Rapid Sensory Profiling Techniques - J
Delarue 2014-11-28

Sensory analysis is an important tool in new product development. There has recently been significant development in the methods used to capture sensory perception of a product. Rapid

Sensory Profiling Techniques provides a comprehensive review of rapid methods for sensory analysis that can be used as alternatives or complementary to conventional descriptive methods. Part one looks at the evolution of sensory perception capture methods. Part two focuses on rapid methods used to capture sensory perception, and part three covers their applications in new product development and consumer research. Finally, part four explores the applications of rapid methods in testing specific populations.

Uninhabited Air Vehicles - National Research Council 2000-06-28

U.S. Air Force (USAF) planners have envisioned that uninhabited air vehicles (UAVs), working in concert with inhabited vehicles, will become an integral part of the future force structure. Current plans are based on the premise that UAVs have the potential to augment, or even replace, inhabited aircraft in a variety of missions. However, UAV technologies must be better understood before they will be accepted as an

alternative to inhabited aircraft on the battlefield. The U.S. Air Force Office of Scientific Research (AFOSR) requested that the National Research Council, through the National Materials Advisory Board and the Aeronautics and Space Engineering Board, identify long-term research opportunities for supporting the development of technologies for UAVs. The objectives of the study were to identify technological developments that would improve the performance and reliability of "œgeneration-after-next" UAVs at lower cost and to recommend areas of fundamental research in materials, structures, and aeronautical technologies. The study focused on innovations in technology that would "œleapfrog" current technology development and would be ready for scaling-up in the post-2010 time frame (i.e., ready for use on aircraft by 2025).

Me: a Compendium - Wee Society 2016

Inventive, hilarious and joyously colorful, this fill-in journal was designed to help kids capture

nearly everything that's uniquely rad about them. With design-savvy, yet completely kid-friendly illustrations, they're asked to draw or write about a bunch of interesting things -- like what their hair looks like, what their band name would be, what they'd bring to outer space, and how they feel about lightning, lizards and pickles. There may or may not be a place for super-secret stuff inside the book jacket. Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids for hours on end

Multivariate Analysis of Data in Sensory Science - T. Naes 1996-02-01

The state-of-the-art of multivariate analysis in sensory science is described in this volume. Both methods for aggregated and individual sensory profiles are discussed. Processes and results are presented in such a way that they can be understood not only by statisticians but also by experienced sensory panel leaders and users of sensory analysis. The techniques presented are focused on examples and interpretation rather than on the technical aspects, with an emphasis on new and important methods which are possibly not so well known to scientists in the field. Important features of the book are

discussions on the relationship among the methods with a strong accent on the connection between problems and methods. All procedures presented are described in relation to sensory data and not as completely general statistical techniques. Sensory scientists, applied statisticians, chemometricians, those working in consumer science, food scientists and agronomers will find this book of value.

Calculus - Earl William Swokowski 1996-03-31
This is a simple, straightforward, direct calculus

text. Historical strengths rest in the broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises to reinforce conceptualization of the subject matter. The inclusion of two (new) co-authors should pique interest in a book that in its heyday was the #1 best-seller. With Olinick's handle on applications (he has written a successful modeling book) and Pence's keen sense of technology (he is a guru on the HP and TI graphing calculators), we feel we have put together an unparalleled team of experts.

Ah, Music! - Aliki 2003-04-01

What is Music? Music is rhythm. Music is melody.

Music is feeling... and oh, so much more. In this richly layered compendium, Aliko shares her keen insight about music and all its themes and variations. Ah, Music! is about composers and instruments. It's about artists and performers. It's about history -- from the earliest music through classical, modern, jazz, and popular times. It's about diversity and pleasure. If you have a love of music in your bones, or if you are just learning, or if you are about to play in your first recital, it's about you. Ah, music!

Twelve Years a Slave - Solomon Northup
2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Credit Analysis and Lending Management - Milind Sathye 2003-03-04

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy

formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features:

- * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.)
- * Problem loan management is discussed as a growing professional issue (see chapter 16).
- * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities.
- * 'Industry insight' boxes profile current professional issues and identify industry developments.
- * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.

Dionysius the Areopagite on the Divine Names and the Mystical Theology - Clarence E. Rolt 2007-10-01

First published in 1920, this book is a translation- the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of On the Divine Names and The Mystical Theology, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-

Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

Ciels de traîne - Françoise Lemaître 2021-07-23
Parfois, on regarde le ciel, et on se dit : drôle de temps, quand viennent des nuages au décours imprévu. On peut ainsi passer de l'éclaircie à l'averse brutale juste en un clin de vent. Parfois, on regarde la vie, et on se dit : drôle de vie, quand viennent des brisures aux angles acérés. On peut ainsi passer du rire aux larmes juste en un clin de temps. Ciels de traîne, vies chahutées, et soudain tout bascule et tout change. Alors comment deviner l'ombre ou trouver la lumière quand tout est incertain... l'embellie est fugace

et l'horizon fermé. Après la pluie, le beau temps.
Dit-on. Si seulement...

The Automobile Club of Egypt - Alaa Al

Aswany 2015-08-18

In British-occupied Egypt, on the eve of the 1952 revolution, respected landowner Abd el-Aziz Gaafar has fallen on hard times. Bankrupt, he moves his family to Cairo and takes a menial job

at the Automobile Club, a luxurious lodge for its European members, where Egyptians appear only as fearful servants. When Abd el-Aziz's pride gets the better of him and he stands up for himself, he is subjected to a corporal punishment that ultimately kills him—leaving two of his sons obliged to work in the Club. As the nation teeters on the brink of change, both servants and masters are subsumed by social upheaval, and the Egyptians of the Automobile Club face a choice: to live safely but without dignity as servants, or to risk everything and fight for their rights. Exuberant and powerfully moving, *The Automobile Club of Egypt* is an essential work of social criticism from one of the Arab world's greatest literary voices.
