Ecolinguistics - Arran Stibbe 2015-05-01

The increasingly rapid destruction of the ecological systems that support life is calling into question some of the fundamental stories that we live by: stories of unlimited economic growth, of consumerism, progress, individualism, success, and the human domination of nature. Ecolinguistics shows how linguistic analysis can help reveal the stories we live by, open them up to question, and contribute to the search for new stories. Bringing together the latest ecolinguistic studies with new theoretical insights and practical analyses, this book charts a new course for ecolinguistics as an engaged form of critical enquiry. Featuring: A framework for understanding the theory of ecolinguistics and applying it practically in real life; Exploration of diverse topics from consumerism in lifestyle magazines to Japanese nature haiku; A comprehensive glossary giving concise descriptions of the linguistic terms used in the book; Discourse analysis of a wide range of texts including newspapers, magazines, advertisements, films, nonfiction books, and visual images. This is essential reading for undergraduates, postgraduates and researchers working in the areas of Discourse Analysis and Language and Ecology.

Earthly Order - Saleem H. Ali 2022

The Covid-19 Pandemic has brought forth global anxiety about linkages between the environment and society at a fundamental structural level. *Earthly Order: How Natural Laws Define Human Life* provides an accessible exposition of the latest foundational knowledge on how natural and social systems science can inform planetary crises. Humanity has either tried to conquer or capitulate to natural order, whereas we should be seeking to understand latent structures and patterns that permeate all systems and develop an "earthly order," that is socially

functional and sustainable. Current debates in politics often present what should constitute a "world order" while scientists have wrestled with what are fundamental conditions of "natural order." Author Saleem H. Ali provides a readable synthesis of these debates with practical guidance for the public with a host of current examples around environmental decision-making by consumers, the government and industry. The Book of Hope - Jane Goodall 2021-10-19

****THE INSTANT NEW YORK TIMES BESTSELLER**** In a world that seems so troubled, how do we hold on to hope? Looking at the headlines—the worsening climate crisis, a global pandemic, loss of biodiversity, political upheaval—it can be hard to feel optimistic. And yet hope has never been more desperately needed. In this urgent book, Jane Goodall, the world's most famous living naturalist, and Douglas Abrams, the internationally bestselling co-author of *The Book of Joy*, explore through

intimate and thought-provoking dialogue one of the most sought after and least understood elements of human nature: hope. In *The Book of Hope*, Jane focuses on her "Four Reasons for Hope": The Amazing Human Intellect, The Resilience of Nature, The Power of Young People, and The Indomitable Human Spirit. Drawing on decades of work that has helped expand our understanding of what it means to be human and what we all need to do to help build a better world, *The Book of Hope* touches on vital questions, including: How do we stay hopeful when everything seems hopeless? How do we cultivate hope in our children? What is the relationship between hope and action? Filled with moving and inspirational stories and photographs from Jane's remarkable career, *The Book of Hope* is a deeply personal conversation with one of the most beloved figures in the world today. While discussing the experiences that shaped her discoveries and beliefs, Jane tells the story of how she became a messenger of hope, from living through World War II to her years in Gombe to realizing she had to leave the forest to travel the world in her role as an advocate for environmental justice. And for the first time, she shares her profound revelations about her next, and perhaps final, adventure. The second book in the Global Icons Series—which launched with the instant classic *The Book of Joy with His Holiness the Dalai Lama* and Archbishop Desmond Tutu—*The Book of Hope* is a rare and intimate look not only at the nature of hope but also into the heart and mind of a woman who revolutionized how we view the world around us and has spent a lifetime fighting for our future. There is still hope, and this book will help guide us to it.

El Filibusterismo - José Rizal 1968

José Rizal has a good claim to being the first Asian nationalist. An extremely talented Malay born a hundred years ago in a small town near Manila, educated partly in the Philippines and partly in Europe, Rizal inspired the Filipinos by his writing and example to make the first nationalist revolution in Asia in 1896. Today the Philippines revere Rizal as their national hero, and they regard his two books, *The Lost Eden* (Noli Me Tangere) and *The Subversive* (El Filibusterismo) as the gospel of their nationalism. *The Subversive*, first published in 1891, is strikingly timely today. New nations emerging in Africa and Asia are once again in conflict with their former colonial masters, as were the Filipinos with their Spanish rulers in Rizal's day. *The Subversive* poses questions about colonialism which are still being asked today: does a "civilizing mission" justify subjection of a people? Should a colony aim at assimilation or independence? If independence, should it be by peaceful evolution or force of arms? Despite the seriousness of its theme, however, *The Subversive* is more than a political novel. It is a romantic, witty, satirical portrait of Spanish colonial rule in the Philippines at the end of the nineteenth century, written in the tradition of the great adventure romances. The translation by Leon Ma. Guerrero, Philippine ambassador to the Court of St. James, conveys the immediacy of the original, and makes this important work available to a new generation of readers. His translation of *The Lost Eden* is also available in the Norton Library.
