Shoemaker - Joe Foster  
2020-10-01

The remarkable story of how Joe Foster developed Reebok into one of the world's most famous sports brands, having started from a small factory in Bolton. Since the late 19th century, the Foster family had been hand-making running shoes, supplying the likes of Eric Liddell and Harold Abrahams - later immortalised in the film Chariots of Fire - as

well as providing boots to most Football League clubs. But a family feud between Foster's father and uncle about the direction of their business led to Joe and his brother Jeff setting up a new company, inspired by the success of Adidas and Puma, and so Reebok was born. At first, money was so short that Joe and his wife had to live in their rundown factory, while the machinery that made the shoes was placed around the edge of the floor, because it was so weak it could have collapsed if

they'd been positioned in the middle. But, from this inauspicious start, a major new player in the sports equipment field began to emerge, inspired by Joe's marketing vision. By the 1980s, Reebok had become a global phenomenon, when they were the first to latch onto the potential of the aerobics craze inspired by Jane Fonda. Soon, Reeboks were being seen on Hollywood red carpets and even in the film *Aliens*, where Sigourney Weaver wore a pair of Reebok Alien Stompers. Like the international bestseller *Shoe Dog*, by Nike's Phil Knight, *Shoemaker* is a powerful tale of triumph against all the odds, revealing the challenges and sacrifices that go into creating a world-beating brand; it is also the story of how a small local business can transform itself, with the right products and the right vision, into something much, much bigger.

**AlUla** - Institut du monde arabe 2019

La 4e de couv. indique :  
"Located in north-western Saudi Arabia, AlUla is a

spectacular natural and archaeological region. This book traces its age-old history, from the earliest human occupation seven thousand years ago to the present day. It also examines the extensive archaeological research that has been conducted for nearly thirty years, notably by Franco-Saudi teams. The geological formation of the valley and its oases, the cult practices of the ancient pre-Islamic kingdoms, the majesty of the Nabatean rock-cut tombs, the birth of the Arabic script, the life of pilgrims who stopped in AlUla on their way from Damascus to Medina and the construction of the Hijaz railway all prove the importance of this long-overlooked site, at the crossroads of civilisations. AlUla - known as Hegra to the Nabateans and Romans, and the first Saudi archaeological site to be added to the UNESCO World Heritage List, in 2008 - is opening up to the world. Comparable in scale and importance to Petra in Jordan, Hegra is revealing its treasures for the duration of an

exhibition."

Claire Hitchins Chik

2021-09-30

Home to immigrants from more than 140 countries speaking over 180 languages, Los Angeles is a microcosm of the world. While Los Angeles' ethnic enclaves have been the subject of study by researchers from a wide range of fields, these enclaves remain under-researched from a linguistic standpoint. *Multilingual La La Land* addresses the sociolinguistic landscape of the Greater Los Angeles (GLA) area, providing in-depth accounts of the sixteen most spoken languages other than English in the region. Each chapter introduces the history of the language in the L.A. region, uses census figures and residential densities to examine

location-based and network-based speech communities, and discusses the patterns of usage that characterize the language, including motivations to maintain the language. How these patterns and trends bear on the vitality of each language is a central consideration of this book.

[Dopamine Nation](#) - Dr. Anna Lembke  
2021-08-24

INSTANT NEW YORK TIMES

and LOS ANGELES TIMES BESTSELLER "Brilliant . . . riveting, scary, cogent, and cleverly argued."—Beth Macy, author of *Dopesick*, as heard on *Fresh Air* This book is about pleasure. It's also about pain. Most important, it's about how to find the delicate balance between the two, and why now more than ever finding balance is essential. We're living in a time of unprecedented access to high-reward, high-dopamine stimuli: drugs, food, news, gambling, shopping, gaming, texting, sexting, Facebooking, Instagramming, YouTubeing, tweeting . . . The increased numbers, variety, and potency is staggering. The smartphone is the modern-day hypodermic needle, delivering digital dopamine 24/7 for a wired generation. As such we've all become vulnerable to compulsive overconsumption. In *Dopamine Nation*, Dr. Anna Lembke, psychiatrist and author, explores the exciting new scientific discoveries that explain why the relentless pursuit of pleasure leads to pain . . . and what to do about

it. Condensing complex neuroscience into easy-to-understand metaphors, Lembke illustrates how finding contentment and connectedness means keeping dopamine in check. The lived experiences of her patients are the gripping fabric of her narrative. Their riveting stories of suffering and redemption give us all hope for managing our consumption and transforming our lives. In essence, Dopamine Nation shows that the secret to finding balance is combining the science of desire with the wisdom of recovery.

*Force and Fanaticism* - Simon Ross Valentine 2015-01-09

Wahhabism is an Islamic reform movement found mainly in Saudi Arabia. Closely linked to the Saudi monarchy, it enforces a strict code of morality and conduct monitored by mutawa (religious police), and governs every facet of Saudi life according to its own strict interpretation of Shariah, including gender segregation. Wahhabism also prohibits the practice of any other faith (even other forms of Islam) in Saudi Arabia, which is also the only country that forbids women from driving. But what exactly is Wahhabism? This question had long occupied

Valentine, so he lived in the Kingdom for three years, familiarizing himself with its distinct interpretation of Islam. His book defines Wahhabism and Wahhabi beliefs and considers the life and teaching of Muham-mad ibn Abd'al Wahhab and the later expansion of his sect. Also discussed are the rejection of later developments in Islam such as bid'ah; harmful innovations, among them celebrating the prophet's birthday and visiting the tombs of saints; the destruction of holy sites due to the fear of idolatry; Wahhabi law, which imposes the death sentence for crimes as archaic as witchcraft and sorcery, and the connection of Wahhabism with militant Islam globally.

Drawing on interviews with Saudis from all walks of life, including members of the feared mutawa, this book appraises of one of the most significant movements in contemporary Islam.

**Parenting From the Inside Out** - Daniel J. Siegel MD

2003-03-31

How many parents have found themselves thinking: I can't believe I just said to my child

the very thing my parents used to say to me! Am I just destined to repeat the mistakes of my parents? In *Parenting from the Inside Out*, child psychiatrist Daniel J. Siegel, M.D., and early childhood expert Mary Hartzell, M.Ed., explore the extent to which our childhood experiences actually do shape the way we parent. Drawing upon stunning new findings in neurobiology and attachment research, they explain how interpersonal relationships directly impact the development of the brain, and offer parents a step-by-step approach to forming a deeper understanding of their own life stories, which will help them raise compassionate and resilient children. Born out of a series of parents' workshops that combined Siegel's cutting-edge research on how communication impacts brain development with Hartzell's thirty years of experience as a child-development specialist and parent educator, *Parenting from the Inside Out* guides parents through creating the necessary foundations for

loving and secure relationships with their children.

**Not Just a Soccer Game** -  
Magid Shihade 2011-05-05

On April 11, 1981, two neighboring Palestinian Arab towns competed in a soccer match. Kafr Yassif had a predominantly Christian population, and Julis was a predominantly Druze town. When a fight broke out between fans, the violence quickly escalated, leaving a teenager from each town dead. In the days that followed the game, a group from Julis retaliated with attacks on the residents of Kafr Yassif. Shihade experienced that soccer match and the ensuing violence firsthand, leaving him plagued by questions about why the Israeli authorities did not do more to stop the violence and what led to the conflict between these two neighboring Arab towns. Drawing on interviews, council archives, and media reports, Shihade explores the incident and subsequent attack on Kafr Yassif in the context of prevailing theories of ethnic

and communal conflict. He also discusses the policies of the Israeli state toward its Arab citizens. Countering Orientalist emphases on Arab and Islamic cultures as inherently unruly and sectarian, Shihade challenges existing theories of communal violence, highlighting the significance of colonialism's legacy, modernity, and state structures. In addition, he breaks new ground by documenting and analyzing the use of a traditional Arab conflict resolution method, *sulha*, which has received little sustained attention from scholars in the West. Shihade opens the toolkits of anthropology, history, political science, and studies of ethnic and communal conflict with the goals of exposing the impact of state policies on minority groups and encouraging humane remedial principles regarding states and society.

BESTSELLER A heartbreaking

and hilarious memoir by iCarly

and Sam & Cat star Jennette

McCurdy about her struggles

as a former child

actor—including eating

disorders, addiction, and a

complicated relationship with

her overbearing mother—and

how she retook control of her

life. Jennette McCurdy was six

years old when she had her

first acting audition. Her

mother's dream was for her

only daughter to become a

star, and Jennette would do

anything to make her mother

happy. So she went along with

what Mom called "calorie

restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom

chided, "Your eyelashes are

invisible, okay? You think

Dakota Fanning doesn't tint

hers?" She was even showered

by Mom until age sixteen while

sharing her diaries, email, and

all her income. In I'm Glad My

Mom Died, Jennette recounts

all this in unflinching

detail—just as she chronicles

what happens when the dream

finally comes true. Cast in a

new Nickelodeon series called

iCarly, she is thrust into fame.

Though Mom is ecstatic,

emailing fan club moderators

and getting on a first-name

basis with the paparazzi ("Hi

Gale!"), Jennette is riddled with

anxiety, shame, and self-

loathing, which manifest into

eating disorders, addiction, and

a series of unhealthy

relationships. These issues only

get worse when, soon after

taking the lead in the iCarly

spinoff Sam & Cat alongside

Ariana Grande, her mother dies

of cancer. Finally, after

discovering therapy and

quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

*Soul Stories* - Gary Zukav  
2012-12-11

In his bestselling book, *THE SEAT OF THE SOUL*, Gary Zukav's driving concept was 'multi-sensory perception', an innate sense that allows people to experience the world beyond the five senses, to listen harder to who they are and ultimately to save one's life. Now in *SOUL STORIES*, Gary Zukav brings

this concept and many others vividly alive, with marvellous true stories of how they manifest themselves in individual lives. This book is enormously practical in the way the author builds on each specific story to a discussion of its application to the reader's needs, leading to a deeper understanding of authentic power and inner peace. And best of all, it is wonderfully readable and even more accessible than *THE SEAT OF THE SOUL*.

Diary of an Oxygen Thief -

Anonymous 2016-05-23

Hurt people hurt people. Say there was a novel in which Holden Caulfield was an alcoholic and Lolita was a photographer's assistant and, somehow, they met in Bright Lights, Big City. He's blinded by love. She by ambition. *Diary of an Oxygen Thief* is an honest, hilarious, and heartrending novel, but above all, a very realistic account of what we do to each other and what we allow to have done to us.

Abu Ja'far Muhammad ibn

Jareer al-Tabari was a

prominent and influential

Persian scholar, historian and

exegete of the Qur'an who

composed all his works in

Arabic. Today, he is best known

for his expertise in Tafsir, Fiqh,

and History, but he has been

described as an impressively

prolific polymath. He wrote on

such subjects as poetry,

lexicography, grammar, ethics,

mathematics, and medicine.

His most influential and best

known works are his Qur'anic

commentary known as "Tafsir

al-Tabari" and his historical

chronicle "Tarikh al-Rusul wa

al-Muluk" (History of the

Prophets and Kings), often

referred to "Tarikh al-Tabari". He was also known to be a Faqih (Jurist) like the four Illustrious Imams (Abu Hanifah, Anas b. Maalik, Idris Shaafi'i and Ahmad b. Hanbal). Although it eventually became extinct, al-Tabari's madhhab flourished among Sunni ulama' for two centuries after his death. It was usually designated by the name Jariri. It is merely a matter of interest for those to want to read and learn more about this great scholar of Islam who is hardly known to many Muslims in this day and age.
