Creating the Jazz Solo - Vic Hobson 2018-10-09

Throughout his life, Louis Armstrong tried to explain how singing with a barbershop quartet on the streets of New Orleans was foundational to his musicianship. Until now, there has been no in-depth inquiry into what he meant when he said, "I figure singing and playing is the same," or, "Singing was more into my blood than the trumpet."

Creating the Jazz Solo: Louis Armstrong and Barbershop Harmony shows that Armstrong

understood exactly the relationship between what he sang and what he played, and that he meant these comments to be taken literally: he was singing through his horn. To describe the relationship between what Armstrong sang and played, author Vic Hobson discusses elements of music theory with a style accessible even to readers with little or no musical background. Jazz is a music that is often performed by people with limited formal musical education. Armstrong did not analyze what he played in theoretical terms.

Instead, he thought about it in terms of the voices in a barbershop quartet. Understanding how Armstrong, and other pioneer jazz musicians of his generation, learned to play jazz and how he used his background of singing in a quartet to develop the jazz solo has fundamental implications for the teaching of jazz history and performance today. This assertive book provides an approachable foundation for current musicians to unlock the magic and understand jazz the Louis Armstrong way.

Najat Ismaeel Sayakhan 2014-07-09

Teachers often complain that students find poetry difficult and intimidating. Some undergraduate students arrive at university with little or no interest in poetry. They confess that they do not know how to read it and therefore cannot understand or appreciate it. The distinctive features of poetry create some problems for the learner of English language, yet, if taught properly, poetry can be an effective tool in urging students to learn the language.

**Literacy in China** - Jiening Ruan 2012-11-29

This is one of two volumes by the same editors that explore historical, philosophical, and cultural perspectives on literacy in China. This volume focuses on English literacy in China, while the other volume is on Chinese literacy. In modern day China, English has enjoyed an increasingly important status in education, but not without challenges. The essays in this volume provide a comprehensive, cross-disciplinary look at changes in English literacy practices and literacy instruction in China from the first English school in the 19th century to recent curriculum reform efforts to modernize English instruction from basic education through higher education. Together, the essays address a wide array of topics, including early childhood English education, uses of information technology to teach English, and teaching English to Chinese minority students. This work is essential reading for those who want to expand their understanding of English literacy education in China.

A Reference Guide for English Studies - Michael J.

Marcuse 1990-01-01

This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies, which Marcuse defines as "all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature." Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as James L. Harner's *Literary Research Guide* (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume.-- Jack Bales, Mary Washington Coll.
