*Growing Up in the Forties* - Rebecca Hunter 2002

This title is part of a series which describes what it was like to grow up in Britain, told by people who were children at the time. It features interviews with people from different walks of life - rich, poor, urban and country dwellers - who grew up in the 1940s. Their memories and reflections combined with historical information give a real picture of what life was like as a child during the era of World War II: evacuation; rationing; air raids; what their homes were like; what games they played; where they went to school; and how they travelled around. This guide is illustrated by the contributors themselves as well as general photos, posters and artefacts from the time.

**From Head to Toe Board Book** - Eric Carle 1999-03-27

What does an elephant do? It stomps its foot. Can you? From the creator of such beloved classics as *The Grouchy Ladybug* and *The Mixed-Up Chameleon* comes this interactive story that invites kids to imitate animal movements. Watching giraffes bend their necks or monkeys wave their arms is fun, but nothing could be better than joining in. From their heads down to their toes, kids will be wriggling, jiggling, and giggling as they try to keep up with these animals! Alligators wiggle, elephants stomp, gorillas thump, and giraffes bend. Can you do it? 'I can do it!' is the confidence-building message of this fun-filled interactive picture book. A variety of familiar animals invite young children to copy their antics, and as they play, they will learn such important skills as careful listening, focusing attention, and following instructions. Just as alphabet books introduce the very young child to letters and simple words, *From Head to Toe* introduces the basic body parts and simple body movements. And in the same way that children progress from understanding simple words to reading and writing sentences and stories, so they will progress from simple body movements to dancing, gymnastics, and other

sports and activities, with confidence and pleasure. Eric Carle's colorful collages have delighted children for more than a generation. Each book provides hours of fun while encouraging them to stretch their imaginations. His matchless words and illustrations now send out a new challenge: Are you ready? Here we go! Move yourself From Head to Toe. A Main Selection of the Children's Book-of-the-Month Club

*Chinese for Working Professionals - Yi Zhou 2019-12-06*

Chinese for Working Professionals is for learners who intend to use Chinese in a multinational global workplace. It has eight thematic units focusing on developing learners' transferrable skills in addition to expanding the cross-cultural competences required in a real-world work-place. Key features: Topical themes expose the ongoing changes in China for working professionals such as career preparation, economic development, business etiquette, the working environment, and overall lifestyle. Authentic reading materials and live videos on a companion website to incorporate understandings of the norm and expectations of the workplace and society at large, and also prepare learners for a quick transition from classroom to targeted scenarios. Abundant simulated real-life collaborative tasks, case

studies, and projects enhance learners' problem-solving skills in Chinese, in addition to work strategies in different scenarios such as communication for work and leisure, and teamwork projects necessary and crucial for professions in multilingual and cross-cultural global settings. This textbook is a key resource for learners of Chinese at an ACTFL Intermediate-High proficiency level and above, or CEFR (Common European Framework of Reference for Language) B1.2 to B2.1 level in terms of language control, extensive and applicable vocabulary and expressions, communication strategies, as well as cultural awareness.

*Pragmatic Competence - Naoko Taguchi 2009-09-04*

In the disciplines of applied linguistics and second language acquisition (SLA), the study of pragmatic competence has been driven by several fundamental questions: What does it mean to become pragmatically competent in a second language (L2)? How can we examine pragmatic competence to make inference of its development among L2 learners? In what ways do research findings inform teaching and assessment of pragmatic competence? This book explores these key issues in Japanese as a second/foreign language. The book has three sections. The first section offers a general overview and historical sketch of the study of Japanese pragmatics and its influence on Japanese pedagogy and curriculum. The overview chapter is followed by eight empirical findings, each dealing with phenomena that are significant in Japanese pragmatics. They target selected features of Japanese pragmatics and investigate the learners' use of them as an indicator of their pragmatic competence. The target pragmatic features are wide-ranging, among them honorifics, speech style, sentence final particles, speech acts of various types, and indirect expressions. Each study explicitly prompts the connection between pragmalinguistics (linguistic forms available to perform language functions) and sociopragmatics (norms that determine appropriate use of the forms) in Japanese. By documenting the understanding and use of them

among learners of Japanese spanning multiple levels and time durations, this book offers insight about the nature and development of pragmatic competence, as well as implications for the learning and teaching of Japanese pragmatics. The last section presents a critical reflection on the eight empirical papers and prompts a discussion of the practice of Japanese pragmatics research.

**Semantics** - James R. Hurford 2007-04-19

This practical coursebook introduces all the basics of semantics in a simple, step-by-step fashion. Each unit includes short sections of explanation with examples, followed by stimulating practice exercises to complete in the book. Feedback and comment sections follow each exercise to enable students to monitor their progress. No previous background in semantics is assumed, as students begin by discovering the value and fascination of the subject and then move through all key topics in the field, including sense and reference, simple logic, word meaning and interpersonal meaning. New study guides and exercises have been added to the end of each unit to help reinforce and test learning. A completely new unit on non-literal language and metaphor, plus updates throughout the text significantly expand the scope of the original edition to bring it up-to-date with modern teaching of semantics for introductory courses in linguistics as well as intermediate students.

*Teaching the Arts to Engage English Language Learners* - Margaret Macintyre Latta 2011

Written for prospective and practicing visual arts, music, drama, and dance educators, *Teaching the Arts to Engage English Language Learners* offers guidance for engaging ELLs, alongside all learners, through artistic thinking. By paying equal attention to visual art, music, drama, and dance education, this book articulates how arts classrooms can create rich and supportive contexts for ELLs to grow socially, academically, and personally. The making and relating, perceiving and responding, and connecting and understanding processes of artistic thinking, create the terrain for rich curricular experiences. These processes also create the much-needed spaces for ELLs to gain communicative practice, skill, and confidence. Special features include generative texts such as films, poems, and performances that function as springboards for arts educators to adapt according to the needs of their classroom; teaching tips, formative assessment practices, and related instructional tables and resources; an annotated list of internet sites, reader-friendly research articles, and instructional materials; and a glossary for readers' reference. resources; an annotated list of internet sites, reader-friendly research articles, and instructional materials; and a glossary for readers' reference.

*Common European Framework of Reference for Languages: Learning, Teaching, assessment* - Council of Europe 2020-05-05

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and

updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains:

- an explanation of the key aspects of the CEFR for teaching and learning;
- a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre–A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence;
- a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

**Man and His Symbols** - Carl G. Jung 2012-02-01

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our

dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.
