Too Much Free Speech? - Randall P. Bezanson 2012-10-15

In *Too Much Free Speech?*, Randall P. Bezanson takes up an essential and timely inquiry into the Constitutional limits of the Supreme Court's power to create, interpret, and enforce one of the essential rights of American citizens. Analyzing contemporary Supreme Court decisions from the past fifteen years, Bezanson argues that judicial interpretations have fundamentally and drastically expanded the meaning and understanding of "speech." Bezanson focuses on judgments such as the much-discussed *Citizens United* case, which granted the full measure of constitutional protection to speech by corporations, and the *Doe vs. Reed* case in Washington state, which recognized the signing of petitions and voting in elections as acts of free speech. In each case study, he questions whether the meaning of speech has been expanded too far and critically assesses the Supreme Court's methodology in reaching and explaining its expansive conclusions. Bezanson's measured approach and deep insights reveal the complexities of speech in the realms of human behavior and constitutional law. His wide-ranging analysis of relevant Supreme Court cases arms readers with the facts and perspectives necessary to reach independent conclusions about whether the Court's conduct befitted the independent judicial branch and to understand the consequences of its decisions for a representative democracy.

Torn Trousers: A True Story of Courage and Adventure: How A Couple Sacrificed Everything To Escape to Paradise - Andrew St Pierre White 2015-02-20

What could possibly go wrong in paradise? Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, *Torn Trousers* is a real modern fairytale about getting exactly what you wished for...and then having to live with it. Scroll up and buy to escape to Africa today!

9th International Munich Chassis Symposium 2018 - Peter Pfeffer 2018-09-26

By forming the link between the road surface and the vehicle, the chassis plays a key role in enhancing vehicle dynamics and ride comfort. With its control systems, it provides the basis for the further development of driver assistance systems which support the driver in the task of driving the vehicle. This applies to an even greater extent to autonomous vehicles. Electromechanical steering and steer-by-wire systems are one solution available. At the same time, the brake system as a safety component needs to be developed in such a way that it fulfills the requirements of powertrain hybridization and electrification.

The Road Chose Me Volume 1 - Dan Grec 2018-05-05

When Dan set out to drive his Jeep from the Northern tip of Alaska to Tierra del Fuego on the Southern tip of South America, he had no idea how much the adventure would change his life. Over the course of two years, Dan's expedition spanned forty thousand miles through sixteen countries. Now he will never be the same. After years of saving, dreaming and planning, Dan wanted to find out if an ordinary guy can achieve the extraordinary. With no sponsorship, a modest savings account and a willingness to learn Spanish, Dan threw himself in. Going solo, with no GPS and sleeping in a ground tent, Dan wanted to experience everything the Americas have to offer. From poking lava with a stick and hiking among world-famous mountains to corrupt military and camping with Ecuadorian locals - every day provided something new. With his eyes and ears open to the world around him, Dan met many interesting and thought-provoking characters. With their guidance and prodding, and by using their unique perspective, Dan was able to learn many valuable life lessons. Running to the beat of a different drum, Latin America was the perfect classroom for Dan to view our modern work-a-

day world through an entirely new lens.

We at 4th Watch Publishing are former government employees, so we know how government employees actually use the standards. When a new standard is released, somebody has to print it, punch holes and put it in a 3-ring binder. While this is not a big deal for a 5 or 10-page document, many DoD documents are over 400 pages and printing a large document is a time-consuming effort. So, a person that's paid \$25 an hour is spending hours simply printing out the tools needed to do the job. That's time that could be better spent doing mission.
