Human Cargo - Caroline Moorehead 2007-04-01

An arresting portrait of the lives of today's refugees and a searching look into their future The word refugee is more often used to invoke a problem than it is to describe a population of millions of people forced to abandon their homes, possessions, and families in order to find a place where they may, quite literally, be allowed to live. In spite of the fact that refugees surround us—the latest UN estimates suggest that 20 million of the world's 6.3 billion people are refugees—few can grasp the scale of their presence or the implications of their growing numbers. Caroline Moorehead has traveled for nearly two years and across four continents to bring us their unforgettable stories. In prose that is at once affecting and informative, we are introduced to the men, women, and children she meets as she travels to Cairo, Guinea, Sicily, the U.S./Mexico border, Lebanon, England, Australia, and Finland. She explains how she came to work and for a time live among refugees, and why she could not escape the pressing need to understand and describe the chain of often terrifying events that mark their lives. *Human Cargo* is a work of deep and subtle sympathy that completely alters our understanding of what it means to have and lose a place in the world.

Spanning almost every continent and thousands—yes, thousands—of years, Baba's complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. **I Was Told to Come Alone** - Souad Mekhennet 2017-06-13

"I was told to come alone. I was not to carry any identification, and would have to leave my cell phone, audio recorder, watch, and purse at my hotel. . . ." For her whole life, Souad Mekhennet, a reporter for The Washington Post who was born and educated in Germany, has had to balance the two sides of her upbringing -- Muslim and Western. She has also sought to provide a mediating voice between these cultures, which too often misunderstand each other. In this compelling and evocative memoir, we accompany Mekhennet as she journeys behind the lines of jihad, starting in the German neighborhoods where the 9/11 plotters were radicalized and the Iraqi neighborhoods where Sunnis and Shia turned against one another, and culminating on the Turkish/Syrian border region where ISIS is a daily presence. In her travels across the Middle East and North Africa, she documents her chilling run-ins with various intelligence services and shows why the Arab Spring never lived up to its promise. She then returns to Europe, first in London, where she uncovers the identity of the notorious ISIS executioner "Jihadi John," and then in France, Belgium, and her native Germany, where terror has come to the heart of Western civilization. Mekhennet's background has given her unique access to some of the world's most wanted men, who generally refuse to speak to Western journalists. She is not afraid to face personal danger to reach out to individuals in the inner circles of Al Qaeda, the Taliban, ISIS, and their affiliates; when she is told to come alone to an interview, she never knows what

awaits at her destination. Souad Mekhennet is an ideal guide to introduce us to the human beings behind the ominous headlines, as she shares her transformative journey with us. Hers is a story you will not soon forget.

**Dark Archives** - Megan Rosenbloom 2020-10-20

On bookshelves around the world, surrounded by ordinary books bound in paper and leather, rest other volumes of a distinctly strange and grisly sort: those bound in human skin. Would you know one if you held it in your hand? In *Dark Archives*, Megan Rosenbloom seeks out the historic and scientific truths behind anthropodermic bibliopegy—the practice of binding books in this most intimate covering. Dozens of such books live on in the world’s most famous libraries and museums. *Dark Archives* exhumes their origins and brings to life the doctors, murderers, and indigents whose lives are sewn together in this disquieting collection. Along the way, Rosenbloom tells the story of how her team of scientists, curators, and librarians test rumored anthropodermic books, untangling the myths around their creation and reckoning with the ethics of their custodianship. A librarian and journalist, Rosenbloom is a member of The Order of the Good Death and a cofounder of their Death Salon, a community that encourages conversations, scholarship, and art about mortality and mourning. In *Dark Archives*—captivating and macabre

in all the right ways—she has crafted a narrative that is equal parts detective work, academic intrigue, history, and medical curiosity: a book as rare and thrilling as its subject.

[My Monticello](#) - Jocelyn Nicole Johnson 2021-10-05

“A badass debut by any measure—nimble, knowing, and electrifying.” —Colson Whitehead, Pulitzer Prize-winning author of *The Nickel Boys* and *Harlem Shuffle* “...‘My Monticello’ is, quite simply, an extraordinary debut from a gifted writer with an unflinching view of history and what may come of it.” — The Washington Post Winner of the Weatherford Award in Fiction A winner of 2022 Lillian Smith Book Awards A young woman descended from Thomas Jefferson and Sally Hemings driven from her neighborhood by a white militia. A university professor studying racism by conducting a secret social experiment on his own son. A single mother desperate to buy her first home even as the world hurtles toward catastrophe. Each fighting to survive in America. Tough-minded, vulnerable, and brave, Jocelyn Nicole Johnson’s precisely imagined debut explores burdened inheritances and extraordinary pursuits of belonging. Set in the near future, the eponymous novella, “My Monticello,” tells of a diverse group of Charlottesville neighbors fleeing violent white supremacists. Led by Da’Naisha, a young Black descendant of Thomas Jefferson and Sally Hemings, they seek refuge in Jefferson’s historic plantation home in a desperate attempt to outlive the long-foretold racial and environmental unravelling within the nation. In “Control Negro,” hailed by Roxane Gay as “one hell of a story,” a university professor devotes himself to the study of racism and the development of ACMs (average American Caucasian males) by clinically observing his own son from birth in order to “painstakingly mark the route of this Black child too, one whom I could prove was so strikingly decent and true that America could not find fault in him unless we as a nation had projected it there.” Johnson’s characters all seek out home as a place and an internal state, whether in the form of a Nigerian widower who immigrates to a meager existence in the city of Alexandria, finding himself adrift; a young mixed-race woman who adopts a new tongue and name to escape the landscapes of rural Virginia and her family; or a single mother who seeks salvation through “Buying a House Ahead of the Apocalypse.” United by these characters’ relentless struggles against reality and fate, *My Monticello* is a formidable book that bears witness to this country’s legacies and announces the arrival of a wildly original new voice in American fiction.

**The Journey of Being Human** - Osho 2012-04-24

One of the twentieth century's greatest spiritual teachers invites you onto the path that takes you through all of life's experiences and to embrace your own humanity. Man is a bridge, says Osho, between the animal and the divine—and our awareness of this dual aspect of our nature is what makes us human. It is also what makes us restless, full of conflict, so often at the crossroads of selfishness and generosity, of love and hate, frailty and strength, hope and despair. The Journey of Being Human: Is It Possible to Find Real Happiness in Ordinary Life? looks into how we might embrace and accept these apparent contradictions, rather than trying to choose between them, as the key to transforming each twist and turn of life's journey into a new discovery of who we are meant to be. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

*Women and Migration* - Deborah Willis 2019-03-08

The essays in this book chart how women's profound and turbulent experiences of migration have been articulated in writing, photography, art and film. As a whole, the volume gives an impression of a wide range of migratory events from women's perspectives, covering the Caribbean Diaspora, refugees and slavery through the various lenses of politics and war, love and family. The contributors, which include academics and artists, offer both personal and critical points of view on the artistic and historical repositories of these experiences. Selfies, motherhood, violence and Hollywood all feature in this substantial treasure-trove of women's joy and suffering, disaster and delight, place, memory and identity. This collection appeals to artists and scholars of the humanities, particularly within the social sciences; though there is much to recommend it to creatives seeking inspiration or counsel on the issue of migratory experiences.

**Hair** - Kurt Stenn 2016-02-15

A microhistory in the vein of Salt and Cod exploring the biological, evolutionary, and cultural history of one of the world's most fascinating fibers. Most people don't give a second thought to the stuff on their head, but in Hair, Kurt Stenn — one of the world's foremost hair follicle experts — takes readers on a global journey through history, from fur merchant associations and sheep farms to medical clinics and patient support groups, to show the remarkable impact hair has had on human life. From a completely bald beauty queen with alopecia to the famed hair-hang circus act, Stenn weaves the history of hair through a variety of captivating examples, with sources varying from renaissance merchants' diaries to interviews with wig makers, modern barbers, and more. In addition to expelling the biological basis and the evolutionary history of hair, the fiber is put into context: hair in history (as tied to textile mills and merchant associations), hair as a construct for cultural and self-identity, hair in the arts (as the material for artist's brushes and musical instruments), hair as commodity (used for everything from the inner lining of tennis balls to an absorbent to clean up oil spills), and hair as evidence in criminology. Perfect for fans of Mark Kurlansky, Hair is a compelling read based solidly in historical and scientific research that will delight any reader who wants to know more about the world around them.
