Ethical and Inclusive Research with Children - Roseanna Bourke 2020-04-02

The imperative to include children and young people in educational research, and in more participative ways, is educationally important when exploring policy and practice contexts. It is also critical to recognise that children have the right to contribute to debates, and can express their views through educational research, on matters that affect them. However, the freedom to research alongside young people is only afforded if we continue to unmask the illusion that well-intentioned research is always ethical. This book presents an international set of storied experiences, where researchers have been challenged and have changed the way they think, incorporating and exploring ethics in research. The contributors highlight the ethical dilemmas that can arise when children and young people are included in research agendas, and their reflexive approaches to these dilemmas include being responsive to the cultural, political and social contexts of the lives of the children and developing child-friendly research approaches to ensure their 'voice' is accessed in multiple ways. These solution-focused and local approaches facilitate a more ethical, deliberative process where the establishment of trust is central to an ethical engagement with young people and their families and where the explication of ethical dilemmas can improve research practice. This book is a critical resource for researchers and practitioners researching with and alongside children and young people. This book was originally published as a special issue of the International Journal of Inclusive Education.

Journeys in Social Education: A Primer - C. White 2011-07-23

Social education is quite a journey. Given the ongoing debate and struggle with “defining” social education, the following is at present a “working definition” - "While we resist ‘defining’ social education, we believe that social education emphasizes three areas of study: critical pedagogy, cultural/media studies, and social studies education. We also stress that education, interpreted broadly, has the potential to advance social justice." Thus emerged social education... a lifelong journey for all of us – to question, to challenge, to do, and to create. Connecting present and past, merging current issues with traditional curriculum, integrating alternative texts and perspectives, empowering and emancipating kids and educators, and transforming schools and society – the transgressions of social education scream out. Dewey, Freire, Kincheloe, Zinn, Greene, Giroux, Apple, hooks, McLaren, Kozol, Loewen, Said, Chomsky, even Bob Dylan and many others have provided the impetus. May we make them proud! The essays within this text demonstrate various journeys in social education. They are meant as stories, not maps or scripts. They are intended to serve as a primer of sorts, for those interested in a similar journey. Hopefully, this can be a meaningful experience for many – students, educators, parents, and society as a whole, of course. Well... the journey and struggle continues...

Global Perspectives on Quality Assurance and Accreditation in Higher Education Institutions - Magd, Hesham 2021-09-17

Quality accreditation in higher education institutions (HEIs) is currently a buzzword. The need to maintain high-quality education standards is a critical requirement for HEIs to remain competitive in the market and for government and regulatory bodies to ensure the quality standards of programs offered. From being an implicit requirement that is internally addressed, quality assurance activities become an explicit requirement that is regularly audited and appraised by national and international accreditation agencies. HEIs are voluntarily integrating quality management systems (QMS), institutional and program-specific, in response to the political and competitive environment in which it exists. Through its higher education department or by creating non-profitable accreditation bodies, many governments have implemented a quality framework for licensing HEIs and invigilates its adherence based on which accreditation statuses are granted for HEIs. *Global Perspectives on Quality Assurance and Accreditation in Higher Education Institutions* provides a comprehensive framework for HEIs to address quality assurance and quality accreditation requirements and serves as a practical tool to develop and deploy well-defined quality management systems in higher education. The book focuses on the critical aspects of quality assurance; the need to develop a concise and agile vision, mission, values, and graduate attributes; and to develop a system that effectively aligns the various activities of the HEI to the attainment of the strategic priorities listed in the institutional plans. The chapters each cover the various facets of the quality assurance framework and accreditation agencies' requirements with practical examples of each. This book is useful for HEI administrators, quality assurance specialists in HEIs, heads of academic departments, internal auditors, external auditors, and other practitioners of quality, along with stakeholders, researchers, academicians, and students interested in quality assurance and accreditation in higher education.

The Palestinian Authority in the West Bank - Michelle Pace 2018-12-19

The Palestinian Authority in the West Bank explores the manner in which the Palestinian Authority's performative acts affect and shape the lives and subjective identities of those in its vicinity in the occupied West Bank. The nature of Palestinians' statelessness has to contend with the rituals of statecraft that the Palestinian Authority (PA) and its Palestinian functionaries engage in. These rituals are also economically maintained by an international donor community and are vehemently challenged by Palestinian activists, antagonistic to the prevalence of the statist agenda in Palestine. Conceptually, the understanding of the PA's 'theater of statecraft' is inspired by Judith Butler's conception of performativity as one that encompasses several repetitive and ritual performative acts. The authors explore what they refer to as the 'fuzzy state' (personified in the form and conduct of the PA) looks like for those living it, from the vantage point of PA institutions, NGOs, international representative offices, and activists. Methodologically, the book adopts an ethnographic approach, by way of interviews and observations in the occupied West Bank and East Jerusalem. *The Palestinian Authority in the West Bank* makes an important and long-due intervention by integrating performance studies and politics to suggest an understanding of the theatrics of woeful statecraft in Palestine. The book is an essential resource for students and scholars interested in the study of the state, International Relations and Politics, Palestine Studies, and the Middle East.

Teens with the Courage to Give - Jackie Waldman 2000-04-30

Lately, troubled teens have been dominating the headlines. But there are other stories that deserve the spotlight-- stories about the many teenagers who have dedicated themselves to important, socially useful volunteer work and who will lead their generation toward a more hopeful tomorrow. The fourth in Conari Press' "Call to Action" series, *Teens with the Courage to Give* profiles thirty amazing young people throughout the United States and Canada who overcame great personal odds to reach out and help others while healing themselves in the process. Each has founded or is linked to a nonprofit organization that is also profiled in the book, to encourage other teens to embrace volunteerism. In these inspiring pages, to name just a few of these heroic teenagers, you'll meet an amputee who runs in the Paralympics and spurs others on with his inner resolve; the son of a cancer patient who created support groups around the country for kids with sick parents; a girl who helped her mother and younger sister as they died of AIDS and who is now an AIDS awareness and prevention volunteer; and one of the students from the Littleton, Colorado, shooting who has gone on to create a teen drop-in center. Through their courageous first-person stories, these teens show that they are part of the solution to what ails today's society. Includes an extensive resource guide of volunteer opportunities and a classroom/group discussion guide.
