government, Big Media and Big Pharma in book after book as his awareness has expanded -- and he takes this on to still new levels of exposure in Remember Who You are...the key is in the title. We are enslaved because we identify with our body and our name, when these are only vehicles and symbols for what we really are -- Infinite Awareness, Infinite Consciousness. We are imprisoned in the realms of the five senses and 'little me' when we are All That Is, All That Has Been and all That Can Ever Be. To breach the perceptual walls of the Saturn-Moon Matrix and bring an end to mass human enslavement, we need to awaken to our true identity." -- Publisher's description.
