*The Visual Language of Comics* - Neil Cohn 2013-12-05

Drawings and sequential images are an integral part of human expression dating back at least as far as cave paintings, and in contemporary society appear most prominently in comics. Despite this fundamental part of human identity, little work has explored the comprehension and cognitive underpinnings of visual narratives-until now. This work presents a provocative theory: that drawings and sequential images are structured the same as language. Building on contemporary theories from linguistics and cognitive psychology, it argues that comics are written in a visual language of sequential images that combines with text. Like spoken and signed languages, visual narratives use a lexicon of systematic patterns stored in memory, strategies for combining these patterns into meaningful units, and a hierarchic grammar governing the combination of sequential images into coherent expressions. Filled with examples and illustrations, this book details each of these levels of structure, explains how cross-cultural differences arise in diverse visual languages of the world, and describes what the newest neuroscience research reveals about the brain's comprehension of visual

narratives. From this emerges the foundation for a new line of research within the linguistic and cognitive sciences, raising intriguing questions about the connections between language and the diversity of humans' expressive behaviours in the mind and brain.

An Outsider Among the Thespians - Michael T.G. Yepes 2014-08-05

"Outsider Amongst the Thespians" derived from two sources. First, my 25-year-long commuting career in Los Angeles provided me with approximately 5,000-6,000 hours of uninterrupted music listening. Second, my love for Haydn eventually pointed towards a book of some sort. The combination of these two impetus (?impeti) resulted in the present novel. Since this is a work of fiction, I took liberties with some dates, such as the original performances of Mozart's three great Italian operas, as well as with a few details in Luigia Polzelli's adventurous life. For the purposes of the story, I'd also simplified the complexities of the then existing London theater companies. (Anyone interested in all the arcane details is hereby referred to the Theatre Museum and Library in Covent Garden!) I've also conjured up Lorenzo da Ponte for a brief, cameo appearance. And, "Wien, Wien nur Du allein" was written about 100+ years after these events. Otherwise, I tried to be as accurate as I knew how. Le Matin, Le Midi and Le Soir refer, of course, to three early Haydn symphonies by those names. The three books which helped me most were: 1) Karl Geiringer: Haydn, A Creative Life in Music, U. of California Press, Revised 1982 (Originally published in English in 1946). 2) H.C.C. Taylor: Goldoni: A Biography, (London, 1914). 3) M. Dorothy George: London Life in the Eighteenth Century, Academy Chicago Publishers, 1984. (First published in London in 1925) Visits to Drottningholm, Eisenstadt and

Eszterhaza were of paramount importance; my last theatrical journey to London cemented in earlier impressions. The two final Haydn operas were revelations, in spite of their poor librettos. Regardless of the circumstances, Haydn, a consummate professional, always did his best. \* I would like to express my deepest thanks to my sister, Mrs. Sioretine Gyepes Judit for her detailed editorial comments, and to Dr. Linda Schubert for her advice on the musical aspects of this book.

Teaching Literature and Language  
Through Multimodal Texts - Domínguez  
Romero, Elena 2018-08-17

In the past few decades, there has  
been a growing interest in the  
benefits of linking the learning of a  
foreign language to the study of its  
literature. However, the

incorporation of literary texts into  
language curriculum is not easy to  
tackle. As a result, it is vital to  
explore the latest developments in  
text-based teaching in which  
language, culture, and literature are  
taught as a continuum. Teaching  
Literature and Language Through  
Multimodal Texts provides innovative  
insights into multiple language  
teaching modalities for the teaching  
of language through literature in the  
context of primary, secondary, and  
higher education. It covers a wide  
range of good practice and innovative  
ideas and offers insights on the  
impact of such practice on learners,  
with the intention to inspire other  
teachers to reconsider their own  
teaching practices. It is a vital  
reference source for educators,  
professionals, school administrators,  
researchers, and practitioners  
interested in teaching literature and  
language through multimodal texts.
