Familiar Moon - Diane L. Thompson
2014-05-13

A chance email begins a friendship with one of the founders of the new Townsend moon colony and Quinn Alexander finds himself with access to one of the most sought after stories on earth. As a reporter—even though still a rookie—he could hardly pass up a trip to the moon and unlimited access to the colony's denizens. Should he be surprised, then, to learn that the colonists have an ulterior motive? Or, maybe more than one? As Quinn explores the colony, learning its beginnings and inner workings, he is also learning its secrets and one of these secrets keeps him awake at night. Back on earth, groups known as Earth Firsters spread lies and half-truths demonizing the colony and its inhabitants. Their disinformation campaign and big-money backers worked to suppress publication of Quinn's book, a glowing account of the colony's first year. What other acts of sabotage, even terrorism, are these dark forces planning? Who is financing these groups, religious fundamentalists or corporations wanting to keep the moon's resources to themselves? Quinn knows that if the world knew the colony's secret, the Earth Firsters would win. Quinn follows his instincts and returns to earth without revealing the entire truth. Five years pass, and while pursuing a story on

the International Space Station, Quinn recognizes a UN intelligence operative. However, the man is introduced to Quinn as the new colony administrator. He follows the operative to the moon where he learns of a plot to destroy the Townsend colony and discredit his friends. Quinn finds that he can no longer simply be an observer and, willing or not, becomes a part of the colony's story.

Take One More Chance: A Satire By A Sixteen Year Old - Shriya Garg 2011-01-01
 Naina Kashyap's to-do List: Change career. Next time the guy at McDonald's acts stupid--be polite. Don't get him arrested again. Stupidity is not a crime. Unfortunately. Change society's notion towards child labour. Dad wants me to get married. What the___? Also remember to change family. Some people always take the right decisions and some people take decisions and then make them right. Naina Kashyap was so sure that she fell in the second category. A sharp-tongued, career-oriented girl of today, she had an opinion about everything--from the local underprivileged children forced to work as labourers to her parents' if-I-am-Jesus-Christ-then-you-are-Paris-Hilton marriage. So when her father ordered her to find a decent groom for herself, she responded in the only way she knew how--rebellion. From crazy accidents in Delhi's streets to near drowning in kiddie pools, she rained her wrath on every man she came across. She thought that things could never get worse. Little did she know that the drama had only just begun.

Can't Quarantine Our Love - Sudeep Nagarkar 2021-03-01

True love-we all long for it, only a few ever really find it and even fewer live with it forever Pihu, however, believes true love is a myth. Unlike her gregarious Punjabi parents, she prefers to live in her own little world and wants nothing more than to be left alone with her books for company. When she comes across her new neighbour, Akash, she is irked by his behaviour. A fun and outgoing Gujju boy, Akash is everything Pihu detests. As fate would have it, he is instantly drawn to Pihu on their first meeting while Pihu wants nothing to do with the boy who seems to be ruining her chance of

securing the top position in college. A series of miscommunications make Pihu believe the worst of Akash, further ruining his hopes of ever having a chance at love. Can't Quarantine Our Love is an epic love story of two neighbours with a twist of fate that put everything they knew to a heartbreaking test.

Something I Never Told You - Shravya Bhinder 2019-02-14

When in love, you tend to take each other for granted, and sometimes, that can cost you a lifetime of togetherness . . . Ronnie knew that his first crush was way out of his league, and yet he pursued and wooed Adira. Shyly and from a distance in the beginning, and more persuasively later. He couldn't believe it when the beautiful Adira actually began to reciprocate, falling in love with him for his simplicity and honesty. Slowly, as they get close and comfortable with each other, life takes on another hue. From truly magical it becomes routine. There are fights and then making-up sessions—a clash of egos and doubts. Things begin to change for the worst. It is too late. Ronnie and Adira will probably never find their forever after . . .

The Peculiar Life of a Lonely Postman - Denis Theriault 2017-02

Bilodo lives a solitary daily life, routinely completing his post round every day and returning to his empty Montreal apartment. But he has found a way to break the cycle - Bilodo has taken to stealing people's mail, steaming open the envelopes and reading the letters inside. And so it is he comes across Segolene's letters. She is corresponding with Gaston, a master poet, and their letters are each composed of only three lines. They are writing each other haikus. The simplicity and elegance of their poems move Bilado and he begins to fall in love with her. But one day, out on his round, he witnesses a terrible and tragic accident. Just as Gaston is walking up to the post-box to mail his next haiku to Segolene, he is hit by a car and dies on the side of the road. And so Bilodo makes an extraordinary decision - he will impersonate Gaston and continue to write to Segolene under this

guise. But how long can the deception continue for?

The Nanny's Secret (Mills & Boon Cherish) - Grace Green 2014-10-01

Lily Alone - Jacqueline Wilson 2013-09-26

Lily isn't home ALONE - but she sort of wishes she was; looking after her three younger siblings is a lot of responsibility. When Mum goes off on holiday with her new boyfriend and her stepdad fails to show up, Lily is determined to keep the family together and show they can cope without any grown-ups. But taking care of 6-year-old twins, her 3-year-old sister and the family's flat feels overwhelming and Lily is worried that school or social services might discover their situation and break up the family. What could be better than to take all the little ones for a camping adventure in the park? Plenty of space to run about, no carpet to vacuum, and surely no chance anyone will guess they're there . . .

Become an Idea Machine - Claudia Azula Altucher 2014-12-27

HOW DO I TRANSFORM MY LIFE? The answer is simple: come up with ten ideas a day. It doesn't matter if they are good or bad the key is to exercise your 'idea muscle', to keep it toned, and in great shape. People say ideas are cheap and execution is everything but that is NOT true. Execution is a consequence, a subset of good, brilliant idea. And good ideas require daily work. Ideas may be easy if we are only coming up with one or two but if you open this book to any of the pages and try to produce more than three, you will feel a burn, scratch your head, and you will be sweating, and working hard. There is a turning point when you reach idea number 6 for the day, you still have four to go, and your mind muscle is getting a workout. By the time you list those last ideas to make it to ten you will see for yourself what "sweating the idea muscle" means. As you practice the daily idea generation you become an idea

machine. When we become idea machines we are flooded with lots of bad ideas but also with some that are very good. This happens by the sheer force of the number, because we are coming up with 3,650 ideas per year (at ten a day). When you are inspired by an extraordinary idea, all of your thoughts break their chains, you go beyond limitations and your capacity to act expands in every direction. Forces and abilities you did not know you had come to the surface, and you realize you are capable of doing great things. As you practice with the suggested prompts in this book your ideas will get better, you will be a source of great insight for others, people will find you magnetic, and they will want to hang out with you because you have so much to offer. When you practice every day your life will transform, in no more than 180 days, because it has no other evolutionary choice. Life changes for the better when we become the source of positive, insightful, and helpful ideas. Don't believe a word I say. Instead, challenge yourself to try it for the 180 days and see your life transform, in magical ways, in front of your very eyes.

Fingerprints and Other Ridge Skin Impressions - Christophe Champod
2017-12-19

Since its publication, the first edition of *Fingerprints and Other Ridge Skin Impressions* has become a classic in the field. This second edition is completely updated, focusing on the latest technology and techniques—including current detection procedures, applicable processing and analysis methods—all while incorporating the expansive growth of literature on the topic since the publication of the original edition. Forensic science has been challenged in recent years as a result of errors, courts and other scientists contesting verdicts, and changes of a fundamental nature related to previous claims of infallibility and absolute individualization. As such, these factors represent a fundamental change in the way training, identifying, and reporting should be conducted. This book addresses these questions with a clear viewpoint as to where the profession—and

ridge skin identification in particular—must go and what efforts and research will help develop the field over the next several years. The second edition introduces several new topics, including Discussion of ACE-V and research results from ACE-V studies Computerized marking systems to help examiners produce reports New probabilistic models and decision theories about ridge skin evidence interpretation, introducing Bayesnet tools Fundamental understanding of ridge mark detection techniques, with the introduction of new aspects such as nanotechnology, immunology and hyperspectral imaging Overview of reagent preparation and application Chapters cover all aspects of the subject, including the formation of friction ridges on the skin, the deposition of latent marks, ridge skin mark identification, the detection and enhancement of such marks, as well the recording of fingerprint evidence. The book serves as an essential reference for practitioners working in the field of fingermark detection and identification, as well as legal and police professionals and anyone studying forensic science with a view to understanding current thoughts and challenges in dactyloscopy.

The 8-Hour Diet - David Zinczenko

2013-12-03

A paradigm-shifting diet plan that allows you to eat anything you want, as much as you want—and still strip away 20, 40, 60 pounds, or more. After conducting extensive research at the Salk Institute and the National Institute on Aging, poring over copious amounts of new research in intermittent fasting, and engaging 2,000 people for a test panel, bestselling authors David Zinczenko and Peter Moore determined that people can lose remarkable amounts of weight eating the foods they like best—as long as they eat within a set 8-hour time period. Fasting is, of course, an ancient spiritual and health practice, but it's also a way to sidestep many of the ills of the modern world—including diabetes, heart

disease, and cognitive impairment. Zinczenko and Moore demonstrate how simply observing this timed-eating strategy, even just three days a week, will reset your metabolism so that you can enter fat-burning mode first thing in the morning—and stay there all day long. And by focusing on eight critical, nutrient-rich Powerfoods, you can build in a second layer of protection against Alzheimer's, heart disease, and even the common cold. In the book, you will find motivating strategies, delicious recipes, and an 8-minute workout routine to maximize calorie burn. The 8-Hour Diet promises to strip away unwanted pounds and give you the focus and willpower you need to reach your goals for weight loss and life.

Computational Intelligence-based Time Series Analysis - Dinesh C. S. Bisht 2022-11-30

The sequential analysis of data and information gathered from past to present is called time series analysis. Time series data are of high dimension, large size and updated continuously. A time series depends on various factors like trend, seasonality, cycle and irregular data set, and is basically a series of data points well-organized in time. Time series forecasting is a significant area of machine learning. There are various prediction problems that are time-dependent and these problems can be handled through time series analysis.

Computational intelligence (CI) is a developing computing approach for the forthcoming several years. CI gives the liveness to model the problem according to given requirements. It helps to find swift solutions to the problems arising in numerous disciplines. These methods mimic human behavior. The main objective of CI is to develop intelligent machines to provide solutions to real world problems, which are not modelled or are too difficult to model mathematically. This book aims to cover the recent advances in time series and applications of CI for time series analysis.

REVIEW OF PHARMACOLOGY. - GOBIND RAI. GUPTA GARG (SPARSH.) 2020

The Brand Called You - Ashutosh Garg 2018-12-18

There is no one else in the world like you. Your personal brand has been registered in your name and patented with your persona even though there may be hundreds of people carrying the same name. Creating, building, and developing your personal brand is entirely in your own hands. Conversely, destroying or diminishing your brand is also only in your own hands. Your brand is the essence of your own unique story. The key to this is reaching deep inside yourself and pulling out the authentic, the unique 'you', from within your own self. What we do with our own brand name could be the difference between being very successful and not so successful. This is as true for personal branding as it is for business branding. The Brand Called You outlines how critical it is for each one of us to understand the power and vulnerabilities

of our brand and invest wisely and consistently in our persona and our name. Remember, the only legacy you will leave behind in the world is your name.

Tough Things First: Leadership Lessons from Silicon Valley's Longest Serving CEO - Ray Zinn 2015-11-06

Silicon Valley pioneer Ray Zinn, CEO of top microchip company Micrel for 37 years, shows entrepreneurs and executives how to lead and succeed by tackling the Tough Things First. In high school, Ray Zinn's track coach told him he was too short to run the hurdles. Ray took this as a challenge and, after months of hard training, became the fastest hurdler on the team. That drive and self-discipline is, to Zinn, the essence of the entrepreneurial spirit. It's what pushed him to achieve the impossible, founding a Silicon Valley microchip company—without venture capital—and turning it into a global empire with an enviable 37-year track record as CEO. Tough Things First, the distillation of Ray Zinn's astonishing career as CEO of Micrel, is a comprehensive head-to-toe training program for entrepreneurs and leaders—based on hard-won lessons in business and in life. Zinn's tough-love approach gives you the guidance you need to:

- Find your vision, set your goals, and make them happen
- Build your business like you'd train your body: with heart, soul, mind, and passion
- Master the psychological disciplines that will sharpen your focus and drive
- Create a corporate culture that engages employees and inspires confidence
- Put people first and push them to achieve their personal best
- Tackle the tough jobs today—and ensure your success tomorrow

Zinn tells you what it takes to succeed in a world where markets are constantly changing, new technologies are emerging, and small startups are going head to head with industry giants. He shows you how to be a good leader and what you can do to make yourself even better. He reveals why discipline is the first and most important step—for the entrepreneur and the organization—and why people are your single most valuable resource. He offers practical, no-nonsense advice on processes

and procedures, finances and growth creation, changing markets and new technology. But that's not all. The key to your success, Zinn explains, lies in your mind, your body, your vision, and your heart. This book shows you how to develop these interconnected skills, how to integrate them into your life and work, and how to handle the tough things first. As the trailblazing founder and CEO of Micrel, Inc., one of the world's leading microchip companies, Ray Zinn bootstrapped his company, achieved consistent profitability, and delivered a total equity value of more than \$800 million at its acquisition. In 37 years of leading this publicly traded microchip empire, he saw it through the dot-com bust and Great Recession—with only one unprofitable year—relying on his discipline as a leader, passion as an inventor, and training as an athlete. In 2015, Zinn stepped down as Micrel's CEO and is in the process of launching a Silicon Valley accelerator that will help business visionaries build profitable, enduring companies.

The Journeyer - Gary Jennings 2010-03-02 Marco Polo was nicknamed "Marco of the millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last chance to confess his mendacity, and Marco, it is said, replied "I have not told the half of what I saw and did." Now, in his new novel *The Journeyer*, Gary Jennings has imagined the half that Marco left unsaid as even more elaborate and adventurous than the tall tales thought to be lies. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, from the perfumed sexuality of the Levant to the dangers and rigors of travel along the Silk Road, Marco meets all manner of people, survives all manner of danger, and, insatiably curious, becomes an almost compulsive collector of customs, languages and women. In more than two decades of travel, Marco was variously a merchant, a warrior, a lover, a spy, even a tax collector - but always a journeyer,

unflagging in his appetite for new experiences, regretting only what he missed. Here - recreated and reimagined with all the splendor, the love of adventure, the zest for the rare and curious that are Jennings's hallmarks - is the epic account, at once magnificent and delightful, of the greatest real-life adventurer in human history. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Great Indian Novel - Shashi Tharoor
2011-09-01

In this award-winning novel, Tharoor has masterfully recast the two-thousand-year-old epic, The Mahabharata, with fictional but highly recognizable events and characters from twentieth-century Indian politics. Nothing is sacred in this deliciously irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic The Mahabharata. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.

You are the Best Wife - Ajay Pandey
2015-11

Ajay believes in living for himself; Bhavna teaches him to live for others. Ajay is a planner for life; Bhavna makes him live in every moment. You are the Best Wife is a story of two people with contradictory ideologies who fall in love. It changes them for good. It changes the way they look at the world and the way the world looks at them. Until destiny reveals its plans. This is a true inspiring story of the author and his struggle with life, after his beloved wife left him halfway through their journey. Dandelion - Gabbie Hanna 2020-10-13
New York Times bestselling author Gabbie Hanna delivers everything from curious musings to gut-wrenching confessionals in her long-awaited sophomore collection of illustrated poetry. This edition includes a collection of uncomfortably honest personal essays about Gabbie's childhood and relationships. In this visually thrilling installment of the inner-workings of Gabbie's mind, we're taken on a journey of self-loathing, self-reflection, and ultimately, self-acceptance through deeply metaphorical imagery, chilling twists on child-like rhymes, and popular turns of phrase turned on their heads. Through raw, provocative tidbits, Dandelion explores what it means to struggle with a declining mental health in a world where mental health is both stigmatized and trivialized. The poems range from topics of rage and despair to downright silliness, so if you don't know whether to laugh or cry, just laugh until you

cry.

The Darkness Within Ourselves - Jessica Huntley 2021-03-23

Amber and her four best friends are about to reach their teenage years when the unthinkable happens; one of her friends, Kieran, is killed in a freak accident. Twenty years later, Amber no longer speaks to her friends and is still haunted by that day in the form of severe psychological issues, including sleep paralysis, insomnia and hallucinations of a terrifying entity she calls The Creature. But it isn't just in her head; it is real. Unbeknown to Amber, her former friends have also been suffering from their own psychological nightmares, each trapped and twisted into people they no longer recognise. Then a piece of evidence is found from that day and Amber and her former friends are forced to relive the events leading up to Kieran's death, learning truths along the way that they would rather not know about themselves. Can they work together to rid themselves of their demons and find out what really happened to Kieran all those years ago?

Her Last Wish - Ajay K Pandey 2016-12-20

His father's over expectations only ruined his self-confidence further with each failure. A ray of hope walked into his life as his wife, a charismatic personality spreading joy wherever she went. Everything is going per plan, but darkness comes knocking soon. He finds out that she does not have much time to live and takes it upon himself to fight all odds – even his family, if need be – to help her fight her medical condition. His father sees his own redemption in helping them; he knows his son will be a winner only if he will fight for her, with her. Will a defeated son prove himself to be a good husband? Will the father-son duo together be able to change the course of fate? Her Last Wish is an inspiring story of love, relationships and sacrifice, which proves once again how a good wife makes the best husband.

India Book of Records 2021 - Team Book India 2021-08-02

Young or old, rich or poor, Hindu or Muslim, all unite at one platform; it's the India Book of Re-cords 2021. The year 2021 can be

called the year of record making as more records are created and even more records are attempted than any other year in the past, leading to the breaking of our own boundaries to present you a bigger and thicker India Book of Records 2020.

Arguably this is the biggest national book of records ever produced by any country, which in itself can be called a record. Truly, Indians create more re-cords than anyone else on the planet. While many of the Indian record holders achieved a place in Asia Book of Records and World Record Union, more than 50 Indian re-cord holders featured in a plat-form created by the initiative of three countries that produce the India Book of Records, Viet-nam Book of Records and Indonesia Book of Records to showcase the top record holders at the global stage. As you are holding 'India Book of Records 2021', surely some of the records will inspire you to challenge yourself to create a record and see your name in India Book of Records 2021.
