Agricultural Household Models - Inderjit Singh 1986

This book presents the basic model of an agricultural household that underlies most of the case studies undertaken so far. The model assumes that households are price-takers and is therefore recursive. The decisions modeled include those affecting production and the demand for inputs and those affecting consumption and the supply of labor. Comparative results on selected elasticities are presented for a number of economies. The empirical significance of the approach is demonstrated in a comparison of models that treat production and consumption decisions separately and those in which the

decisionmaking process is recursive.

The book summarizes the implications of agricultural pricing policy for the welfare of farm households, marketed surplus, the demand for nonagricultural goods and services, the rural labor market, budget revenues, and foreign exchange earnings. In addition, it is shown that the basic model can be extended in order to explore the effects of government policy on crop composition, nutritional status, health, saving, and investment and to provide a more comprehensive analysis of the effects on budget revenues and foreign exchange earnings.

Methodological topics, primarily the data requirements of the basic model and its extensions, along with aggregation, market interaction, uncertainty, and market imperfections are discussed. The most important methodological issues - the question of the recursive property of these models - is also discussed.

Social Entrepreneurship - Alex Nicholls 2008-04-03

'Social Entrepreneurship' is a term that has come to be applied to the activities of grass-roots activists, NGOs, policy makers, international institutions, and corporations, amongst others, which address a range of social issues in innovative and creative ways. Themed around the emerging agendas for developing new, sustainable models of social sector excellence and systemic impact, *Social Entrepreneurship* offers, for the first time, a wide-ranging, internationally-focused selection of cutting-edge work from leading academics, policy makers, and practitioners. Together they seek to clarify some of the ambiguity around this term, describe a range of social entrepreneurship projects, and establish a clear set of frameworks with which to understand it. Included in the volume are contributions from Muhammad Yunus, winner of the 2006 Nobel Peace Prize and the father of

microfinance, Geoff Mulgan, former head of the British prime minister's policy unit, and Bill Drayton, founder of the Ashoka network of social entrepreneurs. Jeff Skoll, founder of the Skoll Foundation, and first president of eBay, provides a preface. Alex Nicholls provides a substantial new preface to this paperback edition, reflecting on the latest developments in the study and practice of social entrepreneurship. KASUS-KASUS MANAJEMEN PERUSAHAAN INDONESIA 7: Leadership and Entrepreneurship in Digital Era - Bayu Sutikno 2021-10-21

Proses pembelajaran di sekolah bisnis bertujuan tidak saja merupakan "transfer of knowledge" namun

"transfer of wisdom". Konsekuensinya, sekolah bisnis perlu menghadirkan realitas bisnis ke dalam kelas melalui diskusi kasus bisnis dan menghadirkan kelas ke dalam realitas bisnis melalui program Immersion. MMUGM sebagai sekolah bisnis terkemuka di Indonesia secara konsisten telah melakukan kedua hal tersebut dalam upaya mengembangkan pemimpin bisnis strategik yang berintegritas, kreatif dan berpengetahuan luas untuk melayani masyarakat. Buku Kasus-Kasus Manajemen Perusahaan Seri 7 ini memiliki tema Leadership and Entrepreneurship in Digital Era dan memuat sepuluh kasus yang diharapkan dapat memberikan contoh pengalaman bisnis yang berkembang di bawah kepemimpinan wirausaha. Pemahaman peran seorang pemimpin yang dapat mendorong bisnis, baik di tingkat bisnis kecil hingga perusahaan besar, tentu diperlukan untuk mengantisipasi perubahan yang semakin dinamis, terutama dengan kondisi pandemi COVID-19 saat ini. Untuk melengkapi penggunaan kasus bisnis, para penulis telah menyiapkan teaching notes yang membantu pengguna kasus bisnis untuk mengorkestrasi diskusi kelas.

Developing and Managing Your School Guidance and Counseling Program - Norman C. Gysbers 2014-11-21
The fifth edition of this bestseller expands and extends Gysbers and Henderson's acclaimed five-phase model of planning, designing, implementing, evaluating, and enhancing Pre-K-12 guidance and counseling programs. This enduring, influential textbook has been fully updated to reflect current theory and practice, including knowledge gained through various state and local adaptations of the model since publication of the last edition. Exciting additions to this new edition are increased attention to diversity and the range of issues that students present, counselor accountability, and the roles and responsibilities of district- and building-level guidance and counseling leaders in an increasingly complex educational environment. An abundant array of examples, sample forms, job descriptions, evaluation surveys, flyers, letters, and procedures used by various states and school districts clearly illustrate each step of program development. At the end of each chapter, a new

feature called "Your Progress Check" functions as a tracking tool for growth at each stage of the change process. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.

The New Entrepreneurial Leader -

Danna Greenberg 2011-09-06

In years past, the keywords for leaders were confidence, single-minded purpose, and strategic planning. But today's vastly complex, globalized, and fast-evolving world requires a different kind of leadership. This game-changing book details a new approach—entrepreneurial leadership—developed at Babson College, the number-one school for entrepreneurship in the world. Entrepreneurial leadership is inspired by, but is separate from, entrepreneurship. It can be applied in any organizational situation, not just start-ups. Based on two years of extensive research, it embraces three principles that add up to a fundamentally new worldview of business and a new logic of decision making. First, rapid change and increasing uncertainty require leaders to be “cognitively ambidextrous,” able to shift between traditional “prediction logic” (choosing actions based on analysis) and “creation logic” (taking action despite considerable unknowns). Guiding this different way of thinking and acting is a new view of business, where simultaneous creation of social, environmental, and economic value is the order of the day. Finally, entrepreneurial leaders leverage their understanding of themselves and their social context to guide effective action. Each chapter offers concrete examples of how educators across all disciplines are integrating these ideas into their courses—and even their entire curricula. The New Entrepreneurial Leader lays out a comprehensive new paradigm for reinventing management education in order to mold leaders who will shape social and economic opportunity.

RAW: Real American War - Dr. Oladayo A. Sanusi 2010-03-09

• No Word Mincing • No Politics • No Numbers • No Statistics • No Bull • No Beer • No Six Pack Joe • No Lipsticks • RAW is the way it should be, the way it affects you and our generations to come. • We are in trouble, let us rebuild. • Recipe from a novice. America is well-known for its outstanding charity, for extending help to billions of people all around the world. America clothes people. America provides food. America provides energy. America provides shelter. America opens its gates for people to flood in and become legitimate citizens. The sky is the limit for any gutsy citizen of this gutsy country. So what went wrong here? America is not practicing charity at home. America has nothing left to feed its own. America has nothing left for the poor people of this country, and it expects the workers to hand over their paychecks so those in power can decide what needs to be done ... • The first major problem with America now is the politicians. • The second major problem with America is the politicians. • The third major problem with America is the politicians. The politicians have totally betrayed the system. There is no morality. Some are dysfunctional. Some thrive on illegality. The politicians have failed the American people.

The Stress Analysis of Pressure Vessels and Pressure Vessel Components - Samuel Sidney Gill 1970

Essentials of Managing Organizational Behavior - Jennifer M. George 2000

For an introductory overview course in Organizational Behavior at the undergraduate or graduate level. Presenting organizational behavior as an exciting, fluid, and

multi-faceted discipline, this core text covers major issues in organizational behavior, showing students how an understanding of the field can help them to better appreciate and manage the complexities and challenges associated with working in modern organizations. Concise--yet substantial--it (1) provides comprehensive and integrated coverage of organizational behavior issues, (2) makes important theories accessible and interesting to students; (3) is current, up-to-date, and contains extensive coverage of issues of contemporary significance such as ethics, diversity, and global management; and (4) uses rich, real-life examples of people and organizations to bring key concepts to life and clarify managerial implications.

Performance Budgeting Is Accrual Accounting Required? - Jack Diamond 2006

This paper reviews the role of accounting in budget system reform from the perspective of emerging economies who wish to adopt the OECD's performance budgeting reforms. While many OECD countries, pursuing the reforms associated with the New Public Management, have moved their accounting systems from a cash to an accrual basis, this paper argues that given the costs involved, such a move is perhaps only worthwhile in the context of adopting much wider public

sector management reforms. Moreover, while recognizing that accrual accounting does support public expenditure management best practices, it is also argued that many of the objectives of performance-oriented budgeting can be attained by less than full accrual accounting, and that unless certain preconditions are met it is safer for countries to remain with, and improve, their cash-based accounting systems. For those countries with sound enough cash-based systems the paper describes a possible phased approach to the introduction of accruals, as well as the parallel stages of adopting the new international GFSM 2001 reporting requirements.

Dictionary of Statistics & Methodology - W. Paul Vogt 1998-09-11 Popular in its first edition, Dictionary of Statistics and Methodology will help students get through a difficult journal article or passage. This useful dictionary has been revised with 600 additional new terms and definitions compiled from readers' requests and suggestions! As you've come to appreciate in the first edition, the Second Edition of the Dictionary of Statistics and Methodology contains many examples and definitions written in ordinary English. Author W. Paul Vogt pays special attention to terms that most often prevent educated general readers from understanding

journal articles and books by emphasizing concepts over calculations. The level of explanation varies with the simplicity or complexity of the term defined so that more detail is offered for basic terms (for more introductory readers) while less is used to explain more advanced concepts for readers who have more background.
