

Target Patton The Plot To Assassinate General George S Patton

Thank you unconditionally much for downloading **Target Patton The Plot To Assassinate General George S Patton**. Maybe you have knowledge that, people have look numerous times for their favorite books next this Target Patton The Plot To Assassinate General George S Patton , but end going on in harmful downloads.

Rather than enjoying a good PDF with a cup of coffee in the afternoon, then again they juggled in imitation of some harmful virus inside their computer. **Target Patton The Plot To Assassinate General George S Patton** is available in our digital library an online permission to it is set as public correspondingly you can download it instantly. Our digital library saves in multiple countries, allowing you to acquire the most less latency time to download any of our books considering this one. Merely said, the Target Patton The Plot To Assassinate General George S Patton is universally compatible taking into consideration any devices to read.

Killing England - Bill O'Reilly 2017-09-19

The Revolutionary War as never told before. This breathtaking installment in Bill O'Reilly and Martin Dugard's mega-bestselling Killing series transports readers to the most important era in our nation's history: the Revolutionary War. Told through the eyes of George Washington, Benjamin Franklin, Thomas Jefferson, and Great Britain's King George III, *Killing England* chronicles the path to independence in gripping detail, taking the reader from the battlefields of America to the royal courts of Europe. What started as protest and unrest in the colonies soon escalated to a world war with devastating casualties. O'Reilly and Dugard recreate the war's landmark battles, including Bunker Hill, Long Island, Saratoga, and Yorktown, revealing the savagery of hand-to-hand combat and the often brutal conditions under which these brave American soldiers lived and fought. Also here is the reckless treachery of Benedict Arnold and the daring guerrilla tactics of the "Swamp Fox" Frances Marion. A must read, *Killing England* reminds one and all how the course of history can be changed through the courage and determination of those intent on doing the impossible.

Wings of Fury - Robert K. Wilcox 2004-02-24

The author of *Scream of Eagles* records the astonishing experiences of America's finest fighter pilots in training and combat, from Air Force bases throughout the country and from the Vietnam conflict to Operation Desert Storm. Reprint.

Patton - J. Furman Daniel 2020-04-03

General George S. Patton Jr. is one of the most successful yet misunderstood figures in American military history. Despite the many books and articles written about him, none considers in depth how his love of history shaped the course of his life. In this thematic biography, Furman Daniel traces Patton's obsession with history and argues that it informed and contributed to many of his successes, both on and off the battlefield. Patton deliberately cultivated the image of himself as a warrior from ages past; the more interesting truth is that he was an exceptionally dedicated student of history. He was a hard worker and voracious reader who gave a great deal of thought to how military history might inform his endeavors. Most scholars have overlooked this element of Patton's character, which Daniel argues is essential to

understanding the man's genius.

Losing Military Supremacy - Andrei Martyanov 2018-06-04
"Martyanov explains why and how the US armed forces have lost the military supremacy they thought they once had and how Russia, which supposedly had been defeated in the Cold War, succeeded not only in catching up with USA, but actually surpassing it in many key domains such as long range cruise missiles, diesel-electric submarines, air defenses, electronic warfare, air superiority and many others. Andrei Martyanov's book is an absolute 'must read' for any person wanting to understand the reality of modern warfare and super-power competition." THE SAKER While exceptionalism is not unique to America, the intensity of their conviction and its global ramifications are. This view of its exceptionalism has led the US to grossly misinterpret-sometimes deliberately-the causative factors of key events of the past two centuries. Accordingly, the wrong conclusions have been derived, and very wrong lessons learned. Nowhere has this been more manifest than in American military thought and its actual application of military power. Time after time the American military has failed to match lofty declarations about its superiority, producing instead a mediocre record of military accomplishments. Starting from the Korean War the United States hasn't won a single war against a technologically inferior, but mentally tough enemy. The technological dimension of American "strategy" has completely overshadowed any concern with the social, cultural, operational and even tactical requirements of military (and political) conflict. With a new Cold War with Russia emerging, the United States enters a new period of geopolitical turbulence completely unprepared in any meaningful way-intellectually, economically, militarily or culturally-to face a reality which was hidden for the last 70+ years behind the curtain of never-ending Chalabi moments and a strategic delusion concerning Russia, whose history the US viewed through a Solzhenitsified caricature kept alive by a powerful

neocan lobby, which even today dominates US policy makers' minds. Martyanov's former Soviet military background enables deep insight into the fundamental issues of warfare and military power as a function of national power-assessed correctly, not through the lens of Wall Street "economic" indices and a FIRE economy, but through the numbers of enclosed technological cycles and culture, much of which has been shaped in Russia by continental warfare and which is practically absent in the US.

Patton: A Biography - Alan Axelrod 2015-12-29
George S. Patton embodied contradiction: a cavalryman steeped in romantic military tradition, he nevertheless pulled a reluctant American military into the most advanced realms of highly mobile armored warfare. An autocratic snob, Patton created unparalleled rapport and loyalty with the lowliest private in his command; an outspoken racist, he led the only racially integrated U.S. military unit in World War II; an exuberantly profane man, he prayed daily and believed God had destined him for military greatness; a profoundly insecure individual, he made his Third Army the most self-confident and consistently victorious fighting force in the European theater. From Patton's boyhood battling dyslexia and becoming an avid reader, to his leadership strategies that modernized the U.S. army, Alan Axelrod delivers a fascinating account of Patton's life and legacy.

Nazi Gold - Ian Sayer 1998

This is a real-life story about the theft of a fabulous treasure - the German national gold and foreign currency reserves worth some 2,500,000,000 at the time of the original investigation - which disappeared in transit following the Nazi collapse in 1945. It is also the story of a mystery and a cover-up which threatened to involve the US Army in Germany, the Pentagon and the Department of the Army in a scandal which predated Watergate by nearly 30 years."

The Modern Anglo-Dutch Empire - Robert Ingraham
2021-01-17

The story begins in Venice, travels through Amsterdam, and ends in London. This is the birth and evolution of the modern imperial system. Here we look at its history, outlook, and philosophical roots. The connection between the system of empiricism and monetarism is discussed, and the role of its Venetian birthplace is examined. The creation of the Dutch Empire, and the financial speculation in Amsterdam is also discussed. The creation of the British Empire after 1688, and the oligarchical takeover of Britain by a financial oligarchy is detailed. Subjects such as the global slave trade, central banking, narcotics trafficking, and financial deregulation are all looked at. This modern form of oligarchical monetarist empire, together with its anti-human outlook and policies, is still very much with us today. This book is an essential primer in understanding the history of the last 500 years.

Jailed in 'democratic' Germany - Hans Schmidt 1997

The Ruling Elite - Deanna Spingola 2014

Providing a general overview of the accurate history of World War II-which was essentially a continuation of World War I with the same saber-rattling participants-The Ruling Elite describes the circumstances leading up to World War II. Author Deanna Spingola discusses how the diaspora-distributed international bankers living and prospering in Britain, France, and America influenced greedy, compromised, and complicit politicians in those nations. The Ruling Elite explains that through deceptive propaganda, those politicians persuaded naïve citizens to wage war against Germany, a peace-loving nation whose leaders were uncooperative with the bankers, which led to World War I. Following that war, German officials rejected the bankers and their money-lending scheme to save their nation and its citizens from the burden of debt. The aftermath of World War II-a deadly war that killed millions and imposed communism in numerous countries-impacted every banker-occupied country in various ways: culturally, morally, politically, and economically. Researched through

historical documents and scholarly works, The Ruling Elite describes how warmongers regularly project their criminal activities onto others, frequently blaming the victim, whether an individual or a nation. Spingola offers an unbiased look at World War II beginning with Hitler and the rebirth of Germany through the aftermath of the war.

Betrayal at Bethesda - J. C. Hawkins 2017-09-20

On May 22, 1949, former secretary of defense James Forrestal fell from the sixteenth floor of a building in Bethesda, Maryland. His death was investigated by the US Navy, but the official report listed no definitive cause. On May 2, 1957, US senator and staunch anti-Communist advocate Joseph McCarthy died of acute hepatitis. No cause was given and no autopsy was ever conducted. On November 22, 1963, President John F. Kennedy was assassinated while visiting Dallas, Texas. The ensuing investigation would inspire a controversy that would last well into the twenty-first century. Three of the most important men in the fight against global communism all died in sinister circumstances. In the span of fourteen years, Forrestal, McCarthy, and Kennedy, three men who were great friends during their lives, were all effectively removed from international politics. J. C. Hawkins refuses to believe this is a coincidence. His new exposé, *Betrayal at Bethesda*, presents an alternate theory to all three deaths. The men were too closely connected in their policies and political careers for their deaths to be written off as unrelated. Hawkins not only challenges the historical record but also shows how each man died for the ideals they collectively held in such high esteem.

Civil Affairs - Harry Lewis Coles 1964

A documentary history with brief narrative introductions illustrating the evolution of civil affairs policy and practice in the Mediterranean and European theaters.

George S. Patton: The Entire Life Story of an Outstanding General - The History Hour 2018-09-06

George S. Patton An Outstanding General One of the greatest military heroes Download for FREE on Kindle

Unlimited + Free Bonus Inside! Read on your Computer, Mac, Smartphone, Kindle Reader, iPad, or Tablet. Patton *Inside the Assassination Records Review Board, Volume III (3 Of 5)* - Douglas P. Horne 2009-11
VOLUME 3 of 5: Douglas Horne served on the staff of the Assassination Records Review Board (ARRB) during the final 3 years of its 4-year lifespan, from 1995 to 1998, and is the first U.S. government official involved with the medical evidence to allege a coverup in President Kennedy's autopsy, and in the creation of the autopsy photos and x-rays. This book, the product of over 13 years of writing and research, provides the best explanation yet offered of the true nature of the medical coverup in the assassination of JFK, and does so in meticulous detail, with scrupulous use of primary source material. It incorporates the latest information--much of it new evidence not revealed elsewhere--gleaned from the ARRB's depositions and interviews of medical witnesses. With precise accuracy, and with a relentless focus on the massive fraud uncovered in the official records of the 35th President's assassination, Horne presents a persuasive case that the assassination of JFK was an "inside job," a true coup d'etat in America, that was ruthlessly and brazenly covered up by those who 'broke the back of the American century' in Dallas on November 22, 1963. IN VOLUME THREE, THE AUTHOR RELATES THE IMPORTANCE OF THE OBSERVATIONS OF THE TWO FBI AGENTS WHO WERE PRESENT AT JFK'S AUTOPSY; REVISITS THE CRUCIAL OBSERVATIONS OF THE DALLAS TREATING PHYSICIANS WHO SAW PRESIDENT KENNEDY'S WOUNDS AT PARKLAND HOSPITAL (BEFORE THEY WERE LATER SURGICALLY ALTERED, AT BETHESDA NAVAL HOSPITAL, IN AN ATTEMPT TO CHANGE HISTORY); AND EXPLAINS IN DETAIL HOW INDIVIDUALS WITHIN THE U.S. GOVERNMENT CORRUPTED THE CASE BY PLACING FRAUD IN THE EVIDENCE. THE MEDICAL EVIDENCE IN THE CASE WAS HOPELESSLY TAINTED BY THE INSERTION OF DECEPTIVE PHOTOGRAPHS OF A SUBSTITUTE BRAIN INTO THE OFFICIAL RECORD; BY REWRITING THE AUTOPSY REPORT; AND THROUGH THE CREATION OF AN INTENTIONALLY DISHONEST AND MISLEADING COLLECTION OF AUTOPSY PHOTOGRAPHS AND X-RAYS. (Second

Printing---with corrections entered---now for sale.)
Operation Wappen - Robert Maddock 2020-03-31
This is a short story spanning two years from 1956 to 1958. It includes the author's Marine Corps service as a Second Lieutenant artillery forward observer attached to Third Battalion Sixth Marine Regiment led by Colonel Austin C. "Shifty" Shofner (one of only nine men ever to escape a Japanese prisoner of war camp). It describes the maturation of Phase III warfare--the landing by helicopter of an intact infantry battalion ready to fight behind enemy lines (Operation Deep Water) and the beginnings of Phase IV warfare with the return of knights to the battlefield (Yasser Arafat/eventually Osama bin Laden) and an MI6/CIA joint clandestine, frustrated effort to overthrow the Syrian government (Operation Wappen).

The Plot to Seize the White House - Jules Archer
2015-04-07

The true story of a 1933 plot to overthrow the American president in a fascist coup, and the patriot who helped put an end to the scheme. Many people might not know that in 1933, a group of wealthy industrialists--working closely with groups like the K.K.K. and the American Liberty League--planned to overthrow the U.S. government and run F.D.R. out of office in a fascist coup. Readers will learn of their plan to turn unhappy war veterans into American "brown shirts," depose F.D.R., and stop the New Deal. They asked Medal of Honor recipient and Marine Major General Smedley Darlington Butler to work with them and become the "first American Caesar." Fortunately, Butler was a true patriot. Instead of working for the fascist coup, he revealed the plot to journalists and to Congress. Archer writes a compelling account of a ploy that would have turned FDR into fascist puppet, threatened American democracy and changed the course of history. This book not only reveals the truth behind this shocking episode in history, but also tells the story of the man whose courage and bravery prevented it from happening. "Another novel on the order of Seven Days in May

erroneously placed here in the non-fiction section? Wrong. The story Archer tells actually happened though our history texts have ignored the bizarre incident. . . . For whatever reason, the anti-Roosevelt plot is little known and we owe a debt of historical perspective to Jules Archer for his careful reconstruction." -Kirkus Reviews

Japan's Secret War - Robert K. Wilcox 2020-01-21

How Japan's World War II race to build an atomic bomb fathered North Korea's nuclear threat. This revised and greatly updated third edition of Japan's Secret War is a groundbreaking, thoroughly sourced investigation into one of the least-known, yet highly significant episodes of World War II: Japan's frantic race to develop its own atomic bomb. We'll discover how that effort then evolved into North Korea's nuclear program and the looming threat it presents to mankind. Japan's WWII development of a nuclear program is not universally known. After decades of research into national intelligence archives both in the US and abroad, Robert Wilcox builds on his earlier accounts and provides the most detailed account available of the creation of Japan's version of our own Manhattan Project—from the project's inception before America's entry into WWII, to the possible detonation of a nuclear device in 1945 in present-day North Korea. Wilcox weaves a fascinating portrait of the secret giant industrial complex in northern Korea where Japan's atomic research and testing culminated. And it is there that North Korea, following the Japanese defeat, salvaged what remained of the complex and fashioned its own nuclear program. This program puts not only Japan, but also its allies, including the US, in jeopardy.

The Algonquin Project - Frederick W. Nolan 1976

War as I Knew it - George Smith Patton 1995

Transcripts from General Patten's war diary covering his campaigns in Sicily, France, and Germany

Nemesis at Potsdam - Alfred M. De Zayas 1989-01-01

Target JFK - Robert K. Wilcox 2016-11-15

A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

The Guns at Last Light - Rick Atkinson 2014-05-13

The final volume of the trilogy chronicles the Allied victory in Western Europe, from the brutal struggles in Normandy and at the Battle of the Bulge to the freeing of Paris, as experienced by participants from every level of the military.

Hitler's Last Days - Bill O'Reilly 2015-06-09

By early 1945, the destruction of the German Nazi State seems certain. The Allied forces, led by American generals George S. Patton and Dwight D. Eisenhower, are gaining control of Europe, leaving German leaders scrambling. Facing defeat, Adolf Hitler flees to a secret bunker with his new wife, Eva Braun, and his beloved dog, Blondi. It is there that all three would meet their end, thus ending the Third Reich and one of the darkest chapters of history. Hitler's Last Days is a gripping account of the death of one of the most reviled villains of the 20th century—a man whose regime of murder and terror haunts the world even today. Adapted from Bill O'Reilly's historical thriller Killing Patton, this book will have young readers—and grown-ups too—hooked on history. This thoroughly-researched and documented book can be worked into multiple aspects of the common core curriculum.

Great Commanders [Illustrated Edition] - Dr. Christopher Gabel 2014-08-15

Includes 3 maps and 7 illustrations The command of military forces in combat is unlike any other field of human endeavor. If war is the ultimate form of human competition, then the commander is the ultimate competitor. The commander operates in an environment of chance, uncertainty, and chaos, in which the stakes are, quite literally, life and death. He or she contends against an adversary who is using every means, fair or foul, to foil his plans and bring about his defeat. The commander is ultimately responsible for every variable that factors into military success or failure—training,

logistics, morale, equipment, planning, and execution. The commander reaps the lion's share of plaudits in victory, but also must accept the blame in defeat, warranted or not. Very often the line that separates fame and ignominy is slender indeed. It is not difficult to identify "great" commanders, though the overwhelming majority of generals who win battles are never considered "great." Something more than a favorable ratio of wins to losses is needed to establish greatness...The truly great commander is generally considered to be one who attains the unexpected or the unprecedented; one who stands above his contemporaries through his skill on the battlefield, or through the sheer magnitude of his accomplishments. ...The commanders selected were masters of warfare in their particular time and environment. Each capitalized upon the social, political, economic, and technological conditions of his day to forge successful military forces and win significant and noteworthy victories that profoundly altered the world in which he lived.-Dr Christopher R. Gabel. The Great Commanders covered by this volume are Alexander the Great, Genghis Khan, Napoleon, John J. Pershing, Erwin Rommel and Curtis E. LeMay

A Conspiracy Against General Patton - Charles M Province
2021-03-31

An examination, evidence, and proof of the REAL conspiracy against General George S. Patton, Jr. The greatest American General in World War II. A startling revelation about who did what and why they did it. A fascinating story.

Confessions of an Economic Hit Man - John Perkins
2004-11-09

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

The Talk Show Murders - Al Roker 2011

After an ex-cop threatens to expose his past as a con man--and ends up dead--celebrity chef Billy Blessing must find the true killer before the media and public run him out of Chicago on a rail. By the author of The Midnight Show Murders.

Killing Patton - Bill O'Reilly 2014-09-23

Readers around the world have thrilled to Killing Lincoln, Killing Kennedy, and Killing Jesus--riveting works of nonfiction that journey into the heart of the most famous murders in history. Now from Bill O'Reilly, iconic anchor of The O'Reilly Factor, comes the most epic book of all in this multimillion-selling series: Killing Patton. General George S. Patton, Jr. died under mysterious circumstances in the months following the end of World War II. For almost seventy years, there has been suspicion that his death was not an accident--and may very well have been an act of assassination. Killing Patton takes readers inside the final year of the war and recounts the events surrounding Patton's tragic demise, naming names of the many powerful individuals who wanted him silenced.

War of 1812 - Henry Freeman 2020-04-16

The War of 1812 is often forgotten when we think about the history of the United States. Yet the effects of what seems a minor and insignificant conflict are far-reaching, even to today. The world settled into the roles it would play out for decades, and the boundaries of the United States and Canada would be set for the next two hundred years. Inside you will read about... ☐ The Beginning of the War ☐ From Tippecanoe to War Hawks ☐ The War in the North ☐ The Battles of the Middle United States: Iowa and Lake Erie ☐ The Patriot's War ☐ Washington in Flames ☐ A Bit About Pirates ☐ What is the impact of the War of 1812? And much more! Unlikely heroes would rise, leading to eventual power, while Native Americans would play out their own struggle on a backdrop of bloodshed and intrigue.

Target Patton - Robert Wilcox 2014-09-09

Murder, He Wrote... ... And he wrote the true story. Investigative and military reporter Robert Wilcox

unravels the mystery surrounding the death of one of history's preeminent war heroes: George S. Patton. Wilcox cries foul play and reveals the shocking truth behind Old Blood and Guts' untimely demise in *Target: Patton—the Plot to Assassinate General George S. Patton*. Conflicting testimony, disappearing witnesses, missing official reports, a suspicious Stalin, and a lack of autopsy comprise the greatest unsolved mystery of World War II. Find out "whodunit" in this thrilling account of America's most famous general.

Lone Star - T. R. Fehrenbach 2014-04-01

The definitive account of the incomparable Lone Star state by the author of *Fire & Blood: A History of Mexico*. T. R. Fehrenbach is a native Texan, military historian and the author of several important books about the region, but none as significant as this work, arguably the best single volume about Texas ever published. His account of America's most turbulent state offers a view that only an insider could capture. From the native tribes who lived there to the Spanish and French soldiers who wrested the territory for themselves, then to the dramatic ascension of the republic of Texas and the saga of the Civil War years. Fehrenbach describes the changes that disturbed the state as it forged its unique character. Most compelling is the one quality that would remain forever unchanged through centuries of upheaval: the courage of the men and women who struggled to realize their dreams in The Lone Star State.

Harry and Ike - Steve Neal 2002

Between 1945 and 1952, Harry S. Truman and Dwight D. Eisenhower worked more closely than any other two American presidents of the twentieth century; they were partners in changing America's role in the world and in responding to the challenge of a Soviet Europe. And yet, these men of character, intelligence, and principle will likely be remembered for the decade-long epic feud that nearly ended their friendship. In the first biography to examine in depth their political collaboration, bitter rupture, and eventual reconciliation, Steve Neal,

political columnist for the Chicago Sun-Times, provides a fresh perspective on these two remarkable leaders, and on the American presidency itself.

The Death of Expertise - Tom Nichols 2017-02-01

Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

Journey To The City Of Six Gates - Graeme Macquene 2006-04

Princess Mati awakens from a troubled sleep to find that

her life has changed overnight ♦ enemies have invaded the Land of Gold and abducted her parents, the King and Queen. Fourteen-year-old Mati and her twelve-year-old brother, Satya, are secretly spirited away by the loyal Jaya Prabhasa, the most accomplished warrior in the land. As they journey through a world they have never known in all their sheltered existence, and are put to the test by an eccentric flying sadhu, Mati and Satya acquire some extraordinary skills to survive mysterious forests and perilous swamps. But are these sufficient to help the three companions evade marauding armies and rescue their parents? This adventure fantasy set in ancient India, long before the region acquired the name, is written in the engaging style of a historical thriller. Its heroes must discover how to deal with injustice without descending to the level of their violent persecutors. Through contemplative poetic incantation and robust uncluttered prose, it also weaves into its fabric issues such as the status of women and care for the environment.

The Man Who Never Was - Ewen Montagu 2019-09-06

As plans got under way for the Allied invasion of Sicily in June 1943, British counter-intelligence agent Ewen Montagu masterminded a scheme to mislead the Germans into thinking the next landing would occur in Greece. The innovative plot was so successful that the Germans moved some of their forces away from Sicily, and two weeks into the real invasion still expected an attack in Greece. This extraordinary operation called for a dead body, dressed as a Royal Marine officer and carrying false information about a pending Allied invasion of Greece, to wash up on a Spanish shore near the town of a known Nazi agent...

Day Of Deceit - Robert Stinnett 2001-05-08

Using previously unreleased documents, the author reveals new evidence that FDR knew the attack on Pearl Harbor was coming and did nothing to prevent it.

The Last Days of Patton - Ladislav Farago 2011

The Last Days of Patton by Ladislav Farago, a follow-up to his bestselling Patton: Ordeal and Triumph, attempts

to reconstruct the last months of Patton's life in order to determine if the general did indeed try to provoke a war with the Soviet Union and whether he failed to sufficiently de-Nazify the area of Germany under his jurisdiction. Farago also investigates the possibility of a conspiracy to murder Patton and reveals the role other prominent men, including Eisenhower, Montgomery, Marshall, and MacArthur, had in censuring and ultimately removing Patton from active service.

The 2001 Anthrax Deception - Graeme MacQueen 2015-09-19
The 2001 anthrax letter attacks in the United States killed five people and wounded dozens. They were widely blamed on extremist Muslims and their backers and used to support the invasions of Afghanistan and Iraq. They were also used to justify and hasten the passage of the USA PATRIOT Act, which was being presented to Congress just as the first anthrax victim grew ill. In October 2001, one of the hypotheses that gained ground was that of the Double Perpetrator, the claim that al-Qaeda was carrying out the attacks with the support of Iraq. Much evidence was put forth to support this Double Perpetrator hypothesis but independent scientists soon discovered that the anthrax spores came from a domestic lab in the US serving the military and intelligence communities, not from al-Qaeda or Iraq. The FBI then quickly claimed that an individual was responsible for the attacks and began noisily looking for this "lone wolf." In 2008 the Bureau named Dr. Bruce Ivins of the US Army Medical Institute of Infectious Disease as the "anthrax killer." Although the FBI remains committed to the Ivins hypothesis, the case has been disintegrating for the last three years. Currently, it is justly held in contempt not merely by scientists who worked with Ivins but by many journalists as well as several US senators. But this raises the question: if Ivins did not commit this crime, who did? This book presents evidence to support the following points: (a) The anthrax attacks were carried out by a group of perpetrators, not by a "lone wolf." The attacks were, therefore, the result of a conspiracy- by definition a plan by two or more

people, made in secret and resulting in an immoral or illegal act. (b) The group that carried out this crime consisted, in whole or in part, of insiders deep within the US state apparatus. (c) These insiders were the same people who planned the 9/11 attacks (d) The anthrax attacks were meant to facilitate a seizure of power by the executive branch of government through intimidation of Congress and US civil society. They were also designed to achieve public acquiescence to and support for the redefinition of US foreign policy, replacing the Cold War with a new and aggressive global conflict framework, the Global War on Terror.

Rise and Kill First - Ronen Bergman 2019-07-09

NEW YORK TIMES BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject." WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on

the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, Rise and Kill First brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré

I'll Be Gone in the Dark - Michelle McNamara 2019-02-26
THE BASIS FOR THE MAJOR 6-PART HBO® DOCUMENTARY SERIES
#1 NEW YORK TIMES BESTSELLER A BEST BOOK OF THE YEAR:
Washington Post | Maureen Corrigan, NPR | Paste | Seattle Times | Entertainment Weekly | Esquire | Slate | BuzzFeed | Jezebel | Philadelphia Inquirer | Publishers Weekly | Kirkus Reviews | Library Journal | Bustle

The haunting true story of the elusive serial rapist turned murderer who terrorized California during the 70s and 80s, and of the gifted journalist who died tragically

while investigating the case—which was solved in April 2018. The haunting true story of the elusive serial rapist turned murderer who terrorized California during the 70s and 80s, and of the gifted journalist who died tragically while investigating the case—which was solved in April 2018. Introduction by Gillian Flynn • Afterword by Patton Oswalt “A brilliant genre-buster.... Propulsive, can’t-stop-now reading.” –Stephen King For more than ten years, a mysterious and violent predator committed fifty sexual assaults in Northern California before moving south, where he perpetrated ten sadistic murders. Then he disappeared, eluding capture by multiple police forces and some of the best detectives in the area. Three decades later, Michelle McNamara, a true crime journalist who created the popular website TrueCrimeDiary.com, was determined to find the violent

psychopath she called "the Golden State Killer." Michelle pored over police reports, interviewed victims, and embedded herself in the online communities that were as obsessed with the case as she was. *I'll Be Gone in the Dark*—the masterpiece McNamara was writing at the time of her sudden death—offers an atmospheric snapshot of a moment in American history and a chilling account of a criminal mastermind and the wreckage he left behind. It is also a portrait of a woman's obsession and her unflagging pursuit of the truth. Utterly original and compelling, it has been hailed as a modern true crime classic—one which fulfilled Michelle's dream: helping unmask the Golden State Killer.
Killing Lincoln - Bill O'Reilly 2011-09-27
Describes the events surrounding the assassination of Abraham Lincoln and the hunt to track down John Wilkes Booth and his accomplices.
