**Leica Lens Compendium** - Erwin Puts  
2003-11-24

8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Some girls have all the luck. So far, Carrie Fitzgerald's sixteen years have been pretty sweet. Straight A's, an adorable boyfriend, a starting position on the varsity basketball team... But Carrie's luck is about to, well, change. Suddenly, her boyfriend dumps her (to "hang out with his friends!"), she and her best friend have a massive blowout, and she gets a D on a biology test. Carrie knows what's wrong -- her mom accidentally donated her lucky T-shirt to Help India. That one adorable, perfect T-shirt was the source of all her good fortune. So Carrie does what any girl would do: She's going to India. Cross your fingers and hope that Carrie finds adventure, love, and maybe just a little good luck along the way....

**Energy Technology Perspectives 2010** - International Energy Agency 2010  
This 2010 edition of Energy Technology Perspectives examines the

extent to which an energy technology revolution is taking place, the key technologies that are emerging, the costs and benefits of these technologies, and policies needed to foster their use. ETP 2010 presents updated scenarios from the present to 2050 that show which new technologies will be most important in key sectors and in different regions of the world. It highlights the importance of finance to achieve change, examines the implications of the scenarios for energy security and looks at how to accelerate the deployment of low-carbon technologies in major developing countries. It presents roadmaps and transition pathways for spurring deployment of the most important clean technologies and for overcoming existing barriers. With extensive data, projections and analysis, Energy Technology Perspectives 2010 provides decision makers with the detailed information and insights needed to accelerate the switch to a more secure, low-carbon energy future.

Fairies Afield - Mrs. Molesworth  
2022-09-15

"Fairies Afield" is a delightful children's book with kind and generous kids doing wonderfully lovely things, for which they receive magical prizes from fairies. It contains four charming stories. "Ask the Robin" deals with two orphaned sisters who need to survive on their own but may require help from fairies. "A Magic Table" is about three poor cousins who must earn the right to inherit their uncle's assets. "The Weather Maiden" revolves around a shy young girl having an awful time adapting to living with her aunt and uncle. "The Enchanted Trunks" deals with a girl who decides to travel with her cousin, but her main concern is being able to pack everything efficiently.

**Ben's Adventures** - 2019-08

Spacecraft Trajectory Optimization -  
Bruce A. Conway 2010-08-23

This is a long-overdue volume dedicated to space trajectory optimization. Interest in the subject has grown, as space missions of increasing levels of sophistication, complexity, and scientific return - hardly imaginable in the 1960s - have been designed and flown. Although the basic tools of optimization theory remain an accepted canon, there has been a revolution in the manner in which they are applied and in the development of numerical optimization. This volume purposely includes a variety of both analytical and numerical approaches to trajectory optimization. The choice of authors has been guided by the editor's intention to assemble the

most expert and active researchers in the various specialities presented. The authors were given considerable freedom to choose their subjects, and although this may yield a somewhat eclectic volume, it also yields chapters written with palpable enthusiasm and relevance to contemporary problems.

**My Word Book** - Ken Woodward 1968

**Hot Wired Style** - Jeffrey Veen 1997

The web has its own language, aesthetics, issues, and problems; yet the infrastructure and rules of web site design are still in their infancy. Here, the author discusses how Web designers should collaborate with editors and engineers, have an acute understanding of the concept of real-time, master hypertext, know their audience, be wary of multimedia, and create sites that emphasize simplicity and clarity and that users can move through quickly. Includes numerous color reproductions of web pages. Annotation copyrighted by Book News, Inc., Portland, OR

*Violence and Mental Health* - Jutta Lindert 2015-02-25

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international-and intranational-level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are

explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

**The Substance of Style** - Virginia

Postrel 2009-03-17

Whether it's sleek leather pants, a shiny new Apple computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.
