The Salt Road - Jane Johnson 2011-11-01

From the author of *The Tenth Gift* comes another story of exotic, foreign lands, entwining storylines spanning generations, and the quests to overcome love lost. The desert lay before them, and the secrets of the amulet . . . From Taфраout's magnificent mountainside, Isobel absorbs the heat and romance of the Moroccan vista before her, with mosque and homes scattered far below. But a mere slip sees her tumbling uncontrollably into the arms of handsome rescuer Ta ib, who notices her unusual silver amulet, and that her fall has revealed a tiny scroll hidden within. Entranced by the possibilities of its intricate and illegible script, they set out for the Sahara in search of a Tuareg elder to unlock the riddles of its past. Little does Izzy realize that the desert holds the key to more mysteries than the amulet's. From beneath the beating sun emerges nomadic Princess Mariata, whose stories of tortured love bind her to the precious talisman in Izzy's hands. She's battled the sands; she's found and lost love among its dunes. And where the amulet crosses both their paths, answers to the deepest secrets lie.

Why the Garden Club Couldn't Save Youngstown - Sean Safford 2009-01-31

In this book, Sean Safford compares the recent history of Allentown, Pennsylvania, with that of Youngstown, Ohio. Allentown has seen a noticeable rebound over the course of the past twenty years. Facing a collapse of its steel-making firms, its economy has reinvented itself by transforming existing companies, building an entrepreneurial sector, and attracting inward investment. Youngstown was similar to Allentown in its industrial history, the composition of its labor force, and other important variables, and yet instead of adapting in the face of acute economic crisis, it fell into a mean race to the bottom. Challenging various theoretical perspectives on regional socioeconomic change, *Why the*

Garden Club Couldn't Save Youngstown argues that the structure of social networks among the cities' economic, political, and civic leaders account for the divergent trajectories of post-industrial regions. It offers a probing historical explanation for the decline, fall, and unlikely rejuvenation of the Rust Belt. Emphasizing the power of social networks to shape action, determine access to and control over information and resources, define the contexts in which problems are viewed, and enable collective action in the face of externally generated crises, this book points toward present-day policy prescriptions for the ongoing plight of mature industrial regions in the U.S. and abroad.

Tristano - Nanni Balestrini 2014-02-11

This book is unique as no other novel can claim to be: one of 109,027,350,432,000 possible variations of the same work of fiction. Inspired by the legend of Tristan and Isolde, *Tristano* was first published in 1966 in Italian. But only recently has digital technology made it possible to realise the author's original vision. The novel comprises ten chapters, and the fifteen pairs of paragraphs in each of these are shuffled anew for each published copy. No two versions are the same. The random variations between copies enact the variegations of the human heart, as exemplified by the lovers at the centre of the story. The copies of the English translation of *Tristano* are individually numbered, starting from 10,000 (running sequentially from the Italian and German editions). Included is a foreword by Umberto Eco explaining how Balestrini's experiment with the physical medium of the novel demonstrates 'that originality and creativity are nothing more than the chance handling of a combination'.

The Cloven Viscount - Italo Calvino 2012-10-26

When a nobleman is split in two, his separate halves pursue different adventures in a fantastically macabre tale by the author of *Invisible Cities*. It is the seventeenth century, and the Viscount Medardo of

Terralba must go into battle against the Turks. But the inexperienced warrior is soon bisected lengthwise by a cannonball. Through a miracle of stitching, one half of him survives, returning to his feudal estate to lead a lavishly evil life. But soon his other, virtuous half appears—also very much alive. When the two halves become rivals for the love of the same woman, there's no telling the lengths each will go to in order to win. Now available in an independent volume for the first time, this deliciously bizarre novella of is Calvino at his most devious and winning.

Pilgrims and Pilgrimage in Ancient Greece - Matthew Dillon 2013-04-15

This volume explores the religious motivations for pilgrimage and reveals the main preoccupations of worshippers in Ancient Greece. Dillon examines the main sanctuaries of Delphi, Epidauros and Olympia, as well as the less well-known oracle of Didyma in Asia Minor and the festivals at the Isthmus of Corinth. He discusses the modes of travel to the sites, means of communication between pilgrims and the religious and ritual

practices at the sanctuaries themselves. A unique insight into pilgrimage in Ancient Greece is presented, focusing on the diverse aspects of pilgrimage; the role of women and children, the religious festivals of particular ethnic groups and the colourful celebrations involving music, athletics and equestrian events. Pilgrims and Pilgrimage in Ancient Greece is an accessible and fascinating volume, which reveals how the concept of pilgrimage contributes to Greek religion as a whole.

Loser - Jerry Spinelli 2009-10-13

From renowned Newbery-winning author Jerry Spinelli comes a powerful story about how not fitting in just might lead to an incredible life. This classic book is perfect for fans of Gordon Korman and Carl Hiaasen. Just like other kids, Zinkoff rides his bike, hopes for snow days, and wants to be like his dad when he grows up. But Zinkoff also raises his hand with all the wrong answers, trips over his own feet, and falls down with laughter over a word like "Jabip." Other kids have their own word to describe him, but Zinkoff is too busy to hear it. He doesn't know he's not like everyone else. And one winter night, Zinkoff's differences show that any name can someday become "hero." With some of his finest writing to date and great wit and humor, Jerry Spinelli creates a story about a boy's individuality surpassing the need to fit in and the genuine importance of failure. As readers follow Zinkoff from first through sixth grade, it becomes impossible not to identify with and root for him through failures and triumphs. The perfect classroom read.

The Grammar of Fantasy - Gianni Rodari 2021-09-21

A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful

for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

Men and Bears - AA.VV. 2020-01-23

The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital

force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

The Memory of Evil - Roberto Costantini 2015-09-03

Everything started from that day. The memory of 31 August 1969 has been at the back of Commissario Michele Balistreri's mind for over four decades. It was not only the day that preceded Colonel Muammar Gaddafi's seizure of power in Balistreri's birthplace of Libya, drastically altering his and his country's destiny, but that on which his beloved mother Natalia fell to her death, and the resulting suicide verdict that Balistreri - now Head of Homicide in Rome - has always suspected to be a flagrant cover-up for her murder. The memory of 23 July 2006 has been at the front of investigative journalist Linda Nardi's mind for the past five years. Ever since her and Balistreri together thwarted a phantom-like killer stalking Rome, Nardi has been intent on shedding further light on

the Vatican Bank's shadowy involvement in the abominations uncovered that summer. But now Linda will find her attention diverted to an equally irresistible assignment: the collapse of Colonel Gaddafi's forty-two year dictatorship. The Memory of Evil is the earth-shattering finale to Roberto Costantini's internationally bestselling trilogy, in which one woman will encounter a long-entombed truth in the rubble of Gaddafi's Tripoli: unearthing a conspiracy neither she, nor the man it was designed to protect, will ever be able to erase from their minds.

Healthcare Architecture in an Era of Radical Transformation - Stephen Verderber 2000

In the 1960s and 1970s large, high-technology, inpatient oriented hospitals reflected the central role of such facilities in an expanding healthcare system. But hospital architecture and the healthcare system have vastly changed since then, in profound and unpredicted ways. This book explores for the first time how and why acute care hospitals and the often related psychiatric facilities, retirement communities, and community clinics have been transformed during the final decades of the twentieth century. The authors also consider utopian visions of unbuilt work and look ahead to the possible healthcare landscape of the future: "health villages," home-based care for the aging and aged population, and cyberclinics and virtual hospitals.

Strade d'Oltrepò - Mino Milani 1998

La Locandiera - Carlo Goldoni 1907

Voicing the Word - Marina Spunta 2004

Drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary Italian fiction, providing a

fresh perspective on this rich and fast-developing debate and on the study of the Italian literary language. The book brings together a number of complementary approaches to orality from the fields of linguistics, literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades - ranging from internationally acclaimed writers such as Celati, Duranti and Tabucchi, through De Luca and Baricco, to the latest generation of writers, such as Campo, Ballestra and Nove. By exploring the complementary facets of Italian orality, and its diachronical developments since the seventies, this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible, cross-modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations.

Summits and Secrets - Kurt Diemberger 2019-03-08

'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster - an account described in harrowing detail in his award-winning book *The Endless Knot* - Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences

with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill ... the unique inexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares - the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ... ' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

The Uncontrollability of the World - Hartmut Rosa 2020-10-06

The driving cultural force of that form of life we call 'modern' is the desire to make the world controllable. Yet it is only in encountering the uncontrollable that we really experience the world - only then do we feel touched, moved and alive. A world that is fully known, in which everything has been planned and mastered, would be a dead world. Our lives are played out on the border between what we can control and that which lies outside our control. But because we late-modern human beings seek to make the world controllable, we tend to encounter the world as a series of objects that we have to conquer, master or exploit. And precisely because of this, 'life,' the experience of feeling alive and truly encountering the world, always seems to elude us. This in turn leads to frustration, anger and even despair, which then manifest themselves in, among other things, acts of impotent political aggression. For Rosa, to encounter the world and achieve resonance with it requires us to be open to that which extends beyond our control. The outcome of this process cannot be predicted, and this is why moments of resonance are always concomitant with moments of uncontrollability. This short book - the sequel to Rosa's path-breaking work on social acceleration and resonance - will be of great interest students and scholars in sociology and the social sciences and to anyone concerned with the nature of modern social life.
