Memorial Tributes - National Academy of Engineering 2007-06-24

This is the 11th Volume in the series Memorial Tributes compiled by the National Academy of Engineering as a personal remembrance of the lives and outstanding achievements of its members and foreign associates. These volumes are intended to stand as an enduring record of the many contributions of engineers and engineering to the benefit of humankind. In most cases, the authors of the tributes are contemporaries or colleagues who had personal knowledge of the interests and the engineering accomplishments of the deceased. Through its members and foreign associates, the Academy carries out the responsibilities for which it was

established in 1964. Under the charter of the National Academy of Sciences, the National Academy of Engineering was formed as a parallel organization of outstanding engineers. Members are elected on the basis of significant contributions to engineering theory and practice and to the literature of engineering or on the basis of demonstrated unusual accomplishments in the pioneering of new and developing fields of technology. The National Academies share a responsibility to advise the federal government on matters of science and technology. The expertise and credibility that the National Academy of Engineering brings to that task stem directly from the abilities, interests, and achievements of our members and foreign associates, our colleagues and friends, whose special gifts we remember in this book.

**Olive Kitteridge** - Elizabeth Strout 2008-03-25  
WINNER OF THE PULITZER PRIZE • THE EMMY AWARD-WINNING HBO MINISERIES STARRING FRANCES MCDORMAND, RICHARD JENKINS, AND BILL MURRAY In a voice more powerful and compassionate than ever before, New York Times bestselling author Elizabeth Strout binds together thirteen rich, luminous narratives into a book with the heft of a novel, through the presence of one larger-than-life, unforgettable character: Olive Kitteridge. At the edge of the continent, Crosby, Maine, may seem like nowhere, but seen through this brilliant writer's eyes, it's in essence the whole world, and the lives that are lived there are filled with all of the grand human drama—desire, despair, jealousy, hope, and love. At times stern, at other times patient, at times perceptive, at other times in sad denial, Olive

Kitteridge, a retired schoolteacher, deplores the changes in her little town and in the world at large, but she doesn't always recognize the changes in those around her: a lounge musician haunted by a past romance: a former student who has lost the will to live: Olive's own adult child, who feels tyrannized by her irrational sensitivities; and Henry, who finds his loyalty to his marriage both a blessing and a curse. As the townspeople grapple with their problems, mild and dire, Olive is brought to a deeper understanding of herself and her life—sometimes painfully, but always with ruthless honesty. Olive Kitteridge offers profound insights into the human condition—its conflicts, its tragedies and joys, and the endurance it requires. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • USA Today • The Atlantic • The Washington Post Book World • Seattle Post-Intelligencer • Entertainment Weekly • The Christian Science Monitor • San Francisco Chronicle • Salon • San Antonio Express-News • Chicago Tribune • The Wall Street Journal “Perceptive, deeply empathetic . . . Olive is the axis around which these thirteen complex, relentlessly human narratives spin themselves into Elizabeth Strout’s unforgettable novel in stories.”—O: The Oprah Magazine “Fiction lovers, remember this name: Olive Kitteridge. . . . You’ll never forget her. . . . [Elizabeth Strout] constructs her stories with rich irony and moments of genuine surprise and intense emotion. . . . Glorious, powerful stuff.”—USA Today BONUS: This edition includes an excerpt from Elizabeth Strout’s *The Burgess Boys*.

*Governing Greater Boston* - Charles C. Euchner 2002

*Amy & Isabelle* - Elizabeth Strout 2013-04-12  
From the Man Booker Prize longlisted author of *My Name is Lucy Barton* ? Isabelle Goodrow has been living in self-imposed exile with her daughter Amy for fifteen years. Shamed by her past and her affair with Amy's father, she has submerged herself in the routine of her dead-end job and her unrequited love for her boss. But when Amy, frustrated by her quiet and unemotional mother, embarks on an illicit affair with her maths teacher, the disgrace intensifies the shame Isabelle feels about her own past. Throughout one long, sweltering summer, as the

events of the small town ebb and flow around them, Amy and Isabelle exist in silent conflict until a final act leads ultimately to the understanding they both crave.

**Making Healthy Places** - Andrew L. Dannenberg 2012-09-18

The environment that we construct affects both humans and our natural world in myriad ways. There is a pressing need to create healthy places and to reduce the health threats inherent in places already built. However, there has been little awareness of the adverse effects of what we have constructed—or the positive benefits of well designed built environments. This book provides a far-reaching follow-up to the pathbreaking *Urban Sprawl and Public Health*, published in 2004. That book sparked a range of inquiries into the connections between constructed environments, particularly cities and suburbs, and the health of residents, especially humans. Since then, numerous studies have extended and refined the book's research and reporting. *Making Healthy Places* offers a fresh and comprehensive look at this vital subject today. There is no other book with the depth, breadth, vision, and accessibility that this book offers. In addition to being of particular interest to undergraduate and graduate students in public health and urban planning, it will be essential reading for public health officials, planners, architects, landscape architects, environmentalists, and all those who care about the design of their communities. Like a well-trained doctor, *Making Healthy Places* presents a diagnosis of—and offers treatment for—problems related to the built environment. Drawing on the latest scientific evidence, with contributions from experts in a range of fields, it imparts a wealth of practical information, with an emphasis on demonstrated and promising solutions to commonly occurring problems.

**I Am a Fugitive from a Georgia Chain Gang!** - Robert E. Burns 2011-08-15

*I Am a Fugitive from a Georgia Chain Gang!* is the amazing true story of one man's search for meaning, fall from grace, and eventual victory over injustice. In 1921, Robert E. Burns was a shell-shocked and penniless veteran who found himself at the mercy of Georgia's barbaric penal system when he fell in with a gang of petty thieves. Sentenced to six to ten years' hard labor

for his part in a robbery that netted less than \$6.00, Burns was shackled to a county chain gang. After four months of backbreaking work, he made a daring escape, dodging shotgun blasts, racing through swamps, and eluding bloodhounds on his way north. For seven years Burns lived as a free man. He married and became a prosperous Chicago businessman and publisher. When he fell in love with another woman, however, his jealous wife turned him in to the police, who arrested him as a fugitive from justice. Although he was promised lenient treatment and a quick pardon, he was back on a chain gang within a month. Undaunted, Burns did the impossible and escaped a second time, this time to New Jersey. He was still a hunted man living in hiding when this book was first published in 1932. The book and its movie version, nominated for a Best Picture Oscar in 1933, shocked the world by exposing Georgia's brutal treatment of prisoners. *I Am a Fugitive from a Georgia Chain Gang!* is a daring and heartbreaking book, an odyssey of misfortune, love, betrayal, adventure, and, above all, the unshakable courage and inner strength of the fugitive himself.

**When Scotland Was Jewish** - Elizabeth Caldwell Hirschman 2015-05-07

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of

Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

**Old Growth in the East** - Mary D. Davis 1993

**I Am Not Sick, I Don't Need Help!** - Xavier Francisco Amador 2011-10-19

'This book fills a tremendous void...' wrote E. Fuller Torrey, M.D., about the first edition of *I AM NOT SICK, I Don't Need Help!* Ten years later, it still does. Dr. Amador's research on poor insight was inspired by his attempts to help his brother Henry, who developed schizophrenia, accept treatment. Like tens of millions of others diagnosed with schizophrenia and bipolar disorder, Henry did not believe he was ill. In this latest edition, 6 new chapters have been added, new research on anosognosia (lack of insight) is presented and new advice, relying on lessons learned from thousands of LEAP seminar participants, is given to help readers quickly and effectively use Dr. Amador's method for helping someone accept treatment. *I AM NOT SICK, I Don't Need Help!* is not just a reference for mental health practitioners or law enforcement professionals. It is a must-read guide for family members whose loved ones are battling mental illness. Read and learn as have hundreds of thousands of others...to LEAP-Listen, Empathize, Agree, and Partner-and help your patients and loved ones accept the treatment they need.

*Who's Who of American Women, 1997-1998* - Marquis Who's Who 1996-12

*WHO'S WHO OF AMERICAN WOMEN* is the one essential reference to depend on for accurate & detailed facts on American women of achievement. This new edition includes in-depth biographical profiles of prominent, accomplished women.

**Health Care Antitrust** - Aspen Health Law Center 1998

Antitrust laws touch upon a wide range of conduct and business relationships in the delivery of health care services, and the issues that should be of concern to health care organizations are described. *Health Care Antitrust* provides practical overviews of the

principal legal issues relating to health care antitrust, as well as a general understanding of antitrust analysis as applied to contractual relationships and business strategies that present antitrust risks in a managed care environment.

**The Little Book of the Flag** - Eva March Tappan 2015-10-12

ÉMore than three hundred years ago a little sailing vessel set out from Holland, crossed the Atlantic Ocean, and followed down our coast from Greenland. Its captain, Henry Hudson, was in search of a quick and easy route to Asia, and when he entered the mouth of the river that is named for him, he hoped that he had found a strait leading to the Asiatic coast. He was disappointed in this, but the Indians welcomed him, the mountains were rich in forests, and the ground was fertile. "It is the most beautiful land in all the world," declared the enthusiastic navigator. Henry Hudson was an Englishman, but he sailed in the employ of the Dutch East India Company, and soon the flag of this Company was well known along the Hudson River. It was the old flag of Holland, three horizontal stripes, of orange, white, and blue, with the initials of the Company on the white stripe. Hudson had not found a new route to Asia, but he had opened the way for the fur-trade. In a few years the Dutch had established trading-posts as far north as Albany. They had also founded a city which we call "New York," but which they named "New Amsterdam." So it was that in 1609 the Dutch flag first came to the New World. Nearly thirty years after the voyage of Henry Hudson, a company of Swedes made a settlement on the Delaware River. This had been planned by the great Gustavus Adolphus, King of Sweden. "That colony will be the jewel of my kingdom," he said; but the "Lion of the North" was slain in battle, and his twelve-year-old daughter Christina had become queen. That is why the loyal Swedes named their little fortification Fort Christiana, and over it they raised the flag of their country, a blue banner with a yellow cross. In course of time the Swedes were overpowered by the Dutch, and then the Dutch by the English; so that before many years had passed, the only flag that floated over the "Old Thirteen" colonies was that of England. This was brought across the sea by the settlers of our first English colony, Jamestown, in

Virginia. Moreover, they had the honor of sailing away from England in all the glories of a brand-new flag made in a brand-new design. The flag of England had been white with a red upright cross known as "St. George's Cross"; but a new king, James I, had come to the throne, and the flag as well as many other things had met with a change. James was King of Scotland by birth, and the Scotch flag was blue with the white diagonal cross of St. Andrew. When James became King of England, he united the two flags by placing on a blue background the upright cross of St. George over the diagonal cross of St. Andrew; and he was so well pleased with the result that he commanded every English vessel to bear in its maintop this flag, "joined together according to the form made by our own heralds," the King declared with satisfaction. It was the custom at that time to call "ancient" whatever was not perfectly new, and therefore the flag used before James became king was spoken of as the "ancient flag," while the new one became the "King's Flag" or the "Union Jack." This change was made in the very year when the grant for Virginia was obtained, and therefore the little company of settlers probably sailed for America with the "King's Flag" in the maintop and the "ancient flag" in the foretop.

**The Official ABMS Directory of Board Certified Medical Specialists** - American Board of Medical Specialties 2006-12

The Official ABMS Directory is a database that includes over 600,000 physician profiles, including their board certification status. The current edition allows users to... Research physicians' education, hospital and academic appointments, professional memberships, and certification/recertification status. Find board-certified specialists in any geographic area. Locate qualified healthcare pro-fessionals for a preferred provider plan, and monitor the qualifications of physicians already in the plan. Refer patients with confidence, and keep up to date on career moves and the whereabouts of colleagues.

**Who's who of Emerging Leaders in America** - 1993

Water+Ink Coloring Book Winter 2020 - Kim Winberry 2019-07-22

I begin my paintings with a sketch and

application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and "zap" the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

**Who's who in the East** - 1983

Wind Vision - U. S. Department U.S. Department of Energy 2015-03-18

This book provides a detailed roadmap of technical, economic, and institutional actions by the wind industry, the wind research community, and others to optimize wind's potential contribution to a cleaner, more reliable, low-carbon, domestic energy generation portfolio, utilizing U.S. manufacturing and a U.S. workforce. The roadmap is intended to be the beginning of an evolving, collaborative, and necessarily dynamic process. It thus suggests an approach of continual updates at least every two years, informed by its analysis activities.

Roadmap actions are identified in nine topical areas, introduced below.

Faces of Suicide - P. O. S. - Ffos Community 2019-02-28

Faces of Suicide: Volume 1 is a collection of stories from the heart, written to show the world that they lived and their lives mattered. Some of the stories may inspire those who are reluctant travelers on this same road. The 60 stories were

compiled by members of the Parents of Suicides - Friends and Families of Suicides Internet Community (POS - FFOS).

Radiation Therapy for Gastrointestinal Cancers - Theodore Hong 2017-02-13

This up-to-date, hands-on manual offers clear guidance on contouring and treatment planning for both standard and advanced radiation therapy in patients with gastrointestinal cancers and simultaneously draws together the available relevant clinical data for each type of cancer with a view to driving treatment recommendations. The full range of malignancies is covered, including esophageal, gastric, pancreatic, hepatic, biliary, colon, rectal, and anal cancers and pelvic recurrences. Additional chapters are devoted to stereotactic body radiation therapy (SBRT) to the liver for metastatic disease. The management of gastrointestinal cancers with radiation therapy has become increasingly complex. Specifically, the emergence of new techniques such as SBRT and intensity-modulated radiation therapy (IMRT) has further increased the need to understand how to contour targets and organs at risk, how to perform safe treatment planning, and when to apply these technologies. In this context, Radiation Therapy for Gastrointestinal Cancers represents an ideal reference for both established clinical radiation oncologists and radiation oncology residents.

**Membership Directory** - American Speech-Language-Hearing Association 1989

**Let the Great World Spin** - Colum McCann 2009-11-30

NATIONAL BOOK AWARD WINNER • Colum McCann's beloved novel inspired by Philippe Petit's daring high-wire stunt, which is also depicted in the film *The Walk* starring Joseph Gordon-Levitt In the dawning light of a late-summer morning, the people of lower Manhattan stand hushed, staring up in disbelief at the Twin Towers. It is August 1974, and a mysterious tightrope walker is running, dancing, leaping between the towers, suspended a quarter mile above the ground. In the streets below, a slew of ordinary lives become extraordinary in bestselling novelist Colum McCann's stunningly intricate portrait of a city and its people. *Let the Great World Spin* is the critically acclaimed author's most ambitious novel yet: a dazzlingly

rich vision of the pain, loveliness, mystery, and promise of New York City in the 1970s. Corrigan, a radical young Irish monk, struggles with his own demons as he lives among the prostitutes in the middle of the burning Bronx. A group of mothers gather in a Park Avenue apartment to mourn their sons who died in Vietnam, only to discover just how much divides them even in grief. A young artist finds herself at the scene of a hit-and-run that sends her own life careening sideways. Tillie, a thirty-eight-year-old grandmother, turns tricks alongside her teenage daughter, determined not only to take care of her family but to prove her own worth. Elegantly weaving together these and other seemingly disparate lives, McCann's powerful allegory comes alive in the unforgettable voices of the city's people, unexpectedly drawn together by hope, beauty, and the "artistic crime of the century." A sweeping and radical social novel, *Let the Great World Spin* captures the spirit of America in a time of transition, extraordinary promise, and, in hindsight, heartbreaking innocence. Hailed as a "fiercely original talent" (San Francisco Chronicle), award-winning novelist McCann has delivered a triumphantly American masterpiece that awakens in us a sense of what the novel can achieve, confront, and even heal. Praise for *Let the Great World Spin* "This is a gorgeous book, multilayered and deeply felt, and it's a damned lot of fun to read, too. Leave it to an Irishman to write one of the greatest-ever novels about New York. There's so much passion and humor and pure life force on every page of *Let the Great World Spin* that you'll find yourself giddy, dizzy, overwhelmed."—Dave Eggers "Stunning . . . [an] elegiac glimpse of hope . . . It's a novel rooted firmly in time and place. It vividly captures New York at its worst and best. But it transcends all that. In the end, it's a novel about families—the ones we're born into and the ones we make for ourselves."—USA Today "The first great 9/11 novel . . . We are all dancing on the wire of history, and even on solid ground we breathe the thinnest of air."—Esquire "Mesmerizing . . . a Joycean look at the lives of New Yorkers changed by a single act on a single day . . . Colum McCann's marvelously rich novel . . . weaves a portrait of a city and a moment, dizzyingly satisfying to read and difficult to put down."—The Seattle Times "Vibrantly whole . . .

With a series of spare, gorgeously wrought vignettes, Colum McCann brings 1970s New York to life. . . . And as always, McCann's heart-stoppingly simple descriptions wow."—Entertainment Weekly "An act of pure bravado, dizzying proof that to keep your balance you need to know how to fall."—O: The Oprah Magazine

Who's who in American Law - 2007

**Accelerated Partial Breast Irradiation** - David E. Wazer 2006-08-02

This text is a concise handbook designed to assist the clinician in the implementation of Accelerated Partial Breast Irradiation (APBI). It includes a review of the principles that underlie APBI, a practical and detailed description of each technique for APBI, a review of current clinical results of APBI, and a review of the incidence and management of treatment related complications. The book encompasses a number of different techniques and approaches that include brachytherapy, intraoperative, and external beam techniques. There is currently no single source that describes these techniques and their clinical implementation.

**Tower Talks** - Metropolitan Life Insurance Company 1923

**Investing in Cultural Diversity and Intercultural Dialogue** - Unesco 2009-01-01

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the

world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

**The American Yawp** - Joseph L. Locke  
2019-01-22

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

**Merchant Vessels of the United States** - 1989

From 1894/95-1935/36, pt.6 of each volume is issued separately, with titles, 1894/95-1902/03: Code list of merchant vessels of the United States; 1903/04-1935/36: Seagoing vessels of the United States.

*Voices in the Mist* - Susanne Dunlap 2021-03-02

Marry a Catholic stranger, or flee the only world she's ever known: Headstrong Bruna de Gansard must choose one or the other to protect her Cathar family from the inquisitors. Toulouse, 1229. The inquisitors have arrived to rid the city of Cathar heretics once and for all, and are putting all unmarried girls over the age of 12 to the question. After an incident in the town calls unwanted attention to 14-year-old Bruna, a young Catholic stranger who is sympathetic to the heretics warns her family about the looming danger, and volunteers to marry their daughter to save her from being questioned. But Bruna doesn't want to be forced into marriage, so she chooses flight—which lands her unexpectedly in the midst of a Catholic pilgrimage to Compostela, thrusting her into a life of deceit. When her beauty and her voice bring her to the attention of the powerful Baron de Belascon, who owes fealty to the king of France, Bruna earns the enmity of the baron's bitter and imperious mother and finds herself caught between her allegiance to her own people and the dangerous secret of her origins—a secret that can be revealed at any time after the arrival of a French knight who recognizes her. The Orphans of Tolosa Trilogy comes to a dramatic end in this gripping story of loyalty and betrayal, set amidst the violence and peril of the Albigensian Crusades.

*Bioterrorism and Biocrimes* - W. Seth Carus 2002

The working paper is divided into two main parts. The first part is a descriptive analysis of the illicit use of biological agents by criminals and terrorists. It draws on a series of case studies documented in the second part. The case studies describe every instance identifiable in open source materials in which a perpetrator used, acquired, or threatened to use a biological agent. While the inventory of cases is clearly incomplete, it provides an empirical basis for addressing a number of important questions relating to both biocrimes and bioterrorism. This material should enable policymakers concerned

with bioterrorism to make more informed decisions. In the course of this project, the author has researched over 270 alleged cases involving biological agents. This includes all incidents found in open sources that allegedly occurred during the 20th Century. While the list is certainly not complete, it provides the most

comprehensive existing unclassified coverage of instances of illicit use of biological agents.
